THE EUROPA YEAR BOOK

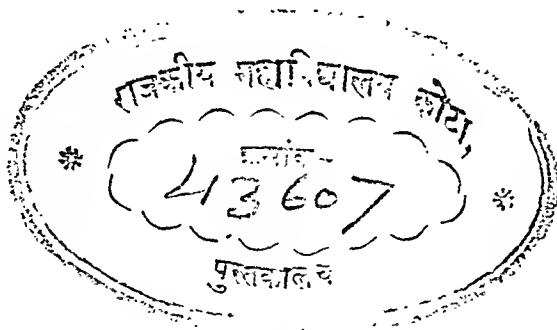

VOLUME TWO

1970

THE
EUROPA
YEAR BOOK
1970

VOLUME II

Africa, The Americas, Asia, Australasia

EUROPA PUBLICATIONS LIMITED
18 BEDFORD SQUARE LONDON WC1

Foreword

THIS eleventh edition of THE EUROPA YEAR BOOK Volume II differs from the preceding editions in one significant respect: for the first time no new chapter appears, since no new state has been created or received full independence during the last year.

Nevertheless the range and quality of information received by the editors has continued to increase; this is reflected in the expansion of the directory and statistical sections and the further extension of many introductory surveys. The year has seen an exceptional number of changes of government—constitutional and otherwise—and we have endeavoured to include the latest available information on the new regimes right up to our press date.

The editors are once again indebted to the many individuals throughout the world who have assisted us with contributions too numerous to acknowledge individually. Only with their generous co-operation has it been possible for THE EUROPA YEAR BOOK to reach its present place amongst the world's reference books.

AFGHANISTAN

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Kingdom of Afghanistan lies in the heart of Asia. Its neighbours are to the north the Soviet Union, to the west Iran, to the east China and to the east and south Pakistan. The climate varies sharply between the highlands and lowlands; the temperature in the south-west in summer reaches 120°F (48.8°C) and in the winter in the Hindu Kush mountains of the north-east falls far below zero. The two main languages are Pakhto (Pashtu) and Dari Persian. With the exception of small minorities of Hindus, Sikhs and Jews, all Afghans are Muslims, almost 90 per cent of them of the Sunni sect. The flag consists of black, red and green bands bearing symbolic emblems. The capital is Kabul.

Recent History

During both wars Afghanistan was neutral and is now a staunch advocate of the policy of non-alignment, accepting economic assistance from both East and West. Afghan-Pakistan trade and diplomatic relations were suspended between 1961 and 1963 over the long, and still unsettled, Pashtunistan dispute concerning Afghanistan's support for an autonomous area for the Pathan tribes living in the north-west of Pakistan. The ten-year administration of Sardar Daud was followed by the administrations of Dr. M. Yusuf (1963-65), M. H. Maiwandwal (1965-67) and the present Prime Minister, N. A. Etemadi. A liberal constitution was promulgated in 1964 and parliamentary elections have been held in October 1965 and August-September 1969.

Government

Under a new Constitution approved in 1964 the prime legislative body is a bicameral Parliament, elected for four years. The Lower House (House of the People) is elected by universal secret ballot; some members of the Upper House (House of Elders) are appointed by the King and by the provincial councils. Each of the 29 provinces has a Consultative Council presided over by a Governor. Provincial Governors are directly responsible to the Minister of the Interior. The Prime Minister is nominated by the King, who also approves the Cabinet Ministers appointed by the Prime Minister.

Defence

Every able-bodied Afghan has to serve two years in the Army, which numbers 150,000 men. The Afghan Air Force is equipped with supersonic jet aircraft. Police security forces come under the Ministry of the Interior.

Economic Affairs

Agriculture remains the mainstay of the economy, in terms of both production and employment. About two-thirds of agricultural production is at subsistence level. Roughly a sixth, comprising wool, karakul skins, cotton and fruit, is exported, but it has recently been necessary to import quantities of foodstuffs, notably wheat. There are known deposits of petroleum, iron ore (with estimated reserves of over 2,000 million tons) and other minerals,

but commercial exploitation is limited at present to coal, salt and lapis lazuli. The discovery of over 60,000 million cubic metres of natural gas in northern Afghanistan holds promise for the development of the unexploited minerals, and the increasing export of natural gas to the U.S.S.R., started in 1967, will have an important impact on the economy. Existing sources of energy are imported petroleum (mainly from the U.S.S.R.), hydroelectricity, coal and wood. Industry accounts for only about 5 per cent of domestic production. Major industries are cotton textiles, cement and the processing of agricultural products, but among the limited consumer industries hand-woven carpets are very valuable as export items.

Over one-third of exports go to the U.S.S.R. under barter contracts, about a quarter to India and Pakistan under bilateral trade agreements, and the remainder is sold in Western markets for convertible currencies. Imports are greatly in excess of exports, and Afghanistan is dependent on the foreign aid she receives mainly from the U.S.S.R. and the U.S.A. Foreign aid plays a major part in financing the Third Five-Year Plan (1967-71).

Transport and Communications

Afghanistan is a land-locked country and the most convenient access to the sea lies through Pakistan. There are no railways. The United States and the Soviet Union have helped to build all-weather highways connecting the main towns, and a network of asphalted highways covers the country. A road link between Kabul and the northern provinces through the Hindu Kush was opened in 1964. There are internal and international air services and water traffic on the River Oxus.

Social Welfare

Government officials in the main towns enjoy national health insurance and all officials are entitled to an Old Age Pension. Most private companies have their own doctors and hospitals. There are 63 public hospitals. Disabled people are looked after in Social Welfare Centres in the provincial capitals.

Education

Primary education is free, and compulsory wherever possible; by 1968 there were 497,879 children in over 2,500 schools. The Government aims to provide basic educational facilities to 50 per cent of the population by 1980. There are two Universities.

Tourism

These are Afghanistan's principal attractions: Bamian with its high statue of Buddha and thousands of painted caves. Bandi Amir with its suspended lakes. The Blue Mosque of Mazar. The walls of Kabul. Herat with its Grand Mosque and minarets. The towns of Kandahar and Girishk. Balkh (ancient Bactria) "Mother of Cities", in the north. Bagram, Hadda and Surkh Kotal (of interest to archaeologists). And, finally, the high mountains of the Hindu Kush.

Visas are required to enter Afghanistan for nationals of all countries.

ALGERIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Algerian Republic lies on the Mediterranean coast of Africa with Morocco to the west and Tunisia to the east. The climate on the coast is temperate, becoming more extreme in the Atlas mountains immediately to the south. The Sahara, further south, is hot and arid. The languages spoken are French and Arabic. The Muslim faith predominates; the Catholic minority greatly declined when most French settlers departed. The flag consists of a red crescent and star against a white and green field divided vertically. The capital is Algiers.

Recent History

Formerly a part of the French Republic, Algeria fought a civil war from 1954 to 1962. The nationalist forces came to be led by the Front de Libération Nationale (FLN), based on Tunisia. In 1962, by the Agreement of Evian, self-government was ceded by France. There was provision to maintain French bases in Algeria and for continued French aid to the territory. In the autumn of 1963 there was a brief border war with Morocco but a cease-fire agreement was soon reached through the intervention of the Organization of African Unity. In June 1965 the former President Ben Bella was deposed in a bloodless *coup d'état* and Col. Houari Boumedienne assumed control of the state as President of a Revolutionary Council. Relations with France have since deteriorated, while strong links with the Soviet Union have been formed. Algeria has taken a militant Arab nationalist position and maintains a fighting force along the Suez Canal.

Government

Under the 1963 Constitution Algeria is a one-party state with strong executive powers vested in the President. The National Assembly is the main legislative body, elected for five years by universal adult suffrage. The present Assembly was elected in September 1964. Since June 1965 the functions of Presidency have been exercised by the Revolutionary Council. Communal and departmental elections were held in 1967 and 1969 respectively, and a general election is due in 1970.

Defence

The National Popular Army, formerly FLN's military wing, is now Algeria's official army. The estimated strength of the armed forces is 65,000. Both France and the Soviet Union provide military equipment and training. Early in 1968 France handed back its major naval base at Mers-el-Kébir. Compulsory national service for both sexes was officially introduced in 1969, but many recruits will be mainly employed on public service projects.

Economic Affairs

Algeria is predominantly an agricultural country, but it is also rich in minerals, notably iron ore, phosphates, oil and natural gas. An industrialization programme based on

these resources is now under way. Oil production reached 46 million tons in 1969. Since 1964 liquefied natural gas has been exported in quantity to the U.K. and France, and a large American contract is being negotiated. With the exception of oil and gas, production in Algeria declined after the change of regime, but many sectors recovered after 1965. However, the economy continues to be heavily bolstered by external aid. Most foreign firms have been nationalized; *autogestion*, a form of management by the workers, has been tried out in industry but is now being replaced by orthodox state capitalism. Wine, formerly a major export to France, is now to be exported to the U.S.S.R., which is building a steel plant at Annaba. In 1969 Algeria joined the Organization of Petroleum Exporting Countries (OPEC).

Transport and Communications

There are 2,500 miles of railway, excellent coastal roads and good major roads over the mountains and into the Sahara. Algiers is one of the principal ports on the Mediterranean. There are internal and international air services.

Social Welfare

The unemployment situation has been improved by the creation of nearly half a million jobs in public works and by the opening of employment agencies. Some 30 per cent of the labour force are without work and many more are underemployed. Public works projects attempt to absorb some of the unemployed; workers are provided with food but otherwise unpaid. In 1968 an agreement was signed with France allowing 35,000 Algerian workers into France each year.

Education

In 1968-69 over 1,500,000 children were in schools of all types, mostly receiving primary education. Instruction in Arabic is being gradually extended with the aim of eventually replacing French. Adult education is being expanded—75 per cent of the population over 10 is illiterate. There are universities at Algiers and Oran, and a university centre at Constantine.

Tourism

The chief attractions for tourists are the Mediterranean coast, the Atlas mountains and the Desert, and the climate. An ambitious programme for the expansion of tourist facilities began in 1968 with the object of attracting over 400,000 tourists a year by 1973.

Visas are not required to visit Algeria by nationals of the following countries: Adu, Andorra, Bahrain, Denmark, Finland, France, French Guiana, French Somaliland, Guadeloupe, Guinea, Guyana, Iraq, Italy, Jordan, Kuwait, Lebanon, Liechtenstein, Mauritius, Morocco, Norway, Oman, Réunion, San Marino, Spain, Spanish Sahara, Sweden, Switzerland, Syria, Tunisia, United Arab Republic, Yemen and Yugoslavia.

THE CONSTITUTION

(Approved by popular referendum, September 1963)

Preamble

History of the Front for National Liberation (FLN). Fundamental objectives of the Republic. Need for single-party rule.

Articles 1-11; Main Aims and Principles

Algeria is a Democratic and Popular Republic. It forms part of the Arab Maghreb, the Arab World and of Africa. Islam is the official religion, but the State guarantees freedom of opinion and belief and free expression of religion. Arabic is the official language of the State. The capital of Algeria is Algiers, headquarters of the National Assembly and the Government. The National Popular Army ensures the defence of territory and takes part in the country's social and economic activities. The basic administrative unit of the Republic is the Commune.

The main aims of the Republic are to safeguard national independence, territorial integrity and national unity; to exercise power by the people; to build a socialist democracy; to guarantee the right to work and to free education; to eliminate the vestiges of colonialism; to defend individual freedoms; to fight discrimination, in particular that based on race or religion; to strive for peace in the world. The Republic conforms to the Universal Declaration of the Rights of Man.

Articles 12-22; Fundamental Rights

All citizens of both sexes have the same rights and the same duties. All citizens over 19 years have the right to vote. The domicile cannot be violated and secrecy of correspondence is guaranteed to all citizens. No one can be arrested or tried except for legal offences and according to legal procedure. All have a right to a decent life and a fair share of the national income. The Family, main unit of society, is under State protection. Education is compulsory and is offered to all. The Republic guarantees freedom of the Press and other means of information, freedom of association, freedom of speech and public discourse and freedom to hold meetings. Trade unionism, the right to strike, and the participation of workers in the administration of business will be upheld within the framework of the relevant laws. The Republic guarantees political asylum to all who fight for freedom.

The rights and freedoms referred to may not be used to hinder national independence, or to affect territorial integrity, national unity, the institution of the Republic, the socialist aims of the people or the principle of unity of the F.L.N.

Articles 23-26; The National Liberation Front (F.L.N.)

The F.L.N. is the only *avant-garde* party in Algeria. It outlines policy and controls the activity of the National Assembly and the Government. It reflects the deep aspirations of the masses. It educates and leads them. It achieves the objectives of the revolution and establishes socialism in Algeria.

Articles 27-38; Sovereign Rights—The National Assembly

Sovereign rights belong to the people. They are exercised by representatives in the National Assembly, nominated by the F.L.N. and elected for five years by direct and secret ballot. The method of election, number of representatives, and conditions of eligibility are fixed by law and reviewed by a Commission.

The Assembly meets within two weeks of election of its members and confers power on them. It then elects its

President, Bureau, and Special Committees. The President of the National Assembly occupies the second highest position in the State.

The President of the Republic and Members of the Assembly have the power to initiate laws. All members of the Government have the right to attend debates and to address the Assembly. Control over Government acts is exercised by: hearings of Ministers in Committees; written questions; oral questions with or without debate.

Articles 39-59; The Executive

The executive power lies with the Head of State, the President of the Republic. He is nominated by the Party, and is elected by universal direct and secret ballot, for a five-year term. Any Moslem of Algerian origin having all civil and political rights and being 36 years of age or older, may be elected President of the Republic. The President is sworn in by the National Assembly. Foreign diplomats are accredited to the President. The President, on the advice of the Minister for Foreign Affairs, appoints Algeria's Ambassadors and Envoys.

The President: signs, ratifies (in consultation with the Assembly), and ensures the execution of Treaties and other International Agreements; is Supreme Leader of the Armed Forces; declares war and draws up terms for peace, with the approval of the National Assembly; presides over the Higher Councils of Defence and the Law; exercises the right to grant a legal reprieve; nominates Ministers, of whom two-thirds must be members of the Assembly; has sole responsibility before the Assembly; defines and directs Government policies; proclaims and publishes Laws and ensures that they are executed; appoints all civil servants and defence personnel.

The President must promulgate Laws within ten days of their formal transmission by the National Assembly. Within this time limit the President can ask the Assembly to deliberate a second time, and this request cannot be refused. The period of ten days can be reduced at the request of the Assembly in matters of urgent necessity. If the President of the Republic does not proclaim the Laws within the time limit, the President of the Assembly shall do so.

A motion of censure may be tabled against the President if signed by one-third of the members of the Assembly. A majority vote in the Assembly on such a motion shall entail the resignation of the President and the automatic dissolution of the Assembly. This vote by public ballot shall take place after five clear days have expired from the time of tabling the motion. In the case of resignation, death or incapacitation of the President, the President of the Assembly shall carry out the duties of President of the Republic with the assistance of the heads of permanent committees of the Assembly. He shall arrange within two months elections for a new President, and if necessary for a new National Assembly.

The President of the Republic may ask the Assembly to give him the power to make Laws by Decree for a limited period. Such Decrees shall be taken in the Council of Ministers and submitted for ratification by the Assembly within three months. In the case of emergency, the President can take exceptional measures to safeguard national independence and the Institutions of the Republic. The National Assembly then has the full right to meet automatically.

ALGERIA—(THE CONSTITUTION, THE GOVERNMENT)

Articles 60-62: Justice

Justice is done in the name of the Algerian People. The right to defence before the law is recognised and guaranteed. Judges obey only the Law and the interests of the Socialist Revolution. Their independence is guaranteed by Law and by the existence of a Higher Council of Law.

Articles 63-64: The Constitutional Council

The Constitutional Council consists of the President of the Supreme Court, the Presidents of the Civil and Administrative Chambers of the Supreme Court, three nominated members of the National Assembly and a member nominated by the President of the Republic. The members of the Constitutional Council elect their own President, who has no casting vote. Either the President of the Republic or the President of the Assembly may ask the Constitutional Council to judge the validity of Laws and Decrees.

Articles 65-70: Higher Organizations

The Higher Council of the Law consists of the President, the Minister of Justice, the President and Attorney General of the Supreme Court, a Lawyer of the Supreme Court, two Magistrates, one of whom is a judge, elected by their colleagues, and six Members of the Assembly elected by the permanent Committee of Justice.

The Higher Council of Defence consists of the President, the Ministers of National Defence, the Interior, and Foreign Affairs, the President of the Assembly's Commission for

National Defence, and two Members nominated by the President of the Republic.

The Higher Economic and Social Council consists of five Members of the Assembly, the Director of Economic Planning, the Governor of the Central Bank of Algeria, members of the national organizations and representatives of major national economic and social activities appointed by the President. It elects its own President.

Articles 71-74 Constitutional Alterations

The initiative for altering the Constitution lies jointly with the President of the Republic and the National Assembly. Two readings and two votes with absolute majority must be given at an interval of two months, to draft any bill. This draft shall then be submitted for approval to the People by referendum. A bill approved by the People shall be proclaimed Law within eight days of the referendum.

Articles 75-78: Temporary Measures

The national hymn is *Kassamen* until such time as an extra-constitutional law shall fix a new national hymn.

The use of French in education shall continue only until the realisation of all-Arabic education becomes possible.

After approval of the Constitution by popular referendum it shall be promulgated within eight days. The election of the President of the Republic shall take place within one month of the approval of the Constitution.

ALGERIA—(NATIONAL ASSEMBLY, POLITICAL PARTIES, JUDICIAL SYSTEM, RELIGION, ETC.)

NATIONAL ASSEMBLY

General Elections were held in September 1964 when a single list of candidates presented by the F.L.N. was returned unopposed. The Assembly has not met since 1966.

In October 1969 President Boumediene announced that a general election would be held during 1970.

President of the Assembly: ALI MENDJILI.

There are twelve Permanent Commissions.

POLITICAL PARTIES

Government is based on a one-party system.

Front de Libération Nationale (F.L.N.): place Emir Abdelkader, Algiers; f. 1954; socialist in outlook, the party is divided into a Secretariat, a Central Committee, Federations, Dairas and Kasmus; Secretariat: Secretary AHMED KAID.

There are several small opposition groups; all are proscribed and in exile in France or in other Arab countries.

JUDICIAL SYSTEM

The highest court of justice is the Supreme Court in Algiers. Justice is exercised through 132 courts grouped on a regional basis. Three special Criminal Courts have been set up in Oran, Constantine and Algiers to deal with economic crimes against the state. From these there is no appeal. A "Revolutionary Court" was established late in 1968 with jurisdiction over political offences.

President of Supreme Court: M. GATY.

Procurator-General: M. MOSTEFAÏ.

President of Revolutionary Court: Major ABDELGHANI.

RELIGION

It is estimated that 12 million Algerians are Muslims and the new government has declared Islam the official religion. The Europeans, and a few Arabs, are Christians, mostly Roman Catholics.

Archbishop of Algiers: H.E. Cardinal LEON-ETIENNE DUVAL; 13 rue Khelifa Boukhalfa, Algiers.

ARGENTINA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Argentina occupies almost the whole of South America south of the Tropic of Capricorn. It has a long Atlantic coastline stretching from Uruguay and the River Plate to Tierra del Fuego. To the west lie Chile and the Andes mountains, to the north are Bolivia, Paraguay and Brazil. The climate varies from sub-tropical in the north to cold in Patagonia, generally with moderate summer rainfall. The language is Spanish. Nearly 90 per cent of the population are Roman Catholic and about 2 per cent Protestant. The flag has three horizontal stripes, light blue, white and light blue (for military and government use the central stripe is charged with a gold sun in splendour). The capital is Buenos Aires.

Recent History

In 1946, after three years of political upheaval, General Perón came into power and established a totalitarian regime based on the support of the urban workers. He was deposed in 1955 and a provisional military Government established, before the elected Government of President Frondizi took office in 1958. The Frondizi Government fell early in 1962 and a period of instability followed. In July 1963 Dr. Arturo Illia was elected President. In June 1966, President Illia was deposed and Lt.-Gen. Juan Carlos Onganía sworn in as President. Late in 1966 a long-standing border dispute with Chile was finally settled.

In 1969, after a series of general strikes and outbreaks of violence caused by the arrests of rebel union (CGT) leaders and by the continued rise in the cost of living coupled with the wage freeze, the Cabinet resigned and a new cabinet was appointed. A state of siege was imposed on June 30th following the murder of trade union leader, Augusto Vandor. In November an amnesty was announced for all political prisoners.

Argentina has extended her offshore limits from 12 to 200 miles to safeguard her national fishing industry. Argentina disputes possession of the Falkland Islands with the United Kingdom.

Government

Argentina is a Republic composed of a Federal District, twenty-two States and the National Territory of Tierra del Fuego, Antarctica and the South Atlantic Islands. The Federal Government has a separate executive, legislature and judiciary similar to that of the U.S.A. Executive power is vested in the President. The Congress has two houses, the Senate and the Chamber of Deputies. The Supreme Court exercises judicial power.

Each State has its own elected Governor and Legislature. Their authority extends to all matters not delegated to the Federal Government.

Defence

A period of national service is compulsory between the ages of 20-45 years, of which one year is spent in the Army or Air Force and two years in the Navy. The total strength of the regular Armed Forces is 107,500 of which the Army has 85,000 with a further 275,000 trained reservists, the Navy has 22,200 and the Air Force 300 pilots. Defence expenditure is about 16 per cent of the Budget.

Economic Affairs

Argentina is primarily an agricultural country and her prosperity rests on livestock, wool and cereals. Meat production is geared to the needs of Western Europe, and about 9½ million cattle and 7¼ million sheep are slaughtered annually. The main crops are wheat (Argentina is the world's fourth largest exporter), maize, oats and linseed. In 1967 Argentina was the world's third largest producer of wine, and export markets are now being sought in the United Kingdom and the U.S.A. Industry is mainly concerned with meat processing, meat packing and other animal by-products. There has been rapid growth in the plastics, textile, steel, engineering and chemical industries, and Argentina is now virtually self-sufficient in all consumer goods and many categories of machinery. Oil and natural gas provide the great bulk of the country's energy. Other minerals produced include sulphur and tin, areas in the Andean zones are to be prospected for copper, and aluminium production is scheduled to begin in January 1974, with a plant to be located at Puerto Madryn. Reserves of coal are estimated at 400 million tons. Several hydro-electric schemes are under construction, the most important being the Choeon/Cerros Colorados scheme, which will cost some U.S. \$387 million and is due for completion in 1978. Argentina is a member of the Latin American Free Trade Association.

Transport and Communications

Argentina's transport network is concentrated in the east central provinces of Buenos Aires, Santa Fé, Córdoba, San Luis and Entre Ríos. Main railways connect with Chile, Bolivia and Paraguay and are paralleled by branches of the Pan American Highway. A five-year plan for highway construction is in hand. A new bridge, part of the Inter-American highway, is to be built between Puerto Unzué and Fray Bentos in Uruguay: 4.8 km. long and 42 metres above the river Uruguay. An under-water tunnel is under construction, extending beneath the Paraná river between the cities of Santa Fé and Paraná. River steamers operate on the Plate, Paraguay, Paraná and Uruguay rivers. Internal air services are well developed and five Argentine lines, and many foreign ones, operate international schedules.

Social Welfare

Social welfare benefits are provided to wage-earners through trade unions and employers' associations. In 1967 all welfare services were co-ordinated under the National Council of Social Welfare, and a new Pensions Law was introduced.

Education

The adult literacy rate of about 90 per cent is regarded as the highest in Latin America. Education is free from pre-school to university level, and compulsory for all children at primary and intermediate levels, from the ages of six to fourteen. Secondary education covers a five-year period, and university courses range from one to six years. There are 25 universities with about 234,000 students. In 1968 a plan for educational reform was approved, which dispensed with the entrance examination for secondary schools and

ARGENTINA—(INTRODUCTORY SURVEY)

outlined a new programme for teacher training, which, with the abolition of the Escuelas Normales, has been raised to the level of higher education. The reform is to lead gradually to a centralized system of education; detailed planning of new curricula will take place during 1970, and a few schools are to be selected for experimental application of the new programme.

Tourism

Argentina has yet to exploit fully her superb tourist attractions. The principal ones are the Andes mountains, the lake district of Bariloche, where there is a National Park, the Atlantic beaches, the Iguazú falls, the Pampas and the city of Buenos Aires.

Visas are not required to visit Argentina by nationals of the following countries: Austria, Belgium, Denmark, France, German Federal Republic, Luxembourg, Netherlands, Norway, Sweden, Switzerland, United Kingdom, and all American countries except Cuba.

Sport

The most popular sport is football, followed by horse racing, polo, rugby, motor racing and basket ball.

Public Holidays

1970: May 1 (Labour Day), May 25 (Anniversary of the 1810 Revolution), June 20 (Flag Day), July 9 (Independ-

ence Day), August 17 (Death of General San Martin), October 12 (Discovery of America), December 25 (Christmas Day), also important religious festivals.

1971 (the following are optional holidays on which only banks and public offices are obliged to close): January 1 (New Year's Day), January 6 (Epiphany), February 22, 23 (Carnival Monday and Tuesday), April 8, 9 (Maundy Thursday and Good Friday).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rates

The principal unit of currency is the peso, which is divided into 100 centavos. On January 1st, 1970, the Argentine Government introduced a new "heavy" peso equivalent to 100 units of the former currency. New notes and coins are being issued but overprinted old notes will be in circulation for some time.

Coins: 1, 5, 10, 20, 50 centavos.

Notes: 1, 5, 10, 50, 100, 500, 1,000 pesos.

Exchange rate: 8.40 pesos = £1 sterling
3.50 pesos = \$1 U.S.

THE CONSTITUTION

THE Constitution of 1853 establishes a federal republican and representative form of government. The following are its main points:

Each province has the right to exercise its own administration of justice, municipal system and primary education. The Roman Catholic religion, being the faith of the majority of the nation, shall enjoy State protection; freedom of religious belief is guaranteed to all other denominations. All the inhabitants of the country have the right to work and exercise any legal trade; to petition the authorities; to leave or enter the Argentine territory, to use or dispose of their properties, to associate for a peaceable or useful purpose; to teach and acquire education, and to express freely their opinion in the press without censorship. The State does not admit any prerogative of blood, birth, privilege or titles of nobility. Equality is the basis of all duties and public offices. No citizen may be detained, except for reasons and in the manner prescribed by the law; or sentenced other than by virtue of a law existing prior to the offence and by decision of the competent tribunal after the hearing and defence of the person concerned. Private residence, property and correspondence are inviolable. No one may enter the home of a citizen or carry out any search in it without his consent, unless by a warrant from the competent authority; no one may suffer expropriation, except in case of public necessity and provided that the appropriate compensation has been paid in accordance with the provisions of the laws. In no case may the penalty of confiscation of property be imposed.

The National Constitution states, in its preamble, that its benefits will be extended to "all men, from all parts of the world, who wish to live on Argentine soil".

The Constitution may be amended in part or in its entirety if the Congress so decides by a two-thirds majority, in which case a constitutional assembly must be convened.

Congress. The Constitution provides for a bi-cameral legislature: a Senate and a Chamber of Deputies. Deputies are elected for four years, by a majority of votes, and are eligible for re-election; but half the Chamber shall be renewed every two years.

The Senate is composed of two members for each province, elected by majority of votes; and two members for the Republic, elected in the same way as the President of the Republic. Their term of office is nine years and they are

eligible for re-election, but a third of the Senate shall be renewed every three years.

The ordinary sessions of Congress take place from May 1st to September 30th. The President may extend the sessions or convene extraordinary sessions.

The powers of Congress include regulating foreign trade; fixing import and export duties; levying taxes for a specified time whenever the defence, common safety or general welfare of the State so require; contracting loans on the nation's credit; regulating the internal and external debt and the currency system of the country; fixing the budget and providing for whatever is conducive to the prosperity and well-being of the nation. Congress also approves or rejects treaties, authorises the Executive to declare war or make peace, and establishes the strength of the armed forces in peace and war.

The Executive Power is vested in the President, who must be Argentine-born and of the Roman Catholic faith. He and the Vice-President are elected from the two candidates who shall have gained the largest number of votes if no candidate obtains an absolute majority in the elections. They are nominated for a term of six years and may not be re-elected immediately, but only after the lapse of one term.

The President is Commander-in-Chief of all the armed forces. The general administration of the country is in his hands, and he appoints, with the approval of the Senate, the judges of the Supreme Court and all other competent tribunals, ambassadors and ministers plenipotentiary, senior officers of the armed forces and bishops. He may also appoint and remove, without reference to another body, his cabinet ministers, consular officials and employees of the administration whose appointment is not otherwise governed by the Constitution. He issues the instructions and rulings necessary for the execution of the laws of the country, and himself takes part in drawing up and promulgating those laws.

The Judicial Power is exercised by the Supreme Court and all other competent tribunals. The Supreme Court is responsible for the internal administration of all tribunals and for the nomination of its junior members.

Provincial Government. The 22 States retain all the power not delegated to the Federal Government. They are governed by their own institutions and elect their own governors, legislators and officials.

AUSTRALIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Commonwealth of Australia occupies the whole of the island continent of Australia in the South Pacific and the off-shore island of Tasmania to the south-east. Its External Territories are: Papua; Norfolk Island in the Pacific; the 27 Cocos (Keeling) Islands and Christmas Island in the Indian Ocean; Australian Antarctica, Heard Island and McDonald Islands, Coral Sea Islands Territory, MacQuarie Island and Ashmore and Cartier Islands. New Guinea (the eastern half of the island) is administered as a UN Trust Territory. Australia's nearest neighbour is Indonesia, covering the long archipelago to the north and north-west. The Australian climate is hot and dry with average temperatures of about 80°F (26.8°C) rising to over 120°F (49°C) in the interior. Over half the country is desert or semi-desert with little rainfall. English is the official language. There are about 80,000 persons of 50 per cent or more Aboriginal blood. The population is Christian: Anglicans 34 per cent, Roman Catholics about 26 per cent, the remainder belonging mainly to other denominations. The flag is blue with a Union Jack in the upper hoist, a white star in the lower hoist and five white stars in the form of the Southern Cross in the fly. The capital, Canberra, lies in a small enclave of Federal Territory known as the Australian Capital Territory.

Recent History

Since the war Australia has taken an important place in Pacific and Asian affairs and has strengthened her political and economic ties with India, S.E. Asia and Japan. The country co-operates more closely than formerly with the U.S.A., and contributed troops to the war in Viet-Nam until 1970. As a founder-member of the Colombo Plan she has given much aid, in money, materials and training, to Asian countries. In January 1966 Sir Robert Menzies resigned after sixteen years as Prime Minister, and was succeeded by Mr. Harold Holt. Mr. Holt's Liberal-Country Party Coalition was returned to office with an increased majority at elections in November 1966. In 1967 Senator J. G. Gorton became Prime Minister following the presumed death of Mr. Holt in a swimming accident. The coalition under Mr. Gorton maintained power with a greatly reduced majority at elections in October 1969.

The former trust territory of Nauru achieved independence from Australia on January 31st, 1968.

Government

Australia is a Federation of six States, forming the Commonwealth of Australia. Queen Elizabeth II is Queen of Australia and is permanently represented there by a Governor-General and by a Governor in each of the six States. The Federal Government consists of two elected Houses, the Senate in which the States have equal representation, and the House of Representatives where representation is based on population.

The State Governments are autonomous except for certain powers placed under the jurisdiction of the Federal Government. All, except Queensland, have an Upper House, the Legislative Council, and a Lower House, the Legislative Assembly or House of Assembly. The chief ministers of the States are known as Premiers, as distinct from the Federal Prime Minister.

Defence

Australia's defence policy is based on collective security and she is a member of the British Commonwealth Strategic Reserve, the ANZUS Council (Australia, New Zealand and U.S.A.) and the South East Asia Treaty Organization (SEATO). Australia's armed forces numbered 79,000 in 1968 (Army 42,000, Navy 16,000, Air Force 21,000). About 17 per cent of Australia's Budget is allocated to Defence. In June 1965 a system of compulsory selective service was introduced.

Economic Affairs

Australia's traditional reliance on the agricultural sector has been eroded by the phenomenal oil and mineral discoveries of recent years. Agriculture now contributes under 10 per cent of domestic production, but the share of agricultural products in total export trade, although declining, is still about 70 per cent, and wool, wheat, meat, sugar and dairy products remain major export items. Gold, silver, lead, zinc and copper have long been exploited, but recent discoveries of vast deposits of oil, natural gas, coal, nickel, iron ore and bauxite have transformed the economy; many of these minerals are being exploited as raw materials for Japan's industries. The pattern of Australia's dependence on foreign trade has thus undergone a change, with Japan overtaking Western countries as the major market. Manufacturing industries contribute over 28 per cent of the G.N.P. each year and employ some 1.3 million people, mainly in iron and steel and engineering. Other important industries are food processing, machinery, motor vehicles, chemicals, electrical and electronic equipment. Domestic sources of energy are coal gas, thermal and hydro-electricity, but, with the discoveries of oil and natural gas, the pattern is changing.

In spite of the spectacular post-war development of all sectors of the economy, Australia faces difficulties and uncertainties in economic affairs; these derive from such factors as the increased defence spending, the uncertainties facing primary products in world markets, high transport and labour costs, and the difficulties of overall policy-making arising from the autonomy in industrial and mineral development enjoyed by the States.

Transport and Communications

For her population, Australia has a well developed transport system with 25,000 miles of railway, 560,000 miles of roads and 82,000 miles of scheduled air routes. Until recently railways in some States were of different

gauges, but a standard gauge system now covers almost all of the country. In the thinly populated areas of Central and Western Australia air transport is extremely important and Australia has pioneered services such as the Flying Doctor Service to overcome the problems of distance. Many of the larger sheep stations have their own aircraft. Australia is well served by international shipping and air lines.

Social Welfare

Australia introduced Old Age Pensions in 1909 and has since added invalid, maternity, sickness and unemployment benefits and children's allowances. Reciprocal welfare agreements operate between Australia and New Zealand and the United Kingdom. About 21 per cent of Federal Budget expenditure is allocated to Welfare.

Education

Education is the responsibility of each of the six States. It is free and compulsory from the ages of six to fifteen at least. Special services have been developed to meet the needs of children living in the "outback". Some 20,000 are enrolled in correspondence classes and in 1950 the first School of the Air was established, using two-way receiver sets. Australia has fifteen universities with about 103,000 students (1969).

Tourism

Australian tourism is developing with quicker and cheaper air transport. The main attractions are swimming and surfing on the Pacific beaches, sailing from Sydney and other harbours, skin-diving along the Great Barrier Reef, and winter and summer sports in the Blue Mountains.

Visas are not required by citizens of Ireland or South Africa, or by United Kingdom subjects of European descent.

Sport

Australians excel at sport, especially tennis and cricket. They play a number of codes of football and are enthusiastic followers of horse-racing. They also pursue water sports.

1970: June 13 (Queen's Birthday)*, December 25-26 (Christmas)†.

There are also a number of State holidays.

* Except in Western Australia.

† Boxing Day is not a public holiday in South Australia.

THE CONSTITUTION

PARLIAMENT

The legislative power of the Commonwealth is vested in a Federal Parliament, consisting of the Queen, represented by the Governor-General, a Senate, and a House of Representatives. The Governor-General may appoint such times for holding the sessions of the Parliament as he thinks fit, and may also from time to time, by Proclamation or otherwise, prorogue the Parliament, and may in like manner dissolve the House of Representatives. This power is limited by strict although unwritten constitutional understanding, and it is seldom that decisions on these matters would be made at the discretion of the Governor-General. After any general election Parliament must be summoned to meet not later than thirty days after the day appointed for the return of the writs. Parliament must meet at least once every year.

THE SENATE

The Senate is composed of ten Senators from each State, directly chosen for a period of six years by the people of the State, voting as one electorate. The Senators are elected by proportional representation. They are chosen for a term of six years and retire by rotation, half from each State on 30 June of each third year. The Senate may proceed to the dispatch of business notwithstanding the failure of any State to provide for its representation in the Senate.

If a Senator vacates his seat before the expiration of his term of service, the members of Parliament of the State for which he was chosen shall, in joint session, choose a person to hold the place until the expiration of the term or until the election of a successor. If the State Parliament is not in session the Governor of the State appoints a Senator to hold office until Parliament reassembles, or until a new Senator is elected.

At least one-third of the members of the Senate must be present for the exercise of its powers.

THE HOUSE OF REPRESENTATIVES

In accordance with the Constitution, the total number of members of the House of Representatives must be as nearly as practicable double that of the Senate. The number in each State is in proportion to population, but under the Constitution must be at least five. At present the House of Representatives is composed of 124 members which includes 2 members for the internal Territories. Until recently these members, though able to join in all debates, were entitled to vote only on matters affecting their territories; full voting rights were extended to the member for the Australian Capital Territory in 1967 and to the member for the Northern Territory in 1968.

Members are elected by universal adult suffrage and voting is compulsory. Qualifications for Commonwealth franchise are possessed by any British subject, not under 21 years of age and not disentitled on racial or other ground, who has lived in Australia for six months continuously. Members of the Australian task force in Vietnam were made eligible to vote in the 1966 Federal elections, though voting was not compulsory. This empowered Australians under 21 to vote for the first time.

Members are chosen by the electors of their respective electorates by the preferential voting system.

The duration of the Parliament is limited to three years, unless dissolved by the Governor-General.

Qualification for membership of the House of Representatives are possessed by any British subject 21 years of age or over who has resided in the Commonwealth for at least three years and who is, or is qualified to become, an elector of the Commonwealth.

THE EXECUTIVE GOVERNMENT

The executive power of the Commonwealth is vested in the Queen, and is exercised by the Governor-General, assisted by an Executive Council of Ministers of State. These Ministers are, or must become within three months, members of the Commonwealth Parliament.

THE JUDICIAL POWER

The judicial power of the Commonwealth is vested in the High Court of Australia, in such other Federal Courts as the Commonwealth Parliament creates, and in such other courts as it invests with Federal jurisdiction.

The High Court consists of a Chief Justice and not less than two other Justices, appointed by the Governor in Council. (There are at present a Chief Justice and six other Justices.) It has both an original and an appellate jurisdiction.

The High Court's original jurisdiction extends to all matters arising under any treaty, affecting representatives of other countries, in which the Commonwealth or its representative is a party, between States or between residents of different States or between a State and a resident of another State, and in which a writ of *Mandamus*, or prohibition, or an injunction is sought against a Commonwealth officer. It also extends to matters arising under the Constitution or involving its interpretation, and to any other matter as empowered by the Commonwealth Parliament.

The appellate jurisdiction extends to appeals from all judgments, decrees, orders and sentences of its own Justices exercising original jurisdiction, of any other Federal Court or court exercising Federal jurisdiction and of the Supreme Court of any State or any other State court from which an appeal lies to the Queen in Council. In 1968 appeals from the High Court to the Queen in Council were abolished.

An amendment of the Conciliation and Arbitration Act assented to on June 30th, 1956 altered the structure of the arbitration machinery by separating the judicial and arbitral functions. The Commonwealth Industrial Court was set up to deal with judicial matters under the Act and the Commonwealth Conciliation and Arbitration Commission to handle the function of conciliation and arbitration.

The Commonwealth Industrial Court is composed of a Chief Judge and three other Judges. The Commonwealth Conciliation and Arbitration Commission comprises a President, not less than two Deputy Presidents, a Senior Commissioner, not less than five Commissioners, and a number of Conciliators. Also, since 1928, jurisdiction in bankruptcy and insolvency is administered by Commonwealth Bankruptcy Courts. There is a Federal Supreme Court in the Australian Capital Territory and in the Northern Territory. State courts, usually courts of summary jurisdiction, are invested with Federal judicial power, principally to deal with offences created by Federal statutes.

THE STATES

The Commonwealth Constitution safeguards the Constitution of each State by providing that it shall continue as at the establishment of the Commonwealth, except as altered in accordance with its own provisions. When a State law is inconsistent with a law of the Commonwealth, the latter prevails, and the former is invalid to the extent of the inconsistency. However, the legislation of the Commonwealth Parliament is limited to those matters which are listed in Section 51 of the Constitution, while the States possess, as well as concurrent powers in those

matters, residual legislative powers enabling them to legislate in any way for "the peace, order and good Government" of their respective territories.

The States may not raise or maintain naval or military forces, or impose taxes on any property belonging to the Commonwealth, nor may the Commonwealth tax State property. The State may not coin money.

The Commonwealth may not make any law for establishing any religion or for prohibiting the exercise of any religion, and no religious test may be imposed as a qualification for any office under the Commonwealth.

The Commonwealth is charged with protecting every State against invasion, and, on the application of a State Executive Government, against domestic violence.

Provision is made under the Constitution for the admission of new States and for the establishment of new States within the Commonwealth.

ALTERATION OF THE CONSTITUTION

Proposed laws for the alteration of the Constitution must be passed by an absolute majority of each House of Parliament, and not less than two or more than six months after its passage the proposed law must be submitted in each State to the qualified electors.

In the event of one House twice rejecting a proposed law which has already received an absolute majority in the other House, the Governor-General may submit the proposed law to the electors. If, in a majority of the States a majority of the electors voting approve the proposed law and if a majority of all the electors voting also approve, it shall be presented to the Governor-General for Royal Assent.

No alteration diminishing the proportionate representation of any State in either House of the Parliament, or the minimum number of representatives of a State in the House of Representatives, or increasing, diminishing or altering the limits of the State, or in any way affecting the provisions of the Constitution in relation thereto, shall become law unless the majority of the electors voting in that State approve the proposed law.

A committee was set up in 1956 to review the Commonwealth Constitution. The report of the Committee was submitted to the House of Representatives on October 1st, 1958. Its main proposals include the extension of Federal power over shipping, nuclear development, broadcasting and television, industrial employment and arbitration, and marketing of primary products. Recommendations were also made concerning Parliamentary procedure.

NEW SOUTH WALES

Formal possession of the east coast of Australia was taken in 1770. The first settlement was founded in 1788, and a responsible government was elected in 1856. It federated with the other States to form the Commonwealth in 1901.

The executive power is in the hands of a Governor, appointed by the Crown, who is assisted by a Cabinet.

The Legislative Power is vested in a Parliament of two Houses, the Legislative Council and the Legislative Assembly. The former consists of sixty members, elected at a joint sitting of both Houses of Parliament, for a term of twelve years, fifteen members retiring every three years. The Legislative Assembly consists of ninety-four members, and sits for three years.

VICTORIA

Formerly a portion of New South Wales, Victoria was proclaimed a separate colony in 1851 and accorded responsible self-government four years later.

The legislative authority is vested in a bicameral Parliament: the Upper House, or Legislative Council, of

thirty-four members, elected for six years, and the Lower House, or Legislative Assembly, of sixty-six members, elected for three years. One-half of the members of the Council retire every three years.

In the exercise of the executive the Governor is assisted by a Cabinet of responsible Ministers. Not more than four members of the Council and not more than ten members of the Assembly may occupy salaried office at any one time.

QUEENSLAND

Queensland was formerly a part of New South Wales. It was formed into a separate colony with responsible government in 1859.

Legislative power rests with a unicameral Parliament composed of seventy-eight members elected from seventy-eight districts for a term of three years.

SOUTH AUSTRALIA

South Australia was formed into a British Province by Letters Patent of February 1836. The Constitution of October 24th, 1856 vests the legislative power in a Parliament elected by the people and consisting of a Legislative Council and a House of Assembly. The Council is composed of twenty members, one-half of whom retire every three years. Their places are filled by new members elected from each of the five districts into which the State is divided for this purpose. The executive has no authority to dissolve this body.

The thirty-nine members of the House of Assembly are elected for three years from thirty-nine electoral districts.

The executive power is vested in a Governor, appointed by the Crown, and an Executive Council consisting of eight responsible Ministers.

WESTERN AUSTRALIA

Formal possession of the country around King George Sound was taken in 1891. In June 1892 Captain James Stirling founded the Swan River Settlement, now the Commonwealth State of Western Australia.

Large grants of land were made to early settlers, and agricultural and pastoral occupations were pursued by a small population. In 1850, when the State was in a poor condition, the inhabitants' petition that it might be made a penal settlement was acceded to. In the following eighteen years, 9,718 convicts were sent out. Transportation ceased in 1868.

In 1890 the administration was vested in the Governor, a Legislative Council and a Legislative Assembly. The Council was, at first, nominated by the Governor, but it was provided that in the event of the population of the colony reaching 60,000 it should be elective. This figure was reached in 1893.

According to the present Constitution, the Legislative Council consists of thirty members, each of the ten provinces returning three members, one of whom retires biennially.

The Legislative Assembly consists of fifty members, elected for three years, each representing one electorate.

The entire management and control of the unalienated lands of the Crown in Western Australia is vested in the State Legislature.

TASMANIA

Tasmania was discovered in 1642 and became a British settlement in 1803 as a dependency of New South Wales. Responsible government was established in 1856.

The administration is vested in a Governor acting upon the advice of a Legislative Council and House of Assembly. The Council consists of nineteen members who sit for six years, retiring in rotation. There is no power to dissolve

AUSTRALIA—(THE CONSTITUTION, THE GOVERNMENT)

the Council. The House of Assembly has thirty members elected for five years.

NORTHERN TERRITORY

The Northern Territory covers 520,280 square miles, of which 94,025 square miles is reserved for aboriginals. Population, excluding full-blood aboriginals, is about 62,000, and there are estimated to be 18,000 full-blood aboriginals.

The Territory was incorporated in New South Wales in 1825, but in 1863 was added to South Australia. It was transferred to the Commonwealth in 1911. By a Federal

Act of 1947 a Legislative Council (sitting at Darwin) was set up, consisting of the Administrator, 7 official members and 6 elected members. At present the Council consists of an elected President, the Administrator, 6 nominated official members, 3 non-official nominated members and 8 elected members. The Northern Territory is administered on behalf of the Commonwealth Government by the Department of the Interior, Canberra, with the help of the Administrator and the Legislative Council. The creation of the Northern Territory as Australia's seventh self-governing State was approved by the Federal Government in 1958, but no date for its establishment has been given.

Parliament can also vest certain federal jurisdiction in State courts. The High Court has original jurisdiction in all matters arising under treaties or affecting representatives of other countries, and in certain matters in which the Commonwealth or the States are concerned. It also hears and determines appeals from judgments of its own Justices exercising original jurisdiction, and from judgments of any other Federal Court or of the Supreme Court of any State. THE PRESS

Australia's legislation relating to the Press is partly based on modified British legislation, but as each state enacts its own laws, the form and severity thereof may vary.

Under the law concerning contempt of court, since the court takes jurisdiction from the time the accused is arrested, to publish names or photographs before proceedings begin may draw heavy penalties. Though accurate reporting of a case while it is being tried is privileged, and has been known to extend to a degree of scandal, a judge is empowered to ban all reports until the conclusion of the case. Though this legislation is intended to protect the interest of the accused, it frequently hinders the journalist.

Each state has its legislation against obscene publications, which is particularly severe in the state of Queensland, whose broadly defined Objectionable Literature Act of 1954 covers a wide range of offences.

The libel law, closely related to British law, ranges from seditious libel for matter liable to cause a breach of the peace, or for excessive abuse of government officials, to defamatory libel, knowing and plain. The most frequently cited defences are "fair comment and criticism" and "true and public benefit". Certain government agencies have privilege.

All newspapers in the state capitals are owned by limited companies. The trend towards concentration of ownership has led to the development of four principal groups of newspapers. Economic conditions have necessitated the extension of the activities of newspaper companies into related spheres, magazine and book publishing, radio and television, etc. The main groups are as follows:

The Herald and Weekly Times Group: 44 Flinders St., Melbourne; Chair. Sir JOHN WILLIAMS: controls *The Herald* and *Sun News-Pictorial* (Melbourne), *The Advertiser* (Adelaide), *The Courier Mail*, *The Telegraph*, and *Sunday Mail* (Brisbane) and also has holdings in several magazines and radio and television companies.

The John Fairfax Group: Broadway, Sydney; with its subsidiary Associated Newspapers Ltd., controls *The Sydney Morning Herald*, *The Sun*, *Australian Financial Review* and the *Sun-Herald* (Sydney), *The Canberra Times*, together with four large magazines, and has interests in *The Age* (Melbourne); also has radio and television interests.

Consolidated Press Group: 168 Castlereagh St., Sydney; Proprietor Sir FRANK PACKER: controls *The Daily Telegraph* and *Sunday Telegraph* (Sydney), and *The Mail and Mercury*, and magazines including *Woman's Weekly*; also owns the Shakespeare Head Press.

Rupert Murdoch Group: 46 Cooper St., Sydney; Proprietor K. R. MURDOCH: including News Ltd. and associated companies, controls *The Australian* (Canberra), *Adelaide News* and *Sunday Mail* (Adelaide), *Daily Mirror* and *Sunday Mirror-News Pictorial* (Sydney), *The News* (Darwin), *Sunday Truth* (Brisbane), and *Sunday Times* (Perth); also has interests in magazines and radio companies.

The total circulation of Australia's 63 daily newspapers is very high at 3,680,000 million copies approx., or one for every three citizens. Weekly papers are even more popular as they more successfully penetrate to the remoter

parts of the country, whereas metropolitan dailies meet competition from small local papers. The circulation of newspapers has traditionally been almost entirely confined to the state in which each is produced. The only exceptions, which may fairly claim a national circulation, are the dailies *The Australian*, which made history at its inception in 1964, and the *Australian Financial Review*, and the *Sydney Bulletin* and *Nation*, weekly and fortnightly respectively.

The main newspaper centres are Sydney, where the morning *Daily Telegraph* competes with the *Morning Herald*, and the evening *Daily Mirror* competes with *The Sun*, and Melbourne, where *The Age* competes with *The Sun News-Pictorial*, both morning papers. Perth, Adelaide and Brisbane each have only one major morning and one major evening paper.

Among the daily papers most respected for their serious news treatment should be mentioned the *Sydney Morning Herald* and *The Age* (Melbourne), which has its own *Literary Review*, and *The Australian*, which has three pages of foreign affairs and five pages devoted to finance, *The Canberra Times* and the *Australian Financial Review*. The most popular dailies in order of circulation include Melbourne's *Sun News Pictorial* (633,000) and *Herald* (500,000), Sydney's *Daily Telegraph* (360,000), *Sun* (366,000) and *Daily Mirror* (400,000), *Sydney Morning Herald* (294,000) and Brisbane's *Courier Mail* (250,000), and Adelaide's *Advertiser* (207,000).

RAILWAYS

The Federal Government operates the railways in Commonwealth Territories and also the Commonwealth Railways between Port Pirie in South Australia and Kalgoorlie in Western Australia, together with the Central Australia Railway between Port Augusta, South Australia, and Alice Springs in the Northern Territory.

The majority of railways in Australia are at present operated by the respective State Governments, and due to a total lack of co-ordination during the latter half of the nineteenth century a number of different rail gauges were

adopted. A standardization programme is nearly complete. Early in 1970 the first trans-continental rail services began operation.

ADMINISTRATION AND GOVERNMENT

The Territory of Papua and New Guinea is administered by the Australian Government through the *Papua and New Guinea Act 1949-1968*. There is an Administrator and, since 1964, there has been a House of Assembly of elected and nominated official members to replace the former Legislative Council. There is also an Administrator's Executive Council which enables certain elected members to participate in the executive government of the Territory.

For administrative purposes the Territory is divided into 18 Districts each administered by a District Commissioner. To assist the development of self-government and the performance of functions of local administration, Local Government Councils have been established in many areas of the Territory. At 31 March 1969 there were 142 such councils, 113 of them multi-racial, representing some 1,953,000 of the total 2,308,000 persons in the Territory.

In addition, Local Courts have been established to deal with civil and inferior offences, including matters regulated by native custom and minor criminal offences, below the level of District Court jurisdiction; these Local Courts replace the earlier Courts for Native Affairs and are open to all races. Wardens Courts may be established in respect of a mineral field with jurisdiction over civil cases respecting mining or mining lands and offences against mining laws. TRADE AND INDUSTRY

TRADE

Trade forms an integral part of Papua and New Guinea's development and exports play an important part in the economic growth and prosperity of the country and its 2.2 million people.

The Territory earns most of its export income from the sale of tropical commodities on world markets. The main exports are coconut products, coffee, cocoa, timber and rubber. Other export commodities include groundnuts, pyrethrum, passion fruit and crocodile skins.

The majority of exports go to Australia, Western Europe, the U.S.A. and Japan. Those areas also supply most of the Territory's import requirements.

MANUFACTURING

Initially manufacturing was confined largely to the processing of local raw materials for export. There is now a growing trend towards industries established to serve the internal market. The major manufacturing industries are generally those processing local raw materials largely for export, e.g. the production of coconut oil and copra by-products, plywood, desiccated coconut and pyrethrum. Nevertheless, industries serving the internal market and using mainly imported materials are numerically predominant. These industries include manufacture of cigarettes, twist tobacco, wire products, building materials, concrete products, oil drums, paint, beer, furniture, assembly of electrical appliances and boat building.

In 1967-68 there were 548 factories in Papua and New Guinea and the value of factory production was \$A30 million, compared with 123 factories and a value of factory production of \$4.1 million in 1955-56.

CO-OPERATIVES

There are more than 300 co-operatives with over 100,000 members and a total annual turnover of about \$A7 million. Officers of the Department of Trade and industry provide extension services, helping with business expertise as required.

CHRISTMAS ISLAND

Christmas Island covers an area of about 52 square miles and lies 224 miles south of Java, between Fremantle and Singapore. (This island is not the Christmas Island in the Pacific Ocean where nuclear tests have been conducted.)

Administration was transferred from Singapore to Britain on 1 January 1958, pending final transfer to Australia. It became an Australian territory on 1 October 1958. The Island has no indigenous population. At 30 June 1968 the total population was 3,524 (2,056 Chinese, 1,027 Malays, 342 Europeans and 99 others). Nearly all the residents are employees of the Phosphate Commission, and their families. The recovery of phosphates is the sole economic activity, and output was 1,053,000 tons of phosphates and 75,176 tons of phosphate dust for the year ending 30 June 1968.

NORFOLK ISLAND

NORFOLK ISLAND is about 5 miles long and 3 wide and was discovered by Captain Cook in 1774. The island was used as a penal settlement from 1788 to 1813 and again from 1825 to 1855. It was a separate Crown Colony until 1896 when it became a Dependency of New South Wales. In 1913 it was transferred to the Australian Government. Population (1968): 1,440.

ECONOMIC ACTIVITIES

The climate is suitable for the cultivation of a variety of crops and for grazing; the volcanic soil is chemically rich but presents many difficulties to the farmer, especially the steep terrain and the porosity of the soil. The situation is aggravated by over-cultivation, over-grazing and erosion. About 1,000 acres are arable. The main crops are bean seed, cereals, vegetables and fruit. Some flowers and plants are grown commercially. The Administration is increasing the forestry estate in Norfolk Island pine and hardwoods. Seed of the Norfolk Island pine is widely exported.

Imports (1967-68): \$2,221,061, mainly from Australia.

Exports (1967-68): \$235,227. A small quantity of frozen fish fillets is exported.

Budget (1967-68): Revenue \$425,269; Expenditure \$600,362.

Banking: There are branches of the Commonwealth Trading Bank and the Commonwealth Savings Bank of Australia.

Trade Association: Norfolk Island Chamber of Commerce.

TRANSPORT

There are about 50 miles of roads, including 7 miles of sealed road. A bi-weekly air service from Sydney and Auckland. There is a regular three-weekly shipping service from Sydney en route to New Caledonia and a six-weekly service from Sydney, en route to the British Solomon Islands and other islands.

COCOS (KEELING) ISLANDS

The COCOS (KEELING) ISLANDS are 27 in number and lie about 200 nautical miles south-west of Java Head. The islands, which have an area of 5 sq. miles, form a low-lying coral atoll, densely covered with coconut palms. The population on 30 June 1968 was 622, comprising 143 Europeans and 479 Cocos Malays. Only three islands in the group are inhabited, these being West Island (Europeans), Home Island (Cocos Malays and 3 Europeans) and Direction Island (Europeans).

The islands were declared a British possession in 1857 and came successively under the authority of the Governor of Ceylon (1878) and the Governor of the Straits Settlements (1886); they were annexed to the Straits Settlements and incorporated with the Settlement (later Colony) of Singapore in 1903. Administration of the islands was transferred to the Commonwealth of Australia in November, 1955.

Official Representative: C. W. SUTHERN.

Under instructions from the Minister for External Territories in Canberra the Official Representative administers the islands.

Supreme Court Cocos (Keeling) Islands: The Hon. Mr. Justice E. A. DUNPHY.

The main economic activity is the production of copra (annual exports about 500 tons). An airfield forms an important link between Australia and Asia.

An airmail and passenger flight from Australia to Cocos and return takes place every three weeks. Vessels from Australia visit the islands at regular intervals.

OTHER TERRITORIES

AUSTRALIAN ANTARCTIC TERRITORY

The AUSTRALIAN ANTARCTIC TERRITORY was established by Order in Council, dated 7 February 1933 and covers lands (other than Adélie Land) situated south of the 60th parallel of south latitude and lying between the 160th and 45th meridians of east longitude. The area is estimated at 2,472,000 sq. miles. In 1954 the Australians set up Mawson Base for scientific research. In 1957 a scientific research station was erected at Davis as part of Australia's contribution to the International Geophysical Year. This was closed down temporarily from 1965. In 1959 Australia assumed custody of Wilkes Station, built by the U.S.A. on the Budd Coast. A new station is being built nearby which will eventually replace it.

HEARD ISLAND AND McDONALD ISLANDS

These islands are situated south-east of the Kerguelen Islands and have been administered by the Commonwealth of Australia since December 1947, when an Australian Scientific Station was set up on Heard Island. The area is 159 sq. miles; there are no permanent inhabitants, but Australian expeditions visit the island from time to time. Heard Island is about 27 miles long and 13 wide. The McDonald Islands lie 26 miles to the west.

CORAL SEA ISLANDS TERRITORY

The Territory was created in May 1969 and is composed of a number of islands situated east of Queensland between the Great Barrier Reef and 157° 10' E. longitude. The islands had been acquired by the Commonwealth by acts of sovereignty over a number of years. All are very small and they include Cato Island, Chilcott Islet in the Coringa Group, and the Willis Group. Three members of the Commonwealth Bureau of Meteorology are stationed on one of the Willis Group, but the remainder of the islands are uninhabited.

The Bill constituting the Territory does not establish an administration on the islands but provides means of controlling the activities of those who visit them. The possibility of exploration for oil on the continental shelf and the increasing range and scope of international fishing enterprises made desirable such an administrative framework and system of law. The Governor-General is empowered to make ordinances for the peace, order and good government of the Territory, and the Supreme Court and Court of Petty Sessions of Norfolk Island have jurisdiction in relation to the Territory.

MACQUARIE ISLAND

MACQUARIE ISLAND lies about 1,000 miles south-east of Tasmania, of which it is a dependency. There are no permanent inhabitants. A scientific research station was established there in 1948.

ASHMORE AND CARTIER ISLANDS

These islands lie in the Indian Ocean, about 350 miles north of Derby, Western Australia. They were annexed to the Northern Territory in July 1938.

BARBADOS

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Dominion of Barbados is the most easterly of the Caribbean islands, lying about 200 miles north-east of Trinidad. There is a rainy season from July to November but the climate is cool during the rest of the year. The mean annual temperature is about 78°F (26°C). There is no indigenuous population, and over 80 per cent of the population is of African descent. The language used is English and the predominant religion is Christianity. The flag consists of a central gold band between two vertical bands of ultramarine blue. On the gold band is the head of a black trident. The capital is Bridgetown.

Recent History

Barbados joined the West Indies Federation on its formation in 1958, remaining a member until the dissolution of the Federation in 1962. In 1964 it was agreed that Barbados should become the capital of a proposed East Caribbean Federation, to include the Windward and Leeward Islands, but the Federation was never established. However some common services, particularly of currency, transport and education, are shared with other Caribbean territories. In April 1964 executive powers were transferred to a Cabinet of Ministers, and Barbados became fully independent within the Commonwealth on November 30th, 1966. In 1966 Barbados joined the Organization of American States and the United Nations.

Government

The country adopted Dominion status within the Commonwealth in November 1966. H.M. the Queen is represented by a Governor-General, and executive power is in the hands of a Cabinet consisting of a Prime Minister and not less than five other Ministers. Parliament consists of a senate of 21 members, appointed by the Governor-General, and an elected House of Assembly. The House of Assembly is one of the oldest representative bodies in the Commonwealth; elections are by universal adult suffrage.

Economic Affairs

The Commonwealth Sugar Agreement, now extended until 1974, allows sugar to remain the mainstay of the country's economy; with rum and molasses, it accounts for 90 per cent of exports. However, the tourist industry is rapidly expanding, and there is a small source of natural gas. Outside the harvest season there is a labour surplus and light industry is being encouraged. Many Barbadians work in the United Kingdom. With Guyana and Antigua, Barbados set up in 1966 the Caribbean Free Trade Area (Carifta), which aims at the removal of import duties and quantitative restrictions in the Caribbean; Carifta also envisages the free interchange of labour forces.

Transport and Communications

The situation of the island and its good harbour and airport facilities make it a natural entrepôt for the eastern Caribbean. There are 840 miles of roads, mostly bitumenized; the airport can accommodate laden jet aircraft; the

harbour at Bridgetown, which is in the process of being enlarged, has moorings for eight ocean-going ships.

Social Welfare

EC\$3 millions are spent annually on health services. There are four Government hospitals and a Roman Catholic Hospital, 9 other hospitals and 10 child care clinics. In addition there are 17 child care clinics run by voluntary committees. The Government has also undertaken the building of group housing for lower income families, and there are a number of voluntary social welfare organizations.

Education

Education is free. The literacy rate stands at 97 per cent. There are seven comprehensive schools and ten grammar schools. Teacher training is provided at one College, and there is a technical Institute. In January 1969, a Community College was established to provide academic and technical education at sixth-form level, and in November the new Samuel Jackman Prescod Polytechnic School was opened. At the Barbados branch of the University of the West Indies education is also free.

Tourism

The natural attractions of the island include chiefly the healthy climate and varied scenery. In addition there are many facilities for outdoor sports of all kinds. Bathsheba on the east coast is a well-known health resort. Since 1961 the number of tourists visiting Barbados has been increasing by 15 per cent a year.

Visas are not required by nationals of Belgium, Canada, Colombia, Denmark, Finland, France, Federal Germany, Israel, Italy, Liechtenstein, Luxembourg, Netherlands, Norway, San Marino, Spain, Sweden, Switzerland, Tunisia, Turkey, United Kingdom, U.S.A., Uruguay and Venezuela.

Sport

Sporting facilities cover golf, tennis, cricket, football, hockey, polo, riding, horse racing, fishing, swimming, surfing and boating. Cricket is especially popular.

Public Holidays

1970: May 1, May 18 (Whit Monday), August 4 (Emancipation Day), October 9 (Bank Holiday), November 30 (Independence), December 25-26 (Christmas).

1971: January 1, April 9-12 (Easter), April 21 (Queen's Birthday).

Weights and Measures

The Imperial system of weights and measures is used, with the exception that one gallon is equal to 231 cubic inches instead of 277.274 cubic inches.

Currency and Exchange Rates

The currency unit is the East Caribbean dollar (EC\$), which has replaced the B.W.I.\$ of the same value.

Coins: 1, 2, 5, 10, 25, and 50 cents.

Notes: \$1, \$5, \$100.

Exchange rate: EC\$4.80 = £1 sterling

EC\$2.00 = \$1 U.S.

THE CONSTITUTION

Representative institutions in Barbados date from the Royal Charter granted by Charles I in 1627. The present Constitution came into force on November 30th, 1966. Under its terms protection is afforded to individuals, from slavery and forced labour, from inhuman treatment, deprivation of property, arbitrary search and entry, and racial discrimination; and freedom of conscience, of expression, assembly, and movement are guaranteed.

Her Majesty's Representative in Barbados is the Governor-General who appoints the Prime Minister, and on the advice of the Prime Minister appoints Ministers and some Senators.

The executive consists of the Prime Minister, appointed by the Governor-General as being the person best able to command a majority in the House of Assembly; and not less than five other Ministers. Provision is also made for a Privy Council, presided over by the Governor-General.

Parliament consists of two houses, the Senate and the House of Assembly. The Senate has 21 members, 12 appointed by the Governor-General on the advice of the Premier, 2 on the advice of the Leader of the Opposition, and 7 as representatives of such interests as the Governor-General considers appropriate. The House of Assembly has 24 members, elected by universal adult suffrage for a five-year term. Since 1963 the voting age has been 18.

The Constitution also provides for the establishment of a Judiciary and a Legal Service, and Service Commissions for the Judicial Service, the Public Service and the Police Service. These Commissions are exempt from legal investigation; they have executive powers to deal with appointments, dismissals and disciplinary control of the services for which they are responsible.

2. Full freedom of speech is guaranteed.

3. Power to remove the King at any time by a two-thirds majority vote.
4. A vote of confidence is to be taken in the King every three years and requires a two-thirds majority. In the event of a no-confidence vote, the King is to abdicate but the Wangchuk Dynasty is always to provide the ruler in order of succession.
5. The Assembly has the right to appoint and remove ministers.

The political status of Bhutan depends largely on the Treaty of Friendship with India signed on 8 August 1949.

Treaty of Friendship between the Government of India and the Government of Bhutan.

Article 1 There shall be perpetual peace and friendship between the Government of India and the Government of Bhutan.

Article 2 The Government of India undertakes to exercise no interference in the internal administration of Bhutan. On its part the Government of Bhutan agrees to be guided by the advice of the Government of India in regard to its external relations.

Article 3 In place of the compensation granted to the Government of Bhutan under Article 4 of the Treaty of Sinchula and enhanced by the treaty of the eighth day of January 1910 and the temporary subsidy of Rupees one lakh per annum granted in 1942, the Government of India agrees to make an annual payment of Rupees five lakhs to the Government of Bhutan. And it is further hereby agreed that the said annual payment shall be made on the tenth day of January every year, the first payment being made on the tenth day of January 1950. This payment shall continue so long as this treaty remains a force and its terms are duly observed.

Article 4 Further to make the friendship existing and continuing between the said governments, the Government of India shall, within one year from the date of signature of this treaty, return to the Government of Bhutan about thirty-two square miles of territory in the area known as Dewangiri. The Government of India shall appoint a competent officer or officers to mark out the area so returned to the Government of Bhutan.

Article 5 There shall, as heretofore, be free trade and commerce between the Government of India and of the Government of Bhutan; and the Government of India agrees to grant to the Government of Bhutan every facility for the carriage, by land and water, of its produce throughout the territory of the Government of India, including the right to use such forest roads as may be specified by mutual agreement from time to time.

Article 6 The Government of India agrees that the Government of Bhutan shall be free to import with the assistance and approval of the Government of India, from or through India into Bhutan, whatever arms, ammunition, machinery, warlike materials or stores may be required or desired for the strength and welfare of Bhutan and that this arrangement shall hold good for all time as long as the Government of India is satisfied that the intentions of the Government of Bhutan are friendly and that there is no

danger to the Government of India from such importations. The Government of Bhutan, on the other hand, agrees that there shall be no export of such arms, ammunition, etc., across the frontier of Bhutan either by the Government of Bhutan or by private individuals.

Article 7 The Government of India and the Government of Bhutan agree that Bhutanese subjects residing in Indian territories shall have equal justice with Indian subjects and that Indian subjects residing in Bhutan shall have equal justice with the subjects of the Government of Bhutan.

Article 8 (1) The Government of India shall, on demand being duly made by the Government of Bhutan, take proceedings in accordance with the provisions of Indian Extradition Act, 1903 (of which a copy shall be furnished to the Government of Bhutan), for the surrender of all Bhutanese subjects accused of any of the crimes specified in the first schedule of the said Act who may take refuge in Indian territory.

(2) The Government of Bhutan shall, on requisition being duly made by the Government of India, or by any officer authorized by the Government of India in this behalf, surrender any Indian subjects, or subjects of a foreign power, whose extradition may be required in pursuance of any agreement or arrangements made by the Government of India with the said power, accused of any of the crimes specified in the first schedule of Act XV of 1903, who may take refuge in the territory under the jurisdiction of the Government of Bhutan and also any Bhutanese subjects who, after committing any of the crimes referred to in Indian territory shall flee into Bhutan, on such evidence of their guilt being produced as that satisfy the local court of the district in which the offence may have been committed.

Article 9 Any differences and disputes arising in the application or interpretation of this treaty shall in the first instance be settled by negotiation. If within three months of the start of negotiations no settlement is arrived at, then the matter shall be referred to the Arbitration of three arbitrators, who shall be nationals of either India or Bhutan, chosen in the following manner:

- (i) one person nominated by the Government of India;
- (ii) one person nominated by the Government of Bhutan;
- (iii) a Judge of the Federal court or of a High Court of India, to be chosen by the Government of Bhutan, who shall be Chairman.

The judgement of this tribunal shall be final and executed without delay by either party.

Article 10 This treaty shall continue in force in perpetuity unless terminated or modified by mutual consent.

BOLIVIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Bolivia is a landlocked, Andean state bordered by Chile and Peru in the west, by Brazil to the north and east and by Paraguay and Argentina to the south. Climate varies according to altitude from humid tropical below 5,000 feet to the cool and cold zones above 11,000 feet. The official language is Spanish. The Indians speak Quechua or Aymará. The people are Roman Catholics but Roman Catholicism ceased to be the official religion of the state in 1961. The flag consists of red, yellow and green horizontal stripes. The capital is Sucre. The seat of Government is La Paz.

Recent History

1952 was a momentous year of revolution and reform. The National Revolutionary Movement seized power by *coup d'état*, gave the vote to the whole population, literate and illiterate, nationalized the mines and introduced drastic land reforms. In May 1964 President Paz Estenssoro was re-elected for a second term and changed the constitution in order to be re-elected for a third period of office, but in November 1964, the Government was overthrown by a military coup. General René Barrientos Ortuño assumed presidency of the military government in November 1964, was joined by General Alfredo Ovando Candia in May 1965 and later resigned in order to take part in the elections. These elections, originally set for September, 1965, were held in May, 1966, when General Barrientos was elected President and his Bolivian Revolution Front gained majorities in both houses of Congress. In the summer of 1967 labour unrest in the tin mines led to the suspension of constitutional guarantees and declaration of a state of siege for two months. In October 1967 the revolutionary leader Che Guevara was killed by Bolivian forces. On April 27th, 1969, President Barrientos was killed in a helicopter crash and was succeeded by Vice-President Luis Adolfo Siles Salinas, who formed a new Cabinet. Siles Salinas set up the second phase of agrarian reform, the Rural Development Corporation. In September 1969 a full-scale guerrilla offensive was launched by Guido "Inti" Paredo, who was killed on September 9th. On the night of September 25th-26th, General Ovando Candia assumed power by *coup d'état* and established a governing military junta of three. The new President ordered the withdrawal of the armed forces from the tin mines, occupied since 1967, and in October the Government expropriated and later nationalized the Bolivian Gulf Oil Company, a subsidiary of the United States-owned Gulf Oil. Bolivia is a member of the United Nations, the Alliance for Progress, the Organization of American States, LAFTA, and the Andean Development Corporation.

Government

Executive power is normally vested in the President and his cabinet. The President is elected for four years by direct popular vote. The National Congress consists of a Senate and Chamber of Deputies. The 27 Senators are elected for six years, with a third renewable every two years, and the 102 Deputies for four years, with half renewable every two years. All persons of twenty-one or over are enfranchised.

Defence

Military service for one year is compulsory for all males at nineteen. The army numbers about 10,000 men.

Economic Affairs

The economy still depends largely on the export of tin, although progress is being made in diversifying exports; tin dropped from 80 per cent of the total to less than 60 per cent in 1969. Lead, wolfram, silver, zinc and other minerals are mined. Crude oil is tapped at the rate of 35,000 barrels a day, two-thirds of which is exported to the U.S.A. via a pipeline to the Chilean port of Arica. A new pipeline is under construction by YABOG, a joint company recently formed by Gulf Oil and the state-run YPF, to carry natural gas supplies from south east Bolivia to Argentina. Materials for the pipeline were halted by Gulf after their share in YABOG was nationalized by the Bolivian Government with the rest of Gulf's assets. The World Bank, however, is to fulfil its commitment to help finance the project, and Argentina has undertaken to provide the necessary supplies. Bolivia's increase in agricultural output for 1968 was well above the Latin American average. Cereals, fruits, nuts and rubber are grown. Livestock is raised, including llamas, and there is a valuable export trade in hides and skins and vicuña wool. Industry is on a small scale but development schemes are being undertaken. The ten-year Social and Development Plan 1962-71 is now being adapted to divert main aid from resettlement to development of the mining and gas production areas.

Transport and Communications

There are 3,300 km. of railways, linking the main towns. The road network is being lengthened. A 350-mile highway runs from Santa Cruz to Cochabamba, serving a colonization scheme on virgin lands around Santa Cruz. In 1963 the Argentine Government offered a free zone in the port of Barranqueras on the Parana River, about 800 miles from the border and connected by rail. This gave Bolivia an independent Atlantic outlet. Internal and international air services are provided by Lloyd Aéreo Boliviano. Foreign lines also serve the country.

Social Welfare

There are benefits for unemployment, accident, sickness, old age and death.

Education

The illiteracy rate is high (67 per cent) despite a Ten-Year campaign to combat this, introduced in 1956. Education is free and, where possible, compulsory between the ages of seven and fourteen. There are eight universities with 15,000 students.

Tourism

Lake Titicaca at 13,000 feet offers excellent fishing and on its shore stands the famous Catholic sanctuary of Copacabana. The Andes peaks include Chacaltaya which has the highest ski-run in the world. Tourists are mainly from the U.S.A. and South American countries.

Visas are not required to visit Bolivia by nationals of Argentina, Brazil, France, German Federal Republic, Peru, United Kingdom and U.S.A.

THE CONSTITUTION

Bolivia became an independent republic in 1825 and received its first Constitution in November 1826. Since that date a number of new Constitutions have been promulgated. Following the *coup d'état* of November 1964 the Constitution of 1947 was revived. Under it the executive power is vested in the President and members of his cabinet. In the revised Constitution the President is elected by direct suffrage for a four-year term and is not eligible for immediate re-election. In the event of his death or failure to assume office, the Vice-President takes his place, and failing the Vice-President, the President of the Senate.

The President has power to appoint members of the cabinet, diplomatic representatives, and archbishops and bishops from a panel proposed by the Senate. He is responsible for the conduct of foreign affairs and is also empowered to issue decrees, and initiate legislation by special messages to Congress.

Congress consists of a Senate and Chamber of Deputies and meets annually on August 6th at La Paz. Its ordinary sessions only last 90 working days, which may be extended to 120. Each of the nine departments (La Paz, Chuquisaca, Oruro, Beni, Santa Cruz, Potosí, Tarija,

Cochabamba and Pando) into which the country is divided for administrative purposes, elects three senators to serve for a period of six years. One-third of the Senate retires every two years. The 102 deputies are elected for four years, half the Chamber retiring every two years.

The supreme administrative, political and military authority in each department is vested in a prefect appointed by the President. The sub-divisions of each department, known as provinces, are administered by sub-prefects. The provinces are further divided into cantons. There are 94 provinces and some 1,000 cantons. The capital of each department has its autonomous municipal council and controls its own revenue and expenditure.

Public order, education and roads are under national control. The armed militia has been granted the legal status of Armed Forces.

A decree issued in July 1952 conferred the franchise on all persons who had reached the age of 21, whether literate or illiterate. Previously the franchise had been restricted to literate persons.

The death penalty was abolished in 1961. The official religion is Roman Catholicism.

ROADS

Bolivia has approximately 40,000 km. of roads and paths. These may be classified as follows: approximately 5,600 km. of all-weather roads, including 535 km. asphalted, and a further 8,160 km. serviceable only in the dry season; 9,500 km. of secondary departmental roads; 5,200 km. of provincial roads; and 11,300 km. of tracks and paths. Almost the entire road network is concentrated in the *alliplano* region and the Andes valleys. New projects include the construction of a Trans-Chaco highway, linking La Paz with Asunción, capital of Paraguay.

INLAND WATERWAYS

By agreement with Paraguay in 1938 (confirmed in 1939) Bolivia has an outlet on the River Paraguay. This arrangement, together with navigation rights on the Paraná, gives her access to the River Plate and the sea. The River Paraguay is navigable for vessels of 12-foot draught for 180 miles beyond Asunción in Paraguay and for smaller boats another 600 miles to Corumbá in Brazil.

An agreement with Argentina in April 1966 granted Bolivia free port facilities on the Río Paraná some 150 miles N.W. of Buenos Aires for handling iron ore for export from the Mutun mines.

Bolivia has about 12,000 miles of waterways navigable by light draught vessels when the rivers are full.

BOTSWANA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Botswana, formerly known as Bechuanaland, lies in southern Africa between the Republic of South Africa to the south and east, Rhodesia to the north-east and South West Africa to the west and north. A short section of the northern frontier adjoins Zambia. The territory is largely near-desert, and most of the population lives along the eastern border by the main railway line. The languages used are Tswana and English. The chief religions are ancestor worship and Christianity. The flag consists of a central horizontal band of black edged with white, between bands of azure blue above and below. The capital is Gaborone.

Recent History

Formerly one of the British High Commission Territories in southern Africa, Bechuanaland became internally self-governing in March 1965, and attained full independence within the Commonwealth on September 30th, 1966. Sir Seretse Khama's Botswana Democratic Party won 28 of the 31 elected seats in the National Assembly at the general elections of March, 1965, and 24 of the seats at the elections of October, 1969. Botswana is a member of the United Nations and the Organization of African Unity.

Government

Botswana is a Republic with a President as executive head of state and an elected National Assembly. Instead of an upper house of the Assembly, the President has powers to delay implementation of legislation for six months; and certain matters also have to be referred to the House of Chiefs for approval. Local government is effected through nine district councils and three town councils (Gaborone, Lobatsi and Francistown).

Economic Affairs

The economy is based chiefly on livestock, a large proportion of trade being with South Africa. Botswana, together with Lesotho and Swaziland, is linked to South Africa in a customs union, under which 0.31 per cent of the customs and excise revenue collected by the South African Government (excluding that deriving from South African-manufactured beer, wines and spirits) is paid to Botswana. The two countries also have a common currency, the Rand. There is a serious deficiency of employment in Botswana, and over half the paid employment lies in South Africa on nine-month mining contracts. Exploitation of mineral deposits offers good prospects for diversifying the economy. In addition to manganese and asbestos, already being produced, deposits of copper and copper/nickel ore have been located, and the development of the copper/nickel deposits at Pikwe/Selibe is being planned by Botswana Roan Selection Trust. Production at the diamond mines at Letlhakane and Orapa, which contains the second largest pipe discovered outside the U.S.S.R., is projected by De

Beers. Much is hoped for from the Shashi complex, based on copper deposits, and envisaging the development of reserves of coal, salt and soda ash, and the extension of irrigation farming. The growth of the complex is an important element of the National Development Plan 1968-73, towards which the United Kingdom is providing aid. Frequent droughts, causing crop failures in 1965 and 1967-68, and the landlocked position of the country are serious obstacles to economic development.

Transport and Communications

Communications are largely undeveloped, and the life-line of the country is the railway between South Africa and Rhodesia. There are several airfields served by Government and private charter companies. In the north the Okavango River represents the only major source of water, one which it has not yet proved possible to exploit, either for irrigation or transport. A large road development plan is under way.

Social Welfare

Health services are being developed, and at the end of 1967 there were 10 general hospitals, one mental hospital, 14 health centres and 84 dispensaries and clinics.

Education

In 1968 there were 78,963 pupils in primary schools, mostly financed by tribal authorities assisted by Government grants in aid. Approximately 2,300 students receive secondary education, and some students receive higher education abroad. Literacy in Tswana is about 25 per cent, and in English just over 15 per cent.

Tourism

There is an attractive game reserve at Chobe only a short drive from Victoria Falls by first-class roads. Most of the main centres of population have hotels, and photographic and big-game safaris can be organized.

Public Holidays

1970: May 7 (Ascension), May 18 (Whit Monday), May 24 (President's Day), June 8 (Commonwealth Day), August 5 (Bank Holiday), September 30 (Independence Day), December 25-26 (Christmas).

1971: January 1 (New Year's Day), April 9-12 (Easter).

Weights and Measures

The Imperial system of weights and measures is used.

Currency and Exchange Rates

South African currency is used in Botswana. One Rand (R) is divided into 100 cents.

Coins: 1, 2, 5, 10, 20, 50 cents; R1.

Notes: R1, R5, R10, R20.

Exchange rate: 1.716 Rand = £1 sterling
0.72 Rand = \$1 U.S.

THE CONSTITUTION

The new Constitution of Botswana came into operation on September 30th, 1966. The principal change from the 1965 Bechuanaland Constitution concerns the creation of the position of President, the holder of which took over the powers and responsibilities formerly exercised by the Prime Minister.

Executive power lies with the President of Botswana, who is also Commander-in-Chief of armed forces. Election for the office of President is linked with the General Election of members of the National Assembly. If there is more than one candidate for the Presidency, each candidate for office in the Assembly must declare which presidential candidate he supports. The candidate for President who commands the votes of more than half the elected members of the Assembly will be declared President. If the Presidency falls vacant the members of the National Assembly will themselves elect a new President. The President will hold office for the duration of Parliament.

There is also a Vice-President, whose office is Ministerial. The Vice-President is appointed by the President, and acts as his deputy in the absence of the President. The Cabinet consists of the President, the Vice-President, and eight other Ministers appointed by the President. Every member

of the Cabinet accepts responsibility before the National Assembly for the policies of the Government.

The legislative power is vested in Parliament, consisting of the President and the National Assembly, acting after consultation in certain cases with the House of Chiefs. The President may withhold his assent to a Bill passed by the National Assembly, but if it is again presented to him after six months, he is required to assent to it unless he dissolves Parliament within 21 days.

The House of Chiefs has the Chiefs of the eight principal tribes of Botswana as *ex officio* members, 4 members elected by sub-chiefs from their own number, and 3 members elected by the other 12 members of the House. Bills and motions relating to chieftaincy matters and alterations of the Constitution must be referred to the House, which may also deliberate and make representations on any matter, including Bills affecting tribal interests.

The National Assembly consists of the Speaker, the Attorney-General, who does not have a vote, 31 elected members, and 4 specially elected members. There is universal adult suffrage. The life of the Assembly is five years.

The Constitution also contains a code of human rights, enforceable by the High Court.

BRAZIL

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Brazil occupies a vast area of central and north-eastern South America. To the north are Venezuela, Colombia and the three Guianas, to the west Peru and Bolivia, with Paraguay, Argentina and Uruguay to the south. The climate varies from the tropical Amazon basin to the temperate central and southern uplands. The language is Portuguese. Over 95 per cent of the population is Roman Catholic. The flag is green with a yellow diamond in the centre charged with a blue celestial globe. The capital is Brasília, though most administrative offices still remain in Rio de Janeiro.

Recent History

During the past thirty years Brazil has had two outstanding leaders. Dr. Getúlio Vargas ruled from 1930 to 1945 and from 1951 to 1954, and Juscelino Kubitschek from 1956 to 1961. President Vargas developed Brazil from an agricultural state into a mixed economy with new industries. He also expanded and re-organised the educational system. President Kubitschek was responsible for much social change, his most conspicuous achievement being the building of the new capital, Brasília, on a jungle plateau 600 miles inland north-west of Rio. President Kubitschek was succeeded briefly by President Quadros and then by President João Goulart, who was overthrown by a military *coup* in April 1964. He was succeeded by President Castelo Branco. Marshal Artur da Costa e Silva, who was elected President in October 1966, took office for a four-year term in March 1967. In December 1968 President da Costa e Silva promulgated an Institutional Act giving himself the power to govern the country by decree. In early 1969 the Brazilian Government extended the security laws and nearly 300 citizens lost their political rights. On September 1st the three heads of the armed forces assumed power after President da Costa e Silva was incapacitated by a stroke. Following the kidnapping by revolutionaries of the United States' Ambassador to Brazil and his release in return for the liberation of fifteen political prisoners, the death sentence was reintroduced for "crimes of psychological and subversive or revolutionary warfare". On October 30th, Emilio Garrastazu Medici took office as President, having been elected by Congress under the new Constitution passed by the governing junta. On November 4th, revolutionary leader Carlos Marighela was killed in an ambush by security forces.

Government

The Republic of Brazil is a Federation of twenty-two States, four Territories and one Federal District. The Federal Government consists of the President and the National Security Council, and an Independent Judiciary. Each State has its own Governor, elected legislature and judiciary.

Defence

Military service is compulsory for one year between the ages of eighteen and forty-five. The armed forces consist of about 180,000 men—Army 120,000, Navy 30,000 and Air Force 30,000.

Economic Affairs

Agricultural production accounts for 25 per cent of the national income and 70 per cent of Brazil's exports. The dominant crops are coffee and cocoa, of which Brazil is the world's largest and second largest producer respectively. Brazil is now planning to explore new coffee markets by opening soluble coffee plants abroad. In 1968-69 cotton production reached a record total estimated at about 700,000 metric tons. Other important products include sugar, tobacco, beans, maize, rice, live animals, pine wood, sisal and iron and manganese ores. A recent project to develop the fishing industry aims at an annual catch of 900,000 tons by 1971. Industry is expanding, particularly in the São Paulo area whose output accounts for over 50 per cent of the national total, and steel and engineering works have been established under the development plans. Oil has been found in a few areas and refineries have been established. In 1969 the average daily production of crude oil was 200,000 barrels. Copper deposits estimated at 150 million tons have been discovered in Bahia State. The Central Southern area is one of the fastest expanding industrial and agricultural areas in the world. Important hydro-electric projects are under way and the Furnas Dam, capable of generating 1.2 million kW, was opened in 1965. Work is in operation to harness the Paraná river by two dams, at an estimated cost of U.S. \$700 million. The first plant came into operation in 1968 at Jupia. The second, the Urubupungá complex, consisting of twin hydro-electric stations, will have an eventual total output of 4.6 million kW, serving an area of nearly 400,000 square miles with a population of 45 million; the hydro-electric project also includes making the Paraná navigable, giving an outlet to the sea at Rio de la Plata. A Ten-Year Plan, divided into two five-year periods, is being prepared, with the aim of increasing Brazil's Gross National Product by 6 per cent a year. On August 27th, 1969, the cruzeiro was devalued for the eighth time since 1968.

Transport and Communications

Transport services are limited by jungles, rivers and mountains. Over large areas, air services are the only practicable means of transport and Brazil has a large domestic network. Modernization of roads and railways is in progress and the Trans-Brazilian Highway, running from Belém via Brasília to Rio Grande do Sul is under construction, ultimately to be extended to Peru and the Pacific coast with a total length of 2,700 km. There are long-distance express bus services which play an important part in the scheme of public transport. Rivers are very important and 26,700 miles are navigable. The Amazon is navigable for 2,300 miles as far as Iquitos in Peru, and ocean-going ships can reach Manaus, 1,000 miles upstream.

Social Welfare

The trade unions and employers' organizations provide welfare services financed by joint contributions. According to the constitution, employers must fulfil certain obligations, including compulsory accident insurance.

BRAZIL—(STATISTICAL SURVEY)

Education

Pre-elementary schooling is provided in urban areas for children up to seven years old. Education is free in official primary schools and compulsory between the ages of seven and fourteen, although the tendency in rural districts for children to start school late brings the average enrolment age to over nine years. Secondary education is divided into a four-year basic course and an advanced course of three years; where necessary it is free, but a system of repayable grants is being encouraged, and the majority of secondary schools are private. The Federal Government is responsible for higher education and there are 46 universities with over 280,000 students.

Although the high drop-out rate of children at elementary level is still a serious problem, illiteracy has steadily been reduced to the present rate of 26 per cent of the population. In 1970 23 per cent of the Federal Budget is to be directly invested in education.

Tourism

Rio de Janeiro, with its famous beaches, is the centre of the tourist trade. Like Salvador, Recife and other towns it has excellent examples of Portuguese colonial, and modern, architecture. The new Capital, Brasília, incorporates a new concept of city planning and is the nation's showpiece. Other attractions are the Iguassu Falls, one of the highest in the world, and the tropical forests of the Amazon basin.

Visas are not required to visit Brazil by nationals of the following countries: Belgium, Canada, Denmark, France, Federal Republic of Germany, Greece, Italy, Liechtenstein, Luxembourg, Morocco, Netherlands, Norway, Portugal,

Spain, Sweden, Switzerland, United Kingdom, U.S.A. and all Latin American countries except Cuba.

Sport

Football is by far the most popular sport in Brazil, which won the World Cup in 1958 and 1962. Basketball is the second great national sport, and tennis, water sports, golf, horse racing and recently underwater fishing are also popular.

Public Holidays

1970: May 1 (Labour Day), September 7 (Independence Day), November 2 (All Souls' Day), November 15 (Proclamation of the Republic), December 25 (Christmas Day).

1971: January 1 (New Year's Day), April 9 (Good Friday), April 21 (National Holiday). Also important religious and local festivals.

Weights and Measures

The Metric System is in force.

Currency and Exchange Rate

The currency unit is the Cruzeiro of 100 Centavos. A new cruzeiro worth 1,000 old cruzeiros was introduced by law in 1966, and came into circulation in February, 1967. It is divided into 100 centavos.

Coins made of stainless steel are to be introduced because of a world-wide nickel shortage.

Notes: 20, 50, 100, 200, 500, 1,000, 5,000, 10,000 cruzeiros.

Exchange rate: 10.38 new Cr. = £1 sterling
3.80 new Cr. = \$1 U.S.

THE CONSTITUTION

BRAZIL is a Republican Federal state made up of the indissoluble Union of the States, the Federal District and the Territories, under a representative regime. The Federal District is the capital of the Union. All power stems from the people and is exercised in their name; the powers of the Union are the Legislative, the Executive and the Judicial, all independent of each other but working in co-operation.

The Union's competence includes maintaining relations with foreign states and making treaties with them, and taking part in international organizations; declaring war and making peace; decreeing a state of siege; organizing the armed forces, planning and guaranteeing national security; issuing currency; supervising credits, etc.; establishing national services, including communications, development and education services; legislating on the execution of the Constitution and federal services and on civil, commercial, penal, procedural, electoral, agrarian, maritime and labour law. The Union, States, Federal District, and Municipalities are forbidden to make any distinction between Brazilians, establish any religious cults or churches against the public interest, and to deny public documents.

The Union may only intervene in state affairs in matters of extreme urgency, such as national security, and then only by Presidential decree. The States have certain powers according to the Constitution; they are responsible for electing their Governor by universal suffrage by direct secret ballot, also officials to carry out laws. The state law will decree the establishment of Municipalities, after due consultation with the local population; it will also decree the division of the States into districts; municipal organization may vary from state to state; municipal autonomy is assured by simultaneous direct election of the Prefect and senior officials throughout the country two years before the elections for Governors, Chamber of Deputies and Legislative Assembly; and by their own administration. Intervention in the municipalities is regulated by the Constitution. The Prefect of the Federal District and Governors of Territories will be nominated by the President of the Republic, after Senate approval. The Senate will discuss legislation concerning tributary systems, public services and personnel administration. The Territorial Governors nominate the Municipal Prefects.

political rights, as will any who does not attend at least half the sessions, unless he has obtained previous dispensation.

The *Chamber of Deputies* is made up of representatives of the people, elected by direct secret ballot for a period of four years. The number of deputies is fixed by law in a proportion which shall not exceed one for every three hundred thousand inhabitants, to a total of twenty-five, and beyond this limit one for every million inhabitants. There will be a minimum of seven deputies to each State and each Territory will have one deputy.

The *Federal Senate* is composed of representatives of the States, elected by direct secret ballot according to the majority principle. Each State will elect three senators with a mandate for eight years, with elections after four years of one-third of the members and after another four years of the remaining two-thirds. Each Senator is elected with his substitute. The Senate approves, by secret ballot, the choice of Magistrates, when required by the Constitution; of the Attorney-General of the Republic, of the Minister of the Accounts Tribunal, of the Prefect of the Federal District, of the Territorial Governors, of the permanent heads of diplomatic missions and other public servants.

The *National Congress* is responsible for legislating on all matters within the competence of the Union, including tributary matters; the budget; national and regional plans and programmes; the armed forces in times of peace; territorial limits. It is also responsible for making definitive resolutions on Presidential treaties, authorizing the President to leave the country; to declare war, to approve the incorporation or cutting off of sections of the States or Territories. The Executive power must send any Acts proposed by the President to the National Congress within fifteen days of signing. Any changes in the Constitution must be proposed by at least a quarter of the members of either House, the President or the State Legislative Assemblies. No changes may be made to the Constitution during a state of siege. Any project from the President must be considered by Congress within forty-five days. The President is exclusively responsible for legislation concerning finance, creating new public offices, etc., deciding or modifying the armed forces' strength, matters concerning the administration of the Federal District and the Territories.

expediting instructions for executing laws, decrees and regulations, providing the President with an annual report of their activities.

National security is the responsibility of every citizen. There is a National Security Council, composed of the President and the Vice-President of the Republic and all the Ministers of State; its areas of competence include studying all problems connected with national security, and where applicable granting permission for the concession of land, opening up means of communication, for the construction of international bridges, roads and airports, for establishing industries concerned with national security and modifying or cancelling any such concessions or authorizations. The Armed Forces consist of the Navy, Army and Air Force which are permanent, regular, national institutions organized within the framework of the law under the command of the President. All Brazilian men are obliged to fulfil military or other security service and women and priests may be called upon to carry out special services.

JUDICIAL POWER

Judicial power in the Union is exercised by the Supreme Federal Tribunal; the Federal Recourse Tribunals and federal judges; Military Tribunals and judges; Electoral Tribunals and judges; Labour Tribunals and judges. Judges are appointed for life; they may not undertake any other employment, receive any percentages from cases tried by them or engage in any party political activity. The Tribunals elect their own presidents and organize their own internal structure.

The *Supreme Federal Tribunal*, situated in the Union capital, has jurisdiction over the whole national territory and is composed of sixteen Ministers. The Ministers are nominated by the President after approval by the Senate, from Brazilian-born citizens, over the age of thirty-five, of proved judicial knowledge and experience.

POLITICAL AND PERSONAL RIGHTS

Registration and voting are compulsory for all Brazilian citizens over the age of eighteen except those who are illiterate or unable to express themselves in the national language or are temporarily or definitively deprived of political rights. The organization of political parties is regulated by federal law, providing for a representative and democratic regime, based on a number of parties, with the guarantee of the fundamental rights of man.

All citizens are equal in the eyes of the law, regardless of sex, race, employment, religion or political convictions; any racialism will be prosecuted, there is no death penalty (except under military legislation in case of external war), no life imprisonment, banishment or confiscation of property. Rights concerning citizens' life, liberty, security and property are inviolable.

The President may declare a state of siege in cases of serious breaches of order or the likelihood of their occurring; or war. Except in cases of war, the state of siege may not last longer than sixty days, with the possibility of extension with the approval of Congress. During a state of siege Congress may suspend constitutional guarantees, and also the immunity of federal deputies and senators.

The Constitution also lays down principles of economic and social order, concerning freedom of enterprise, dignity of human labour, social function of ownership, harmony and solidarity in production, economic development and repression of abuse of economic power. Strikes are not permitted in public services and essential activities, as defined by law. The constitution lays down certain rights for workers, including limited hours of work, paid holidays and social welfare benefits; voting in trade union elections is compulsory.

The law protects family life; education is the right of all, with equal opportunity. Education will be organized by the States and the Federal District and the Union will give technical and financial assistance to develop education.

THE 1969 CONSTITUTION

A new Constitution was promulgated on October 17th, 1969. The following is a summary of the principal changes to the 1967 Constitution given above.

The President and Vice-President are to be elected directly for a term of office of five years (after March 15th, 1974). The President retains powers to issue decrees on national security, public offices, and public finances, including taxation and pay awards.

The permanent stipulations of all Institutional Acts remain in force, and measures enacted under Institutional and Complementary Acts are not subject to judicial decisions.

Direct elections are to be held for state governors and deputy governors and for municipal prefects and councillors (indirect gubernatorial elections, however, are to be held on October 3rd, 1970).

The membership of the Federal Supreme Court is reduced from 16 to 11.

The share of the States, the Federal District and the municipalities in revenue from the income tax and the industrial products tax is established at 5 per cent.

The President of the Senate is to preside over Congress instead of the Vice-President; the membership of the Chamber of Deputies is reduced from 321 to an average of 280, distributed according to the number of electors rather than that of inhabitants; congressional sessions are to be held from March 31st to November 30th of each year; expenses paid to members of Congress and to state deputies

are regulated and reduced; no subsidies are to be paid for members' foreign travel, except on official business; voting on the budget is to be carried out by both Houses in joint session; the presidential veto on congressional decisions is abolished but the President may request their reconsideration within ten days; members of Congress continue to enjoy parliamentary immunity with the exception of offences against national security.

Constitutional amendments must now be supported by at least one-third of the total membership of Congress and ratified by a simple majority; they may no longer be proposed by state legislative assemblies.

Salaries are to be paid to councillors in state capitals and in municipalities with over 200,000 inhabitants; state deputies may not receive more than two-thirds of the salaries of federal deputies; the accumulation of posts by professional people is forbidden, with certain exceptions; and tax inspectors and other public employees are prohibited from deducting commissions from tax collections and related fines.

The conditions for the establishment of political parties are eased; congressional representation will be achieved when 5 per cent of the total electorate vote for a party, with a minimum of 7 per cent of the vote in each of seven States.

| MDB—Movimento Democrático Brasileiro | 20 | 140 |

POLITICAL PARTIES

The status of political parties came under revision in June 1965, and a new Statute was signed by President Castelo Branco on July 14. In October the President suspended all political parties which had so far been formed. However, in December new groups were formed in Congress and the following parties had been registered by March 1967 under the new system:

Aliança Renovadora Nacional (ARENA): c/o Palácio Tiradentes, Brasília; Pro-Government party; Pres. Sen. DANIEL KRIEGER.

Movimento Democrático Brasileiro (MDB): Opposition group; includes members of former Partido Trabalhista Brasileiro; Pres. Sen. OSCAR PASSOS.

JUDICIAL SYSTEM

The judiciary powers of the State are held by the following tribunals: the Supreme Federal Tribunal, the Federal Tribunal of Recourses, the State Tribunals of Appeals, the Superior Military, the Electoral, and the Labour Tribunals; and by judges of other courts.

Sixteen ministers, nominated by the President and approved by the Senate, compose the Supreme Federal Tribunal. It judges offences committed by persons exempt from appearing before the normal courts, such as the President, Ministers of State, its own members, judges of other courts, and chiefs of permanent diplomatic missions. It also litigates in disputes between the Union and the states, between the states, or between foreign nations and the Union or the states; disputes as to jurisdiction between justices and/or tribunals of the different states, including those of the federal district and of the territories; in cases involving the extradition of criminals, in certain special cases involving the principle of *habeas corpus*, and in other cases. It is also empowered to judge ordinary appeals in cases in which the Union is interested as plaintiff or defendant.

The Federal Tribunal of Recourses judges the cases in which the Federal Union has interest.

The Tribunals of Appeals, apart from their normal function as a court of appeal, can sit in judgment on their own members. The number of judges varies according to the judiciary organization of each state.

The organs of the Electoral Tribunal (the Superior

Tribunal, the Regional Tribunals, and the electoral judges) register the names of political parties, fix the date of elections, supervise the listing of voters, and deal with all infractions of the electoral laws. The seven judges of the Superior Electoral Tribunal are chosen: two from the Supreme Federal Tribunal, two from the Tribunal of Appeals, one from the Tribunal of Justice of the Federal District and two by the President.

The functions of the Military Court are no more than the name implies. The Labour Tribunal deals with labour disputes.

Civil offenders usually come before the courts of the separate states and of the Federal District. Each state organizes its own judiciary system on the principles established in the Constitution, and appoints its own judges from those who have passed the State examination in law.

RELIGION

The majority of the population is Roman Catholic.

THE PRESS

DAILY NEWSPAPERS

MORNING EDITIONS

Rio de Janeiro

The first Brazilian newspaper, Hipólito da Costa's *Correio Brasiliense*, was published in London in 1808 and appeared regularly until the end of 1822. During this time, the Brazilian government subsidized several papers to combat da Costa's press, all of which were political. The emergence of the more serious, informative newspapers was very gradual, and it was not until the late nineteenth century that these appeared in the form of regular publications.

The Press of the modern Republic has greatly increased in numbers and circulation, but due to the difficulties of distribution, it is not yet completely national. The Press in Brazil is today subject to two controls: the Censorship Law, passed in December 1968 under the Castelo Branco government, under which editions can, and have been, seized as a form of "after-censorship"; and the National Security Laws, which were extended in 1969 under Costa e Silva and which allow journalists to be tried for political crimes by Military Courts, thus by-passing the Press Law. National Security Laws are obviously subject to wide interpretation.

The principal ports are Rio de Janeiro, Santos and Vitória. Santos, the largest port in South America, is principally used for export of coffee. In 1966 a new port was opened at Tubarão (Vitória) 280 miles north of Rio, specially equipped to process and handle iron ore shipments, also with ample storage facilities for bulk imports. A 600m. scheme to improve Brazil's iron exports, announced in 1967, includes the building of a new rail terminal and harbour at Sepetiba, just south of Rio de Janeiro. Port improvements are in progress at Recife, Rio de Janeiro, Angra dos Reis, Mucuripe and Santos. Brazil's merchant shipping fleet is the largest in Latin America with a gross registered tonnage in 1966 of 1,114,032.

CULTURAL ORGANIZATION

The cultural heritage of Brazil is rooted in three distinct groups which have fused to make the present population: the European, mainly Portuguese, the African negro, slaves brought in by the European, and the indigenous Indians. All these elements can be seen in present day cultural manifestations, such as Carnaval, where Indian and African influences show clearly in a Christian-based festival. Local legends play an important part in the cultural life, and each State has a department concerned with tourism or culture.

Rio de Janeiro is the venue for the Brazilian Theatre Congress in July, also Folklore Day; there is an inter-

national Music Festival in August/September, also the Brazilian Authors' Festival, Brazilian Popular Music Festival and a biannual Piano Competition. At São Paulo there is the famous Biennial, which has received world-wide acclaim and participation, being second only to Venice in importance.

The principal body concerned with the organization of the arts and culture is:

Ministério da Educação e Cultura: Palácio da Cultura e Educação, Rua da Imprensa 16, Rio de Janeiro; Minister TARSO DUTRA; the Ministry is responsible for a number of cultural organizations, among them:

Comissão Nacional de Belas Artes (*Fine Arts Commission*).

INTRODUCTION

The Bahamas consist of nearly 700 islands and about 2,000 cays and rocks extending from off the Florida coast of the U.S.A. to just north of Cuba and Haiti. The climate is mild and sub-tropical, making the islands a tourist paradise. The capital, Nassau, stands on the island of New Providence.

In January 1964 constitutional changes were brought into force to give a larger measure of internal self-government with Cabinet responsibility. A 15-member Senate (8 members appointed by the Governor, 5 appointed on the advice of the premier, 2 appointed on the advice of the Leader of the Opposition) and a 38-elected member House of Assembly form a bi-cameral Parliament, to which the Cabinet is responsible. The Governor retains powers in the fields of foreign affairs, defence and internal security.

The major economic activity is tourism which has grown rapidly in recent years; over a million tourists visit the islands each year. Based on Nassau, and Freeport on Grand Bahama island, the tourist industry is also developing in the Out Islands. Nassau is a growing financial centre, and at Freeport much industrial development has taken place; tax advantages are a big attraction to investors. Cultivation of fruit and livestock, fisheries and forestry all make a small contribution to the economy.

Communications are chiefly by aircraft and boat; motor roads on the larger islands are excellent. There are radio/telephone connections between the islands.

There are good medical and educational facilities, and the Bahamas contribute financially to the University of the West Indies.

Tourism

Nationals of the following countries may visit the Bahamas without visas: Austria, France, Federal Republic of Germany, United Kingdom, U.S.A., and South American countries.

THE CONSTITUTION

Under the new Constitution which came into force in January 1964 the Bahamas is internally self-governing. The Governor, who retains special responsibility for foreign affairs, defence and internal security, acts on the advice of the Premier and a Cabinet of at least 9 Ministers. The Senate (upper house) consists of 15 members of whom eight are appointed by the Governor, five on the advice of the Premier and two on the advice of the Leader of the Opposition. The House of Assembly (lower house) has 38 members. The constituencies are to be reviewed at least once every five years by a Constituencies Commission.

Commissions to advise on appointments, promotion and discipline for the Public Service, Police and the Judicial Service were set up in 1964.

A constitutional conference in September 1968 decided *inter alia* that the Senate should be composed of 16 members, and that a Security Council be formed with responsibilities for External Affairs and Defence.

BERMUDA

INTRODUCTION

The Bermudas or Somers Islands are an isolated group of small Atlantic islands about 570 miles off the coast of South Carolina, U.S.A. The climate is mild thanks to the warming effects of the Gulf Stream. The capital is Hamilton.

Bermuda has been a British colony since the seventeenth century, and is now self-governing.

The local defence force is the Bermuda Regiment with a strength of some 425 men.

The chief source of revenue is customs duties, but the tourist business is the most important feature of the economy. There is no income tax or estate duty, and considerable U.K. capital is invested in Bermudan enterprises.

There are good roads and bus and ferry services, while international lines provide regular sea and air services.

A wide range of welfare work is undertaken by a division of the Department of Health and Welfare, as well as by a number of voluntary organizations. There are compulsory pension and health insurance schemes (contributory) for Government employees. As of 1969 there is free compulsory education between the ages of five and sixteen. There are a number of scholarships for higher education and teacher training.

The great attractions of the islands are the climate, scenery, and facilities for outdoor entertainment of all types.

Visas are not required by visitors from non-Communist countries.

THE CONSTITUTION

Representative government was introduced in the Colony in 1620. Under a Constitution introduced on June 8th, 1968, there are provisions relating to the protection of fundamental rights and freedoms of the individual, the powers and duties of the Governor; the composition, powers and procedure of the Legislature; the Executive Council; the Judiciary; the Public Service and Finance.

Her Majesty the Queen appoints the Governor, who retains responsibility for external affairs, defence, internal security and the Police. In other matters the Governor acts on the advice of the Executive Council.

The Legislature consists of Her Majesty, the Legislative Council and the House of Assembly. Five members of the Legislative Council are appointed in the Governor's discretion, four on the advice of the Government leader and two on the advice of the Opposition leader. The Council elects a President and Vice-President. The House of Assembly, consisting of forty members elected under universal adult franchise from twenty constituencies,

elects a Speaker and a Deputy Speaker, and sits for a five-year term.

The Executive Council consists of the Government leader and at least six other members of the Legislature. The Governor appoints the majority leader in the House of Assembly as Government leader, who in turn nominates the other members of the Council. They are assigned responsibilities for government departments and other business and, in some cases, are assisted by Parliamentary Secretaries. Meetings of the Executive Council are normally presided over by the Governor. The Secretary to the Executive Council is Head of the Civil Service.

Voters must be British subjects of 21 years or over, and if not possessing Bermudian status, must have been normally resident in the Colony for three years immediately prior to registration. Candidates for election must qualify as electors and in addition must possess Bermudian status.

THE BRITISH VIRGIN ISLANDS

INTRODUCTION

The British Virgin Islands consist of more than 40 islands, of which some 16 are inhabited, lying at the eastern end of the Greater Antilles, 60 miles to the east of Puerto Rico and adjoining the American Virgin Islands. The capital, Road Town, stands on the island of Tortola.

The bulk of the islands' export trade is in livestock and to a lesser extent fish, fruit and vegetables; agriculture is geared to grass cultivation for the production of livestock. After a late start, the tourist trade is fast becoming a major industry.

Two large-scale development projects are now in progress: a land reclamation scheme involving 70 acres at Wickhams Cay, Road Town, and the complete transformation of the island of Anegada, where the Anegada Development Corporation has already completed a 3,500 ft. airstrip and a deep-water harbour pier and is constructing 30 miles of roads.

FIJI

INTRODUCTION

The colony of Fiji consists of more than 800 islands situated about 1,200 miles south of the equator in the Pacific Ocean. The climate is tropical with temperatures ranging from 60° to 90°F (16°–32°C). The population includes Fijians, Indians, Chinese, Europeans and Melanesian and Polynesian peoples from other island groups including Tonga. The capital and chief port is Suva.

A new Constitution was introduced in 1966. It provides for an enlarged franchise and an expanded Legislative Council, almost wholly elected. Elections under the new Constitution were held in September and October 1966 and resulted in a clear majority for the Alliance. Alliance members and supporters won 27 seats and the Federation Party 9 seats. President of the Alliance, Ratu Sir Kamisese Mara, is the Chief Minister. The Council of Ministers consists of seven Alliance members and four official members appointed by the Governor. Most members of the Council have portfolios for government departments. A constitutional conference is due to be held during the spring of 1970 with the aim of making final arrangements for Fiji's independence.

Agriculture is the main basis of the economy, and raw sugar and coconut products made up about 77 per cent of total exports in 1968. Rice, bananas, dairy produce and vegetables are important products. Gold mining is a major export industry and secondary manufacturing industries are developing steadily. Forestry has a big potential; exports in 1968 reached £161,389. Tourism is growing rapidly, with the number of visitors increasing by about 20 per cent in 1968. The Five-Year Development Plan, 1966–70, provided for capital expenditure of £20.5 million spread over almost every aspect of the territory's activities.

Fiji lies on the main route between Australia and New Zealand and North America, and is the centre of communications in the southwestern Pacific. The international airport is at Nadi, about 130 miles from Suva. Suva Wharf and Lautoka Wharf were reconstructed in 1962 and 1963. There are no main railways but about 440 miles of light tracks carry sugar cane to the mills.

BRITISH COLONIAL TERRITORIES—HONG KONG

HONG KONG

INTRODUCTION

The Colony of Hong Kong lies off the south coast of China and consists of the island of Hong Kong, Stonecutters Island, the Kowloon Peninsula and the New Territories, which are partly on the mainland. The New Territories were leased by China in 1898 for a period of 99 years. The climate is sunny and dry in winter, and hot and humid in summer. The official language is English, but Cantonese is universally spoken and Mandarin is widely understood. The main religion is Buddhism; Confucianism and Taoism are also practised and there are more than a quarter of a million Christians. The capital is Victoria on Hong Kong island.

The Colony is administered by the Governor, the Executive Council of five *ex-officio* members and nine nominated members, and the Legislative Council consisting of twelve official members and thirteen other members.

Hong Kong is a free trade area and one of the principal entrepôt ports of the world. Industry has expanded rapidly in recent years, and manufactured goods, particularly textiles and electrical goods, now make up three-quarters of total exports. Commerce plays an important part in the economy and Hong Kong banking and mercantile houses have branches all over the Far East. In December 1964 legislation was enacted to limit the activities of unincorporated banks.

Transport facilities include buses, trams, and ferries

and a railway runs north from Kowloon to the Chinese border.

Social welfare and education are rendered difficult by the heavy influx of refugees from the mainland, estimated at more than a million since the war. Resettlement is undertaken by the Government and many private bodies (Kaifongs). There are state schools and private schools but only enough places for about one child in five. A new Chinese University was set up in 1963 in addition to Hong Kong University.

Hong Kong is one of the main tourist centres of the Far East. The currency unit is the Hong Kong Dollar of 100 cents. £1 sterling = H.K. \$14.55; U.S.\$1 = H.K. \$6.06.

Visas are not required to visit Hong Kong by nationals of the following countries: Austria, Belgium, Denmark, France, Iceland, Italy, Liechtenstein, Luxembourg, Monaco, Netherlands, Norway, Portugal, San Marino, Spain, Sweden, Switzerland, United Kingdom and U.S.A.

The Legislative Council replaces the former Advisory Council, but the elected membership will not change until elections take place in 1968. CONSTITUTION

Under the provisions of the present Constitution, which came into effect on 1 April 1967, the Legislative Council consists of 14 elected members, 3 ex-officio members (the Chief Secretary, the Attorney-General and the Financial Secretary) and up to 12 public service members, under the presidency of the High Commissioner.

An Executive Council, which the High Commissioner consults in the exercise of all powers conferred upon him by the Constitution Order in Council or by any other law in force in the Protectorate other than in cases where he is specifically empowered otherwise, meets regularly and is presided over by the High Commissioner. Its membership consists of the Chief Secretary, the Attorney-General, the Financial Secretary and not more than five other members of the Legislative Council, of whom not more than one may be a public service member.

A General Election was held May/June 1967 in all 14 constituencies. An indirect election through an electoral

college was held in the Eastern Outer Islands constituency; in all the others a direct election was held on the basis of universal adult suffrage. Interim proposals for further constitutional development were published at the end of 1968, based on a departure from the Westminster model and the formation of a single governing Council supported by executive committees. The Council would have a majority of elected members. Subject to acceptance of these proposals by the Legislative Council and Her Majesty's Government, it is probable that the necessary constitutional changes will be made before the next General Election due in mid-1970.

THE CONSTITUTION

A new Constitution was promulgated in September 1959. Under it sovereign authority is vested in the Sultan.

The Constitution provides for the creation of a Legislative Council, a Council of Ministers and a Privy Council. A *Mentri Besar* (Chief Minister) appointed by the Sultan is responsible for the exercise of executive power.

A new Agreement replacing that of 1905-06 was concluded with the United Kingdom following the promulgation of the Constitution. Under the Agreement, the British Government continues to be responsible for the defence and external affairs of the State and provides for the appointment of a High Commissioner to advise the Sultan on such matters as external affairs, defence, and internal security, and generally on matters other than those affecting the Muslim religion and Malay custom.

The Council of Ministers or Cabinet is presided over by the Sultan and consists of the High Commissioner, 6 *ex-officio* members and four members of the Legislative Council nominated by the Sultan.

The Legislative Council is presided over by a Speaker and consists of 21 members, of whom six are *ex-officio* members, five members are nominated by the Sultan to represent important interests and 10 are elected members.

The State is divided into four administrative districts, in each of which is a District Officer (Malay) responsible to the *Mentri Besar*.

One Supreme Court Judge constitutes the High Court, which has unlimited original jurisdiction in all civil matters other than the annulment of marriages solemnized between Christians in the United Kingdom or any British Colony, and matters concerning Muslim marriage, religion and divorce. The Court has unlimited criminal jurisdiction.

Courts of Magistrates: The Court of a Magistrate of the First Class has original civil jurisdiction in suits involving not more than \$500 and original criminal jurisdiction in the case of offences for which the maximum term of imprisonment does not exceed two years and the maximum fine does not exceed \$5,000. BURMA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Union of Burma lies in south-east Asia between the Himalayas and the Malayan peninsula. Its principal neighbours are India to the north-west, China to the north-east and Thailand to the south-east. The climate is tropical, with an average temperature of 80°F (27°C) and monsoon rains from May to October. The official language is Burmese and there are also a number of tribal languages. Freedom of religious worship is the right of every citizen and 75 per cent of the population are Buddhists. There are Christian, Hindu and Muslim minorities, and there is a Chinese community of some 350,000. The flag is red and blue charged with a white star surrounded by five smaller stars. The capital is Rangoon.

Recent History

Burma elected to become an independent State in 1948 after being under British rule. The central government operates from Rangoon, but much power has remained in the Shan and other States. In 1958 the Army took over control. Civil rule was restored in 1960, but in March 1962 the Army staged another *coup* and set up a Revolutionary Government under General Ne Win. In February 1963, a left-wing faction acquired greater influence although General Ne Win remained firmly in control. The subsequent period has been marked by intensive efforts to nationalize the economy and to reach peace with underground organizations representing separate ethnic groups.

Government

The Revolutionary Government suspended the 1947 Constitution and has not yet promulgated a new one. The Government consists of a Revolutionary Council, whose members are all army officers and which stands at the apex of a hierarchy of councils representing most functions and elements of society. Parliament was dissolved at the time of the *coup*; all political organizations excepting the official *Burmese Way to Socialism Programme Party* were dissolved in April 1964. The federal form of government has been retained, with State Councils for each of the five States—Chin, Kaw thu lay (Karen), Kachin, Kayah and Shan.

Defence

Burma maintains neutrality and has no external defence treaties. The Armed Forces are largely engaged in internal security duties.

Economic Affairs

Burma is relatively rich in agricultural, fishery, timber, mineral and water resources. Agriculture, forestry and fisheries produce 40 per cent of G.N.P. and employ 67 per cent of the labour force, and rice, timber and other agricultural products are the main export items. Until 1964, Burma was the world's leading exporter of rice and rice products, and although these still constitute 60 per cent of Burma's exports the decline in the rice trade has

had serious repercussions throughout the economy. The mining of tin, petroleum and coal are important; the expanding petroleum industry is expected to supply all Burma's requirements for petroleum products by 1971, but this will entail expansion of refining capacity. There are small deposits of tungsten, lead, zinc, antimony, silver and gold, while a number of other minerals are known to exist. The 8,918 industrial establishments recorded in 1967 mainly process primary products, particularly the milling of rice.

Industry, transport, internal and external trade, communications and finance have been nationalized since the 1962 Revolution. The current Four-Year Plan (1966-70) places emphasis on diversifying and expanding agriculture at an annual rate of 6 per cent and on developing industries based on domestic raw materials. The projected expenditure under the plan amounts to 625 million Kyats. Burma receives little foreign aid and investment.

Transport and Communications

The chief artery of traffic is the river Irrawaddy, which is navigable as far as Bhamo, 900 miles inland. The Irrawaddy delta has nearly 2,000 miles of navigable waters and some parts of the Salween and the Chindwin are navigable. Railways have been modernized by the introduction of diesel engines. The Union of Burma Airways Board provides internal and international air services. The railways, domestic airways and the major inland water facilities are owned and operated by the State, while all passenger and freight road transport services are to be nationalized.

Social Welfare

Burma's health services were greatly extended in 1964, but there is no comprehensive system. About 500,000 workers are covered by social security insurance.

Education

Education is free, where available. The educational system was radically revised in 1966, and all private schools have since been taken over by the State. Schools are divided into primary, middle and high schools. Emphasis is placed on vocational and technical training. There are two universities.

Tourism

Tourism is undeveloped. Burma is one of the centres of Buddhism and has many temples and shrines, including the famous Shwe Dagon Pagoda in Rangoon. Mandalay and Pagan also possess outstanding temples and palaces.

Visas are required by all visitors.

Sport

There is little organized sport, but football, basketball, volleyball and tennis are played.

THE CONSTITUTION

(Adopted 24 September 1947, suspended after *Coup d'état* 2 March 1962.)

THE Union of Burma is a sovereign, independent republic. All powers—executive, legislative and judicial—reside in the people. The Union consists of the territories formerly governed by his Britannic Majesty through the Governor of Burma, together with the Kayah State.

The Government

The President of the Union shall be elected by both Chambers of Parliament in joint session, by secret ballot, for a five-year term. He may not be a member of either Chamber, nor serve for more than a maximum of two terms. The executive power of the Union is vested in his person. He shall summon, prorogue or dissolve the Chamber of Deputies, on the advice of the Prime Minister, and appoint the Prime Minister on the nomination of the Chamber of Deputies. Every Bill requires the signature of the President for its enactment into law, but he has no power of veto. The President has the right of pardon.

The Government shall consist of the Prime Minister and other members nominated by the Prime Minister and appointed by the President. It is collectively responsible to the Chamber of Deputies. The President shall appoint an advocate of the High Court to be Attorney-General, on the nomination of the Prime Minister.

The legislative power of the Union is vested in the Parliament, which shall consist of the President, a Chamber of Deputies, and a Chamber of Nationalities. A session of Parliament shall be held at least once in every twelve months. Every citizen over 18, regardless of sex, race or religion, has the right to vote, unless disqualified by law. Voting shall be by secret ballot.

The Chamber of Deputies shall be composed of members who represent constituencies of not less than 30,000 or more than 100,000 persons. This Chamber shall be approximately twice the size of the Chamber of Nationalities, and its term shall be four years, except in times of grave emergencies. Parliament shall revise the constituencies at least once in every 10 years.

The Chamber of Nationalities shall consist of 125 seats: 25 for the Shan State, 12 for the Kachin State, 8 for the Special Division of China, 3 for the Kayah State, 15 for the Karen State and the remainder for other territories.

The sole and exclusive power of making laws in the Union shall be vested in the Parliament, but provision may be made by law, on principles of regional autonomy, for delegating specified powers in administrative, cultural and economic matters.

The Shan State

All the members of Parliament representing the Shan

State shall constitute the Shan State Council. The State Council may recommend to the Parliament the passing of any law outside its own legislative powers. On the advice of the State Council, and on the nomination of the Prime Minister, the President shall appoint a member of the Union Government to be Head of the Shan State. The executive authority of the State shall be vested in this person, and his authority shall extend to all matters relating to recruitment to the State civil services, to postings and transfers, and to disciplinary matters relating to these services. He shall consult the State Council in all other matters relating to the Shan State, and the State Council shall elect a Cabinet of State Ministers to aid and advise him.

The Kachin State

All members of the Parliament representing the Kachin State shall constitute the Kachin State Council. Of the twelve seats in the Chamber of Nationalities, six shall be filled by representatives of the Kachins, and the other six by those of the non-Kachins of the Kachin State. Any Bill prejudicially affecting any right or privilege which the Kachins or non-Kachins, as a class or community, enjoyed immediately before the commencement of this Constitution, shall not be deemed valid unless the majority of the members representing the Kachin State have voted in its favour.

The Karen State, Kayah State, and Chin Special Division

Similar Councils and Heads of State shall be appointed for the Karen State and the Kayah State. The Constitution gives the Chins a special administrative division under a Minister for Chin Affairs who is aided and advised by the Chin Affairs Council consisting of all the members of the Parliament representing the Chins.

New States and Right of Secession

Parliament may, with the consent of the Council of every State whose boundaries are affected, establish a new unit or increase or diminish any unit.

The Shan State or the Kayah State may secede from the Union when a resolution has been passed by its Council, and a plebiscite has been held by the President to ascertain the will of the people of the State concerned, and provided that a period of ten years has elapsed from the date on which the Constitution came into operation.

Language

The official language shall be Burmese.

BURUNDI

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of Burundi on Lake Tanganyika lies in the heart of Africa a little below the Equator. Rwanda is to the north, Tanzania to the south and east and Congo (Kinshasa) to the west. The climate is tropical with an irregular rainfall. The official languages are French and Kirundi and Swahili is used in addition to French in commercial circles. Religious beliefs are African and animistic but missions have converted more than half the population to Roman Catholicism. The flag consists of a white St. Andrew's Cross on a background of red and green, with a white circle containing three red stars in the centre. The capital is Bujumbura (formerly Usumbura).

Recent History

Before independence Burundi formed part of the Belgian-administered UN Trust Territory of Ruanda-Urundi, which was itself formerly part of German East Africa. Internal self-government was granted in January 1962, following elections to a new National Assembly in September 1961, and full independence in July 1962, when the two parts of the Trust Territory became separate states. Burundi continued to be linked to Rwanda in a customs and monetary union, until the agreements were terminated in January 1964. In July 1966 Mwambutsa IV, king since 1915, was deposed by his son Charles with the help of a group of army officers, and the constitution suspended. In November 1966, Charles, now Mwami (King) Ntare V, was himself deposed by his Prime Minister, Captain (later Colonel) Micombero, who declared Burundi a Republic. Agreement on a settlement of the long dispute with Rwanda, during which armed refugees from both countries had clashed, was reached in March 1967 with the mediation of President Mobutu of Congo (Kinshasa).

A plot to overthrow the government was uncovered in September 1969, and 23 people found guilty of involvement in the conspiracy were executed in December.

Government

Since November 1966, Burundi has been a Republic, although a new constitution has not yet been promulgated. There are eight provinces, administered by military governors.

Defence

The army was merged with the police force in March 1967 and total armed strength is now around 3,000 men.

Economic Affairs

The economy is based almost entirely on agriculture, the main subsistence crops being manioc and sweet potatoes and the main cash crops coffee and cotton. Coffee accounts for some 85 per cent of Burundi's total export earnings, the bulk of the crop going to the U.S.A. Cotton is the other main source of revenue abroad. Tea is being developed and the government plans to raise output to around 7,000 tons by 1978, during which time six to eight tea processing factories are to be built.

The mining industry, based on gold and cassiterite, is developing, and exports have been expanding rapidly over the last few years. Manufacturing industry is, however,

still in its infancy, and many industrial and consumer goods have to be imported. Most foreign aid comes from Belgium, with France and Federal Germany also contributing individually and through the EEC. Negotiation of Burundi's application to join the East African Community began in November 1968; and in the same month Burundi and Zambia concluded a trade agreement. Proposals for an economic union between Burundi, Rwanda and Congo (Kinshasa) have been shelved for the moment, but three commissions have been set up: Burundi is responsible for the Economic, Financial and Technical Commission, Rwanda for the Social and Cultural Commission and Congo (Kinshasa) for the Political and Juridical Commission.

Transport and Communications

There are no railways in Burundi. Roads extend for 6,000 kilometres of which 80 kilometres are asphalted. The main roadway links the capital Bujumbura with Bugarama. There is passenger and freight traffic on Lake Tanganyika with Bujumbura as the main port handling about 250,000 tons of goods yearly. There is an international airport at Bujumbura which is to be enlarged to take large jet aircraft.

Social Welfare

Wage-earners are protected by insurance against accidents and occupational diseases and can draw on a Pension Fund.

Education

Education is free. French is the language of instruction in the secondary schools and Kirundi in primary schools, with French as a second language. In 1968-69 there were 181,530 pupils in primary schools and 3,652 in secondary. There is a university with three faculties at Bujumbura.

Tourism

Visas are not required to visit Burundi by citizens of Tanzania and Uganda.

Sport

Sport is very popular, the chief sport being football.

CAMBODIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Kingdom of Cambodia occupies part of the Indo-chinese peninsula in South-East Asia. It is bounded by Thailand and Laos to the north, by the Republic of Viet-Nam to the east and by the Gulf of Siam to the south. The climate is tropical. The heaviest rainfall occurs in September. The temperature ranges from 68° to 97°F (20° to 36°C), the average at Phnom-Penh being 81°F (27°C). The Khmer language is the official language spoken by all except the Vietnamese and Chinese minorities. French is the second language. The official religion is Theravada Buddhism. There are about 55,000 Roman Catholics. The flag consists of three horizontal stripes, blue, red, blue, with a white pagoda, surmounted by three towers, in the centre of the red stripe. The capital is Phnom-Penh.

Recent History

Formerly a French protectorate, in 1949 Cambodia was recognized by France as an independent state within the French Union. Following civil war against communist guerrilla bands of the Viet-Minh, the French and Viet-Minh forces agreed to withdraw from Cambodia under the Geneva Agreement of 1954. France granted complete independence to Cambodia in 1953. Prince Sihanouk's government maintained a policy of neutrality, though it became critical of the United States' role in Asia. Since 1964 an increasing proportion of the country has been occupied by Communist forces engaged in the Viet-Nam war. In March 1970 the Prince was overthrown by a coup whilst visiting Moscow. The new government, largely composed of members of the former ministry, pledged itself to the rapid removal of foreign Communist forces, while Prince Sihanouk organized a government in exile.

Government

Under Prince Sihanouk Cambodia was a constitutional monarchy with two Houses of Parliament. By early April 1970 the new regime had not formally abolished the monarchy, but a civilian commoner had been sworn in as temporary Head of State pending elections for this post. Other changes in the structure of government are expected, including a more important role for the National Assembly, which unanimously approved the new government.

Defence

The armed forces comprise about 33,000 men. About 1,000 serve in the air force, 1,300 in the navy, and the remainder in the army. French, American, and some Russian equipment is used. Cambodia is one of the Protocol States of the South East Asia Treaty Organization (SEATO).

Economic Affairs

The economy is based on agriculture and fishing. Rice is the staple food crop and principal export; rice, together with rubber, maize and pepper constitute 92 per cent of exports. Industrial development is concentrated on small-scale,

import-substituting enterprises, e.g. textiles, plywood, paper, cement, glass, sugar. Cambodia has received a limited amount of aid in these enterprises from China and other Communist countries, and additionally receives development aid from France, West Germany, Japan and Australia. Under French sponsorship an oil refinery and a truck assembly plant have been constructed at Sihanoukville. Electricity generation has been increased substantially. Foreign trade, insurance and banking were re-organized on centralized lines in 1964. The new government announced that it would welcome American economic aid, in contrast to the Sihanouk government, which refused it after 1963.

Transport and Communications

A railway of 385 km. links Phnom-Penh with Thailand's border at Poipet via Battambang. Another (270 km.), links Phnom-Penh with Sihanoukville. The port of Sihanoukville on the Gulf of Siam was opened in 1960. The port is linked by road to Phnom-Penh; Sihanoukville is to be a "free zone". The Mekong river and the waters of the Tonlé-Sap (*Great Lake*) provide the main inland waterways and are extensively used.

Social Welfare

Six per cent of budgetary expenses go to public health services, and there are over 600 hospitals and dispensaries. There is a system of unemployment insurance for industrial workers.

Education

Education in Cambodia has traditionally been in the hands of Buddhist monks (bonzes), but state facilities are expanding quickly. In 1967-68 there were 934,000 primary school students and 99,500 secondary students. Primary education commences at six years of age and continues for six years. There are two universities at Phnom-Penh and twelve other institutions of higher education.

Tourism

Cambodia's principal attraction are the many monuments of the great Khmer Empire (9th to 14th century A.D.). The temple complex of Angkor Vat, decorated with scenes from Hindu legends and the royal court, is one of the architectural wonders of the world. Many festivals of music and dance are held in villages throughout Cambodia. The Royal Ballet is famed for its interpretations of ancient epics.

Visas are required by all visitors.

Sport

There is little organized sport. Cock-fighting and cricket-fighting are popular.

THE CONSTITUTION

The existing Constitution of Cambodia was promulgated on 6 May 1947 by H.M. King Norodom Sihanouk. Under this constitution Cambodia is a constitutional Monarchy. His Majesty King Norodom Suramarit, who ascended the throne on 3 March 1955 on the abdication of his son H.R.H. Prince Norodom Sihanouk, died April 1960. The Constitution was immediately modified by the National Assembly to allow a regency council to be set up under the Presidency of Prince Sisowath Monireth. In June 1960 Prince Norodom Sihanouk was confirmed as Head of State until such time as a new sovereign could be appointed.

The Sovereign

Under the Constitution the throne of Cambodia is the heritage of the male descendants of King Ang Duong. The King designates his successor in consultation with the "Crown Council" which is composed of the President of the Council of the Royal Family, the President of the National Assembly, the President of the Council of the Kingdom, the President of the Council of Ministers, the two Chief Priests of the Buddhist Religious Sects and the President of the High Court of Justice.

The King is the Supreme authority whose person is inviolable and sacred. He rules through the Ministers responsible to the National Assembly. He is the Supreme Commander of the armies. The King nominates the Prime Minister and convenes the National Assembly and the Council of the Kingdom. He has the right of granting pardon. All treaties and conventions are signed by the Government or by the Government in the name of the King. Certain of them have to be ratified by the National Assembly.

National Assembly

The Legislative powers are exercised by a National Assembly of 82 members. The Assembly is elected by

universal suffrage. All citizens over 20 years of age have a right to vote and those who are 25 or over are eligible to contest elections. The Assembly passes laws and controls the Government.

The Council of the Kingdom

The Upper House consists of 28 members. All its members are required to be over 40 years of age. Two of its members are nominated by the King and two are elected by the National Assembly (from outside its own members). The remaining members are elected on a limited suffrage by Regional Assemblies and Professions.

The National Assembly and Council of the Kingdom are elected for a period of four years.

Executive

The Executive power is vested in the Council of Ministers which is composed of a maximum of 16 Ministers and Secretaries of State. The President of the Council is designated by the King after consultation. The Cabinet is responsible to the National Assembly and resigns if a vote of censure is passed by the Assembly. In the case of the dissolution of the National Assembly, the President of the Assembly automatically assumes the posts of President of the Council of Ministers and Minister of the Interior, and the remainder of the Cabinet continues to function until the new Government is elected.

Judiciary

The Judicial functions are exercised by a High Court of Justice consisting of five members. The organization of the Judicature is regulated by a Special Law.

CAMEROON

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Federation of Cameroon (East and West Cameroon) lies on the west coast of Africa with Nigeria to the north, Chad and the Central African Republic to the east and Congo (Brazzaville) and Gabon to the south. The climate is hot and humid with average temperatures of 80°F (26°C). It is hotter and drier inland. The official languages are French and English. In religion most Cameroonians follow traditional beliefs. Thirty-three per cent are Christians, roughly divided between Roman Catholics and Protestants, and about 560,000 are Muslims. The flag consists of a vertical tricolour of green, red and yellow with two yellow stars in the green stripe. The Federal capital and the capital of East Cameroon is Yaoundé. The capital of West Cameroon is Buea.

Recent History

The Federal Republic of Cameroon was created on 1st October 1961 by the union of the Republic of Cameroon with the former British-administered Trust Territory of Southern Cameroons.

East Cameroon, once a League of Nations Mandate and later a United Nations Trusteeship Territory, was under French administration until it became independent as the Republic of Cameroon on 1st January 1960. Southern Cameroons opted to join the Republic in February 1961. President Ahidjo was re-elected in March 1970. Beginning in 1962 the political, economic and social structures of the two parts of the Federation were gradually merged, culminating in 1966 in the introduction of common customs tariffs in line with those of the UDEAC, and in the unification of the governing parties of the two states into a single party.

Government

Cameroon has a central Government and two Provincial Governments. The Federal President and Vice-President are elected by direct universal suffrage. The President appoints the Cabinet and the Federal Assembly is elected by direct universal suffrage.

The two Provinces of East and West Cameroon each have their own Prime Minister and Cabinet and Legislative Assembly. West Cameroon retains its Advisory House of Chiefs.

Defence

Cameroon has agreements with France, whereby France will assist her in training and equipping her forces.

Economic Affairs

Cameroon has one of the highest incomes per head in tropical Africa, though the basis of its economy is still essentially agricultural. The most important cash crops are cocoa, coffee, rubber and palm oil. Bananas have declined in importance in export earnings over the last few years, and many plantations have been converted by the Cameroon Development Corporation to more profitable crops. Cotton production is expanding rapidly under the 1966-71 Five-Year Plan and cotton is now the third most important agricultural export after cocoa and coffee.

The industrial sector in East Cameroon, like the plantations in West Cameroon, was well-developed before

independence and has grown steadily since, based on aluminium (particularly at Edea) and chemicals, especially rare gases. Douala is the main commercial centre and port.

Cameroon is an associate member of the EEC; and a member of OCAM and UDEAC.

Transport and Communications

East Cameroon's routes are linked with those of the ex-French Equatorial states while West Cameroon is linked to Nigeria. The main rail links are between Douala and Yaoundé, and Yaoundé and Belabo. An extension from Belabo to Ngaoundéré is under construction as part of the trans-Cameroon railway project and the line may eventually run into Chad. A major road also links the two regions. British and French shipping lines call at Douala and Victoria. There are internal and international air services.

Social Welfare

The Government and Christian Missions maintain hospitals and medical centres but there are no welfare services covering the whole population.

Education

Education is provided by the Government and Missionary societies and is free. A Federal University was established in 1962. Some students go to France, U.S.A., U.S.S.R. and the United Kingdom for higher education.

Tourism

Game reserves have been established. Special tours of East Cameroon are being organized as part of a campaign to increase tourist trade.

Sport

Football is popular everywhere but there is little organized sport.

Public Holidays

1970: May 1 (Labour Day), May 7 (Ascension), May 16, May 18 (Whitsun), August 15 (Assumption), October 1 (Re-unification Day), October 31 (Ramadan), November 1 (All Saints'), December 10 (Universal Rights Day), December 25 (Christmas).

1971: January 1 (New Year and Independence Day), February 6 (Id el Adha), April 12 (Easter Monday).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rates

The principal unit of currency is the Franc de la Communauté Financière Africaine (CFA), which is divided into 100 cents.

Coins: 1, 2, 10, 25, 50, 100 Francs CFA.

Notes: 50, 100, 500, 1,000, 5,000, 10,000 Francs CFA.

Exchange rate: 666 Francs CFA = £1 sterling

277 Francs CFA = \$1 U.S.

THE CONSTITUTION

The French part of Cameroon (now East Cameroon) gained autonomy in 1958 and independence on January 1st, 1960. On March 1st, 1960, a republic was proclaimed. The Federal Republic of Cameroon came into being on October 1st, 1961, when the Republic of Cameroon united with the former British Trust Territory of Southern Cameroons, the Northern Cameroons, also under British administration, having opted in the plebiscite of February 1961 for union with Nigeria. East Cameroon and West Cameroon (the former Southern Cameroons) retain their own administration and legal systems, but in most other spheres integration between the two parts of the Federation has taken place. French and English are the official languages and Yaoundé is the capital.

FEDERAL GOVERNMENT

The State is democratic, lay and social and the right of secession is excluded. The President and Vice-President are elected by universal, secret, adult suffrage, for a term of five years and may be re-elected. Neither may hold any other position but the President and Vice-President of the Federation were the President of the former Republic of Cameroon and the Prime Minister of Southern Cameroon, respectively. Following elections in March 1965 the Vice-President resigned his post of Prime Minister of West Cameroon.

Executive power is vested in the President, who appoints a Cabinet which is responsible to him. The Federal Ministers may also hold office in the State Cabinets. The

Federal Legislature has 50 members, of which 40 are from East and 10 from West Cameroon, elected by universal suffrage. The Assembly will hold two ordinary sessions a year, with emergency sessions at the request of the President or two-thirds of the members. Its ordinary life is five years but it may extend or shorten this period on the initiative of the President. Legislation may be initiated by the President or deputies.

The Federal Government is responsible for defence, foreign affairs, the judiciary and Federal Court, external economic relations, nationality, overall economic development, currency, and certain federal services such as transport, communications and higher education. Where there is a discrepancy between English and French custom the transference will take place gradually. A Commission, appointed by the President, must be consulted by the State Government before legislating on such matters.

STATE GOVERNMENTS

The State Governments have a single State Legislative Assembly, elected by universal suffrage. The East Cameroon Assembly has 100 members and that of West Cameroon 37 members. The State Premiers are nominated by the President of the Republic and are each assisted by a Cabinet. The life of the Assemblies is the same as that of the National Federal Assembly.

In West Cameroon the House of Chiefs will remain as an advisory body.

PARLIAMENT

NATIONAL FEDERAL ASSEMBLY

President: MARCEL MARIGOH MBOUA.

First Vice-President: LIFIO CARR.

ELECTION, APRIL 26th, 1964

The 40 seats for East Cameroon were all won by the Union Camerounaise, and the 10 seats for West Cameroon were all won by the Kamerun National Democratic Party. On September 1st, 1966, the two parties united, together with other parties, to form the Union Nationale Camerounaise (*see* Political Party below).

The National Assembly in October 1968 extended its mandate beyond the five-year term in order that legislative elections and state legislative elections could be held at the same time in June 1970, thus economizing on election expenses.

EAST CAMEROON LEGISLATIVE ASSEMBLY

President: LOUIS KEMAYOU HAPPI.

ELECTION, JUNE 6TH, 1965

Union Camerounaise (later merged into Union Nationale Camerounaise) won all 100 seats without opposition, securing 99.92 per cent of the votes cast.

WEST CAMEROON LEGISLATIVE ASSEMBLY

Speaker: W. EFFIOM.

ELECTIONS, DECEMBER 31ST, 1967

Union Nationale Camerounaise, the only party to present candidates, won all 37 seats.

There is also an Assembly of Chiefs, with 20 members, whose functions are purely consultative.

POLITICAL PARTY

Union Nationale Camerounaise (U.N.C.): Yaoundé; f. 1966 by merger of the governing party of each state (*Union Camerounaise* and the *Kamerun National Democratic Party*), two opposition parties in East Cameroon (the *Parti Démocratique Camerounais* and the *Cameroon Socialists*), and the two opposition parties in West Cameroon (the *Cameroon Union Congress* and the *Cameroon People's National Congress*, which had

already agreed in August 1965 to co-operate with the ruling K.N.D.P. in West Cameroon); Chair. J. N. FONCHA; publ. *l'Unité* (weekly).

The U.N.C. Charter, outlining the party's internal and external policies, was published in April, 1969. It supports efforts towards the liberation and unification of Africa; it respects a democratic system of government within Cameroon; and it lays down that economic and social development should be achieved in Cameroon through encouraging private initiative while reserving for the state a determining and organizing rôle.

JUDICIAL SYSTEM

FEDERAL

Federal High Court: Yaoundé; can hear actions against the President, Vice-President, or Ministers; it can decide on the admissibility of any proposed law. When the Court sits to decide the admissibility of laws, it will have in addition to the Judges, an equal number of members chosen by the President.

CANADA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Canada occupies the northern part of North America (except Alaska) and is the second largest country in the world. The border with the U.S.A. follows the upper St. Lawrence Seaway and the Great Lakes, continuing west along the 49th parallel. The climate is an extreme one, particularly inland. Winter temperatures drop well below freezing with a summer average of about 65°F (18°C). Rain-fall varies from moderate to light and there are heavy falls of snow. The two official languages are English and French, about 30 per cent speaking French. There are 230,900 Indians and 15,000 Eskimos. Forty-six per cent of the people are Roman Catholics. The largest Protestant churches are the United Church of Canada (20 per cent) and the Anglicans (13 per cent) but almost every Christian denomination is represented. The flag, which was introduced in 1964, consists of a red maple leaf on a white field, flanked by red panels. The capital is Ottawa.

Recent History

Since the war Canada has played an increasing part in international affairs by co-operating closely with the U.S.A. and the Commonwealth and through the United Nations, the North Atlantic Treaty Organisation (NATO), the Organisation for Economic Co-operation and Development (OECD) and other bodies. Canada is not a member of the Organization of American States. In 1969 Canada reaffirmed her Pacific interests and opened negotiations for the diplomatic recognition of the People's Republic of China. After many years of Liberal rule a Conservative administration was returned in 1957 and continued in power under Mr. Diefenbaker until April 1963, when a General Election was held and a minority Liberal Government under Mr. Lester Pearson took office. In 1968 Mr. Pearson retired and his successor Mr. Pierre Trudeau won an electoral majority for the Liberals in June 1968. During recent years there has been pressure from some French-speaking Canadians for the separation of Quebec from the other provinces of the Dominion, and Quebec maintains her own cultural and educational links with France.

Government

Queen Elizabeth II, Queen of Canada, is the Head of State and is represented at Ottawa by a Governor-General. Parliament consists of the Queen, the Senate and the House of Commons. Senators are appointed on a regional basis until age of 75. Members of Parliament are elected by universal suffrage. Executive power lies with the Cabinet selected by the Prime Minister. Each of the ten provinces is headed by a Lieutenant-Governor and governed by a unicameral Legislative Assembly, from which the provincial premiers and cabinets are chosen. Two Territories, Yukon and the Northwest, are represented by one member in the Federal House of Commons and locally by a Commissioner.

Defence

Canada co-operates with U.S.A. in the defence of North America, sends forces to NATO's Atlantic and European

sectors, and takes part in UN peace-keeping in the Middle East. Unification of the services as the Canadian Armed Forces began in 1964 and was completed on January 31st, 1968. In 1969 a planned and phased reduction in Canada's NATO forces was announced which would cut its military contribution by more than a half and eliminate nuclear strike weapons. Total strength of the Canadian Armed Forces was also cut from 98,000 to 82,000.

Economic Affairs

More than 3.1 million emigrants have settled in Canada since the war. It is now one of the world's leading industrial countries and the traditional prairie farming has become intensively mechanized. Automobile parts head the list of exports by value. In recent years huge shipments of wheat have been sold to the U.S.S.R. and People's China, but approximately 70 per cent of total trade is with the U.S.A. Industry is heavily dependent on foreign investment, 80 per cent of it American. It is estimated that over 50 per cent of Canada's 100 largest manufacturing companies are wholly-owned or effectively controlled by foreign corporations. Other valuable primary industries are forestry, fishing, and fur production. Canada is the world's second largest producer of elemental sulphur and is rich in many other minerals, notably silver, nickel and zinc, of which she is the world's largest producer, iron, copper, uranium, cobalt, asbestos and gold. There are considerable oil and gas reserves in Alberta.

Transport and Communications

Canada's rail, river and canal system is being increasingly supplemented by roads, air services and pipelines. In April 1959 the St. Lawrence Seaway was opened to allow ocean-going ships to reach the Great Lakes; the Trans-Canadian Highway was completed in 1962 and well over 60,000 miles of gas and oil pipelines have been built since 1950. Commercial air carriers log almost 700,000 flights annually.

Social Welfare

The Federal Government administers family allowances, unemployment insurance and War Veterans' and Old Age pensions. Other services are provided by the provinces, the range varying from province to province. About 27 per cent of the Federal Budget is devoted to Health and Welfare. The Canada Pension Plan, introduced in 1966, and its Quebec counterpart (the Quebec Pension Plan) provide contributory retirement, disability and survivors' pensions for the majority of workers, based on past earnings. A Federal Medicare insurance programme went into operation on July 1st, 1968, and seven of the provinces participate in this scheme. The federal-provincial hospital insurance programme covers over 99 per cent of the insurable population of Canada.

Education

Education is a provincial matter and the period of compulsory education varies. French-speaking students are entitled by law to instruction in French. Primary education

CANADA—(INTRODUCTORY SURVEY, STATISTICAL SURVEY)

is from 6-7 years to 13-14 years, followed by 3-5 years at secondary or high school. There are 60 degree-giving universities and 340 affiliated or independent colleges.

Tourism

Canada offers a wide range of outdoor tourist attractions: fishing, hunting, riding, canoeing, etc., in the great National Parks. Winter sports carnivals are held in many centres and Indian and Prairie gatherings are popular, a famous one being the Calgary Stampede. Most visitors are from the U.S.A. (about 40 million a year) and annual expenditure by tourists is estimated at Canadian \$1,300 million.

Visas are not required to visit Canada by nationals of Austria, Belgium, Denmark, Finland, France, German Federal Republic, Greece, Iceland, Ireland, Italy, Japan, Liechtenstein, Luxembourg, Netherlands, Norway, Portugal, South Africa, Spain, Sweden, Switzerland, Turkey, United Kingdom and Commonwealth and U.S.A.

Sport

The national sports are Canadian Football and Ice

Hockey. Baseball, tennis, athletics and winter and water sports are all popular and soccer is increasingly played particularly in Southern Ontario.

Weights and Measures

THE CONSTITUTION

CONSTITUTIONAL development has been mainly based upon four important acts of the British Parliament: the Quebec Act of 1774, the Constitutional Act of 1791, the Act of Union of 1840, and the British North America Act of 1867. The first is chiefly important as it established the French civil law throughout the then province of Quebec and guaranteed the free exercise of Roman Catholicism. The second is noteworthy for the division of the province into the French-speaking province of Lower Canada and the English-speaking province of Upper Canada, and for the concession of representative government through an elective Legislative Assembly which, however, had no control over the executive government except in so far as it could refuse to vote taxes (the non-tax revenue of the province was outside of its control). The Act of Union (Section 45) mentions the appointment by Her Majesty of the Executive Council, but does not refer to the responsibility of the Council. It can be stated that responsible government has existed in Canada by constitutional practice and precedent. It was recognised in the instructions which the Colonial Secretary of State transmitted to the Governors.

Responsible government appeared in Canada in 1847, the year when Lord Elgin was appointed Governor-General. On March 11th, 1848, the reorganization of the Baldwin-Lafontaine ministry inaugurated the era of free government in Canada.

The fourth act separated the two Canadas from their existing legislative union to make them provinces, each administering its own local affairs, in a wider confederation, which within a comparatively short period so extended its boundaries as to take in the whole of British North America, except Newfoundland and Labrador.

The British North America Act 1867 provides that the Constitution of the Dominion shall be "similar in principle to that of the United Kingdom"; that the executive authority shall be vested in the Sovereign of Great Britain and Ireland, and carried on in his name by a Governor-General and Privy Council; and that the legislative power shall be exercised by a Parliament of two Houses, called the "Senate", and the "House of Commons".

The present position of Canada in the British Commonwealth of Nations was defined at the Imperial Conference of 1926: "The self-governing Dominions are autonomous Communities within the British Empire, equal in status, though united by a common allegiance to the Crown."

The Imperial Conference of 1930 was noteworthy, as regards constitutional development, in four respects:

1. Agreement was reached as to the principles that should be followed in the constitution to judicial tribunals for the solution of disputes that might arise between Members of the British Commonwealth.

2. The recommendations of the Conference on the operation of Dominion legislation (1929) were approved. This approval involved conventional recognition that the powers of reservation and disallowance in respect to Dominion legislation were (apart from one specific and temporary exception) obsolete, and also the recommendation of clauses to be incorporated in the Act of Parliament known as The Statute of Westminster. These clauses were designed to ensure that the Parliaments of the Dominions should have full power to enact laws having extra-territorial operation; that within each Dominion the laws therein enacted should be supreme and should not be subordinated to legislation enacted by the Parliament at Westminster; and that the Dominions in respect to merchant shipping and admiralty jurisdiction should have complete and unrestricted legislative power.

3. The Conference recommended to the Governments a draft British Commonwealth Merchant Shipping Agreement.

4. Certain detailed problems relating to inter-Imperial relations were considered and recommendations were made for their solution.

The Statute of Westminster received the Royal Assent in December 1931. In its application to Canada the Statute emancipates the Legislatures of the provinces as well as the Dominion Parliament from the operation of the Colonial Laws Validity Act. A special section was, however, included providing that the Statute should not apply to the repeal, amendment or alteration of the British

North America Acts of 1867 to 1930, and also preventing the Dominions and provinces, in the exercise of their enlarged legislative powers, from trenching upon provincial and Dominion fields of legislative power respectively. Numerous attempts to devise amendment procedures within Canada without reference to Westminster have been made without success, and Amendment of the British North America Acts 1867 to 1962 still remains a procedural problem awaiting solution.

The Government

The national government works itself out through three main agencies. There is **Parliament** (consisting of the Queen as represented by the Governor-General, the Senate and the House of Commons) which makes the laws; the **Executive** (the Cabinet or Ministry) which applies the laws; and the **Judiciary** which interprets the laws.

Particular features of the British system of government are the close relation which exists between the Executive and Legislative branches, and the doctrine of Cabinet responsibility which has become crystallised in the course of time. The members of the Cabinet, or executive committee, are chosen from the political party commanding a majority in the House of Commons. Each Minister or member of the Cabinet is usually responsible for the administration of a department, although there may be Ministers without portfolio whose experience and counsel are drawn upon to strengthen the Cabinet, but who are not at the head of departments.

The second characteristic of the British system, the collective responsibility of the Cabinet, is very important. While each Minister is primarily responsible for the administration of his own particular department, that responsibility is shared, before Parliament and the country, by all his colleagues. Thus the Government of the day, not any particular Minister, is answerable for and must continue to exist, or must fall, on the stand taken by a Minister when acting in his official capacity.

Meetings of the Cabinet are presided over by the President of the Privy Council, but all Ministers, including the Prime Minister and the President of the Privy Council, meet as equals and there is no precedence in Council. From the Cabinet signed orders and recommendations go to the Governor-General for his approval, and it is in this way that the Crown acts only on the advice of its responsible Ministers. The Cabinet takes the responsibility for its advice being in accordance with the will of Parliament and is held strictly accountable.

The Federal Parliament

Parliament must meet at least once a year, so that twelve months do not elapse between the last meeting in one session and the first meeting in the next. The duration of Parliament may not be longer than five years. Senators (a maximum of 102 in number) are appointed until age 75 by the Governor-General in Council. They must be at least 30 years of age, British subjects, residents of the province they represent, and in possession of \$4,000 over and above their liabilities. Members of the House of Commons are elected by universal adult suffrage for the duration of Parliament. Canadian Indians and Eskimos may vote in Federal elections on the same basis as other citizens.

Under the British North America Act, which is the basis of the Constitution, the Federal Parliament has exclusive legislative authority in all matters relating to public debt and property; regulation of trade and commerce; raising of money by any mode of taxation; borrowing of money on the public credit; postal service; census and statistics; militia, military and naval service and defence; fixing and providing for salaries and allowances of the officers of the

Government; beacons, buoys and lighthouses; navigation and shipping; quarantine and the establishment and maintenance of marine hospitals; sea-coast and inland fisheries; ferries on an international or interprovincial frontier; currency and coinage; banking, incorporation of banks, and issue of paper money; savings banks; weights and measures; bills of exchange and promissory notes; interest; legal tender; bankruptcy and insolvency; patents of invention and discovery; copyrights; Indians and lands reserved for Indians; naturalisation and aliens; marriage and divorce; the criminal laws, except the constitution of courts of criminal jurisdiction but including the procedure in criminal matters; the establishment, maintenance and management of penitentiaries; such classes of subjects as are expressly excepted in the enumeration of the classes of subjects exclusively assigned to the Legislatures of the provinces by the Act. Judicial interpretation and later amendment have, in certain cases, modified or clearly defined the respective powers of the Federal and Provincial Governments.

Provincial Government

In each of the ten Provinces (Newfoundland joined with Canada as the tenth province on April 1st, 1949) the Queen is represented by a Lieutenant-Governor, appointed by the Governor-General in Council, and governing with the advice and assistance of the Ministry or Executive Council, which is responsible to the Legislature and resigns office when it ceases to enjoy the confidence of that body. The Legislatures are unicameral, consisting of an elected Legislative Assembly.

The Legislature in each province may exclusively make laws in relation to: amendment of the constitution of the province, except as regards the Lieutenant-Governor; direct taxation within the province; borrowing of money on the credit of the province; establishment and tenure of provincial offices and appointment and payment of provincial officers; the management and sale of public lands belonging to the province and of the timber and wood thereon; the establishment, maintenance and management of public and reformatory prisons in and for the province; the establishment, maintenance and management of hospitals, asylums, charities and charitable institutions in and for the province, other than marine hospitals; municipal institutions in the province; shop, saloon, tavern, auctioneer and other licences issued for the raising of provincial or municipal revenue; local works and undertakings other than interprovincial or international lines of ships, railways, canals, telegraphs, etc., or works which, though wholly situated within one province are declared by the Federal Parliament to be for the general advantage either of Canada or of two or more provinces; the incorporation of companies with provincial objects; the solemnisation of marriage in the province; property and civil rights in the province; the administration of justice in the province, including the constitution, maintenance and organization of provincial courts both of civil and criminal jurisdiction, and including procedure in civil matters in these courts; the imposition of punishment by fine, penalty or imprisonment for enforcing any law of the province relating to any of the aforesaid subjects; generally all matters of a merely local or private nature in the province. Further, provincial Legislatures may exclusively make laws in relation to education, subject to the protection of religious minorities, who are to retain the privileges and rights enjoyed before Confederation.

Municipal Government

Under the British North America Act, the municipalities are the creations of the Provincial Governments. Their bases of organization and the extent of their authority vary in different provinces, but almost everywhere they have very considerable powers of local self-government.

THE PRESS

The Canadian press has a tradition of complete freedom from government restriction of any kind. Its function has not been officially defined, and the journalist has no major press legislation to contend with except the laws of libel, which he must observe closely.

The press suffers from heavy competition from U.S. newspapers and periodicals (particularly the latter), amongst which the Canadian editions of *Time* and *Reader's Digest* are prominent, accounting for 60 per cent of periodical revenue in Canada. To protect national publications from this competition, a law was passed in June 1965 which, by imposing a discriminatory tax on advertising, restricted to 25 per cent the foreign stake in ownership of Canadian newspapers and periodicals. However, *Time* and *Reader's Digest* were exempted; and the Bill also met much criticism as an infringement of press liberty.

Economic conditions have in recent years caused a growing concentration of ownership, resulting in the emergence of three principal newspaper groups, while the number of periodicals published has declined steadily over the past 25 years. The power of the groups is however relatively slight, the largest group containing papers with relatively small circulations. Furthermore group managements encourage a measure of independent editorial policy. The principal groups are:

The Thomson Group: (Pres. of Thomson Newspapers Ltd., Canada, and Thomson Newspapers Inc., U.S.A., KENNETH R. THOMSON) owns 40 newspapers of which 28, with a total circulation of 311,000, are dailies; 18 of these are in Ontario, the largest being *Sudbury Star* (31,000); the group also includes 74 papers in the United Kingdom, and 30 each in the U.S.A. and southern Africa.

The Southam Group: (Pres. ST. CLAIR BALFOUR) controls eight daily newspapers with a total circulation of 623,000, including the *Edmonton Journal*, *Hamilton Spectator*, *Vancouver Prince*, *Calgary Herald* and *Winnipeg Tribune*; also has holdings in radio stations.

Free Press Publications: (Pres. JOHN SIFTON) controls seven daily newspapers with a total circulation of 780,000, including the *Toronto Globe and Mail*, *Vancouver Sun*, *Winnipeg Free Press* and *Ottawa Journal*.

In addition to these groups the **Sifton** group (Pres. MICHAEL SIFTON) controls the *Regina Leader Post* (59,000) and *Saskatoon Star Phoenix* (50,000).

A feature of the Canadian press is its heavy reliance on advertisements as the main source of revenue.

There are one hundred and fifteen daily newspapers with a total circulation of 1,460,321 copies, of which the twelve largest dailies account for 50 per cent and the eleven French dailies for 18 per cent. The widest-circulating dailies include the *Toronto Daily Star* (377,000), *The Sun*, Vancouver (251,000), *The Globe and Mail*, Toronto (270,000), *Toronto Telegram* (241,000), *La Presse*, Montreal (210,000), *The Montreal Star* (194,000), *The Gazette*, Montreal (141,000) and *The Edmonton Journal* (142,000).

There is no truly national press, the wide dispersion of the population and the constitutional emphasis on provincial control of local affairs contributing to the development of a strong and authoritative local press. Though the *Montreal Gazette* and *Toronto Globe and Mail* are distributed by air to all large cities, their attitudes and interests remain regionally oriented. Other influential dailies include *La Presse*, Montreal and *Le Soleil*, Quebec. Fifteen urban centres have two or more dailies—Montreal 7 (4 are French), Quebec 4 (3), Toronto 3, Ottawa 3 (1), Vancouver

and Winnipeg 2 each. The resultant thorough treatment of local affairs is not made at the expense of international news; however, a considerable proportion of the contents of the smaller Canadian papers is from U.S. or U.K. syndicated sources, and news which is not local has a strong U.S. flavour. Most papers balance serious and popular material about equally.

There are 826 weekly newspapers, of which one-fifth are French, and a further 70 cater for other language groups. The weekly press has great influence on national and local affairs, and plays an important role in remote places where no daily press exists. The *Toronto Financial Post*, containing national financial news, has a distribution in most large urban centres. Among periodicals, the only one which can claim to be national in its attitudes and readership is the fortnightly *Maclean's Magazine*, which also has a French edition. Other important periodicals include *Chatelaine* (women's interests) and *Star Weekly* and *Week-end*, which combine entertainment with serious appeal, and local magazines such as *Atlantic Advocate* and the heavier *Montrealer*.

RADIO AND TELEVISION

Canadian broadcasting is a combination of public and private enterprise which provides radio and television services for almost all of the country's population. All stations and networks are subject to the regulations of the Canadian Radio-Television Commission, but are entitled to freedom of expression and enjoy varying degrees of autonomy. Most privately-owned television stations and many of the private radio stations are affiliated with the Canadian Broadcasting Corporation, and help to distribute national broadcasting services over CBC networks. Of the unaffiliated television stations, eleven form the CTV Television Network Ltd., which now reaches over 63 per cent of the population.

The source material for local stations comes from their own and network productions, wire services, free-lancers and production companies. An Act of Parliament passed in 1968 stipulates that a national broadcasting service be provided which is predominantly Canadian in content and character.

Private stations broadcast over 2,500,000 hours annually, with some stations on the air 24 hours a day, 365 days a year. In Canada there are 308 AM stations, 83 FM stations, 352 television stations, 22 shortwave stations, 221 Low Power Relay transmitters, and 274 Cable television systems.

Canadian Radio-Television Commission: Head Office 100 Metcalfe St., Ottawa 4; Chair. PIERRE JUNEAU; Sec. F. K. FOSTER; Vice-Chair. HARRY J. BOYLE; Full-time mems. Mrs. PAT PEARCE, HAROLD DORNAN, REAL THERRIEN; ten part-time mems.

The CRTC's mandate to supervise and regulate the Canadian broadcasting system is enabled by provisions of the Broadcasting Act (1968) which give it the authority and direction to license all broadcasting undertakings, enact regulations, research any and all aspects of broadcasting and develop and formulate policy for the system.

Canadian Broadcasting Corporation: Head Office 1500 Bronson Ave., Ottawa (P.O.B. 478); Pres. Dr. GEORGE F. DAVIDSON; Excc. Vice-Pres. Dr. LAURENT A. PICARD.

The Corporation consists of a president and fourteen other directors appointed by the Governor-in-Council. The Executive Vice-President is appointed by the Corporation on the recommendation of the President and with the approval of the Governor-in-Council.

The Broadcasting Act, 1968, continued CBC as a Crown Corporation for the purpose of operating the national

broadcasting service. CBC finances come from annual votes by Parliament, supplemented by commercial advertising revenue.

RADIO

The CBC operates national AM networks in English and French, an FM radio service to five major centres, and a multilingual Northern Service broadcasting on both medium and shortwave. In 1969 outlets for the national service totalled more than 350, made up of CBC-owned radio stations and relay transmitters, and broadcasts reached 98.9 per cent of the Canadian population.

The CBC also operates an International Service. It transmits by shortwave in eleven languages to Europe, Africa, Australia, North America, Latin America and the Caribbean area, and distributes music and spoken word transcriptions in English, French, Spanish and Portuguese. The CBC Armed Forces Service, in co-operation with the Department of National Defence, provides recorded and shortwave radio programmes to Canadian military bases abroad.

TELEVISION

The CBC operates two TV networks, one English and one French. The CBC national service is provided to a total of some 300 outlets, made up of CBC-owned stations and relay transmitters and privately-owned affiliated stations. The main production centre for CBC English network programmes is in Toronto and for CBC French programmes in Montreal. Regional production centres are located at several points across the country. As of 1969, CBC television service was available to 96.9 per cent of the Canadian population. Most evening programming was in colour, and about 10 per cent of Canadian households had colour sets. CBC is a member of such organizations as the Communauté des télévisions francophones, the Commonwealth Broadcasting Conference, the European Broadcasting Union and the Asian Broadcasting Union. It is active in international programme exchange and sales and has helped various foreign and Commonwealth countries in the development of their broadcasting systems. CBC maintains offices in London, Paris, Rome, New York and Washington as well as news bureaus in Moscow and the Far East.

C.T.V. Television Network: Baton Broadcasting, Box 9, Toronto 375, Ont.; Vice-Pres. L. NICHOLS.

The Network is privately-owned and has provided a second television service in Halifax, Montreal, Ottawa, Toronto, Winnipeg, Edmonton, Calgary, Kitchener, Moose Jaw and Vancouver since October 1961.

ROADS

Provincial Governments are responsible for roads within their boundaries. At the end of 1963 the mileage of all provincial, federal and municipal roads was 441,418, of which 303,304 miles were surfaced and 138,114 miles were earth roads.

The Trans-Canadian Highway, extending from St. John's, Newfoundland, to Victoria, British Columbia, was officially opened on September 3rd, 1962.

INLAND WATERWAYS

The St. Lawrence River and the Great Lakes provide Canada and the United States with a system of inland waterways stretching 2,300 miles across the continent. There is a 35 foot navigation channel from Montreal to the sea and a 27 foot channel from Montreal to Lake Erie. A channel only 14 feet deep existed between Montreal and Prescott (approx. 100 miles). The St. Lawrence Seaway project was initiated partly with a view to providing a deep waterway and partly to satisfy the demand for more electric power. Power development has been undertaken by the Provinces of Quebec and Ontario, and by New York State. The navigation facilities and conditions are within the jurisdiction of the federal governments of the United States and Canada.

CENTRAL AFRICAN REPUBLIC

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Central African Republic lies in the heart of equatorial Africa and is bounded by Chad to the north, the Sudan to the east, the Congo Republics to the south and Cameroon to the west. Climate is tropical with an average temperature of 79°F (26°C) and heavy rains in the south-western forest areas. The national language is Sangho, but French is the official language. Many of the population hold animist beliefs, but nearly half are Christians. The flag consists of horizontal bands of blue, white, green and yellow, divided vertically by a red band, with a yellow star in the top left-hand corner. The capital is Bangui.

Recent History

Formerly the territory of Oubangui Chari within French Equatorial Africa, the Republic took its present name when it achieved self-government in 1958. Full independence was attained in 1960. The leading figure in the campaign for self-government and the first President, Bartholomy Boganda, was killed in an air accident in 1959 and was succeeded by Dr. Abel Goumba, then by David Dacko who was overthrown by a military *coup d'état* at the end of 1965. At the beginning of January 1966 Colonel Bokassa formed a new government, rescinded the Constitution and dissolved the National Assembly. Relations between the C.A.R. and Congo (Kinshasa) and Chad were normalized during 1969 after tension had arisen over the C.A.R.'s withdrawal from the UEAC to rejoin the UDEAC. The C.A.R. is also a member of the United Nations, the French Community, and an associate member of the European Economic Community.

Government

The Constitution was abrogated in January 1966 and a new one is to be drawn up. Meanwhile the President has full competence to act in all affairs of state.

Defence

A small National Army was formed in 1961. Military service is compulsory for adult males.

Economic Affairs

The economy is predominantly agricultural, the most important cash crops being cotton and coffee. Diamonds account for over half the country's export earnings and by the end of the Four-Year Plan in 1970 the C.A.R. should be an important producer of uranium. The plan is also intended to improve production in textiles, timber, building trade, food and consumer goods. Bangui has been the headquarters of the UDEAC since 1966.

Transport and Communications

The C.A.R. is 900 miles from the sea but roads (5,000 km. of national roads, 4,000 km. of regional roads and

10,000 km. of rural roads) radiate east, north and west to Sudan, Chad and Cameroon respectively. There are however no railways and the chief artery of transport is the Oubangui river which flows into the Congo and thereby provides an outlet from Bangui to Brazzaville and thence by rail to the port of Pointe Noire. There are steamer services and much freight traffic from Bangui to Brazzaville. Numerous airfields are in use and four airlines provide internal and international services. The international airport is at Mpoko, near Bangui. Feasibility studies are in progress on the possibility of connecting Bangui, by road or rail, to the trans-Cameroon line to Douala.

Social Welfare

An Employment Code guarantees a minimum wage for 60,000 employees and provides for employment accident benefits. There are 36 prefectorial hospitals, 36 maternity hospitals, 108 welfare centres and 200 first aid centres.

Education

Schools are divided into primary, secondary and technical categories. A university is planned for October 1970. In the meantime 650 students are pursuing courses of higher education abroad, 250 of them in France.

Tourism

The main tourist attractions are the waterfalls, the forests and many varieties of wild animals. There is excellent hunting and also opportunities for fishing.

Public Holidays

1970: May 1 (May Day), May 7 (Ascension), May 14 (Day of First National Government), May 18 (Whit Monday), August 13 (Independence Day), August 15 (Assumption), November 1 (All Saints'), December 1 (National Day), December 25 (Christmas).

1971: January 1 (New Year), March 29 (Death of Boganda), April 9-12 (Easter).

Weights and Measures

The Metric System is officially in force.

Currency and Exchange Rate

There is a common currency with the Congo (Brazzaville), Gabon and Chad. The currency unit is the Franc of the African Financial Community (Franc CFA).

Coins: 1, 2, 5, 10, 25, 50 Francs CFA.

Notes: 5, 10, 25, 50, 100, 500, 1,000, 5,000, 10,000 Francs CFA.

Exchange rate: 666 Francs CFA = £1 sterling.

CEYLON

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Ceylon is an island 50 miles east of the southern tip of India. The climate is tropical, average temperature 80°F (26°C); the south-west around Colombo receives heavy monsoon rains. The official language, Sinhalese, is spoken by about 70 per cent of the people; Tamil and English are widely spoken. More than 60 per cent of the population are Buddhist, about 20 per cent are Tamil-speaking Hindu and there are important Christian (mostly Roman Catholic) and Muslim minorities. The flag is dark crimson with a yellow border, in each corner of which a Bo leaf is depicted; within the border are two vertical stripes of green and yellow and in the centre a yellow lion. The capital is Colombo.

Recent History

In 1948 Ceylon attained independence while remaining a member of the British Commonwealth. In 1959 Solomon Bandaranaike, the Prime Minister, was assassinated and in 1960 (after Governments led by Mr. Dahanayake and Mr. Senanayake) his widow took over the post until March 1965. In 1961 legislation to introduce Sinhalese as the only official language caused widespread civil disturbances, especially in the north, and in 1966 legislation was passed enabling Tamil to be used for official purposes in Tamil-speaking areas. A compromise has been reached over the long-standing issue of the Tamils in Ceylon, whereby the Indian government has agreed to accept for repatriation over half the persons of Indian origin in Ceylon, while the remainder will be accorded Ceylonese citizenship. Following a general election in 1965 a National Government was formed by six parties, with Mr. Dudley Senanayake as Prime Minister. The Federal Party withdrew from the coalition in 1968.

Government

Ceylon accepts Queen Elizabeth II as Queen of Ceylon and Head of the Commonwealth. Executive power is vested in the Cabinet whose Prime Minister is appointed by the Governor-General. Parliament is bi-cameral, comprising the Senate or upper house of 30 members, of whom 15 are elected by the House of Representatives and 15 are nominated by the Governor-General; and the House of Representatives or lower house of 157 members, 151 of whom are elected by universal suffrage and 6 of whom are nominated. The country is divided into 21 administrative districts in charge of government agents appointed by the central government.

Defence

In 1947 Ceylon signed a mutual defence pact with the United Kingdom. This continues to operate. Ceylon is not a member of the South-East Asia Treaty Organization (SEATO).

Economic Affairs

About one-third of Ceylon's national income is derived from the cultivation, processing and export of tea, rubber and coconuts. Ceylon is the world's second largest producer of black tea. Most of the tea and rubber is cultivated on estates, while coconuts are predominantly a smallholders' crop. Somewhat under half of the 52 per cent of the labour force officially classified in the agricultural sector are employed on estates. Domestic agriculture consists in the main of the cultivation of rice, the staple food, but imports of rice are still necessary. The society of Ceylon is predominantly rural, with only about 15 per cent of the population living in towns, and a rapidly expanding population, concentrated in the south and south-west, has created heavy pressure on the densely populated zones.

The only commercially important mineral is graphite, although there are also deposits of iron ore, monazite, ilmenite sands, limestone, clay and kaolin. In the absence of coal and oil, Ceylon is developing her water resources and the Maskeli Oya and Samanalawewa projects are expected to produce sufficient power to meet immediate domestic requirements. Manufacturing and handicraft industries have grown in importance and accounted for 12 per cent of G.N.P. in 1967. These industries at present primarily supply the domestic market, and the three traditional primary products continue to account for over 90 per cent of total exports. The United Kingdom is Ceylon's principal trading partner, followed by the People's Republic of China, with which Ceylon has concluded a rice-rubber barter agreement.

The government sector extends over many branches of economic activity. There are fifteen state-sponsored industrial corporations, and insurance, some transport facilities and oil distribution have been nationalized.

Transport and Communication

Much of Ceylon is hilly and thickly wooded, difficult of access by road and rail. The railways are state-owned with more than 1,000 miles of track. The state also runs a national omnibus service. Air Ceylon connects the main towns of the north and east to Colombo, and there are international services. The port of Colombo is one of the most important in the East.

Social Welfare

There is an island network of hospitals, clinics and dispensaries where treatment is free. An institute for training and research in community development was set up in 1966. Rice, the staple food, is subsidized by the state.

Education

Education is compulsory and free between the ages of five and fourteen. Over 80 per cent of children are in school. There are four universities (two secular, two Buddhist) and many technical colleges.

CEYLON—(INTRODUCTORY SURVEY)

Tourism

As a stopping place for luxury cruises and by virtue of the spectacle of its Buddhist festivals, ancient monuments and natural scenery, Ceylon is one of Asia's most important tourist centres. Good motor roads connect Colombo to the main places of interest.

In 1968 there were 28,272 visitors.

Visas are not required to visit Ceylon by nationals of Australia, Austria, Canada, Denmark, Finland, France, German Federal Republic, Ireland, Italy, Malaysia, Netherlands, New Zealand, Norway, Pakistan, Singapore, Sweden, Switzerland, U.S.A.

Sport

Football and cricket are the most popular games.

Public Holidays

The Buddhist Poya Days are observed as holidays, and Saturday and Sunday are normal working days. Poya Day holidays are governed by the phases of the moon, and each is preceded by a half-day holiday. The following are the Poya holidays in the second half of 1970: June 4, 12,

19, 26, July 3, 11, 18, 25, August 1, 9, 16, 23, 31, September 8, 15, 22, 29, October 7, 14, 22, 29, November 6, 13, 21, 28, December 5, 12, 20, 27.

The following holidays have also been declared (1970): June 30 (Special Bank Holiday), October 29 (Deepavali Festival Day), December 1 (Id-ul-Fitr—Ramazan Festival), December 25 (Christmas Day), December 31 (Special Bank Holiday).

Weights and Measures

Imperial weights and measures are in standard use.

Currency and Exchange Rate

The currency unit is the Ceylon Rupee of 100 cents. The Rupee was devalued by 20 per cent in November 1967.

Coins: $\frac{1}{2}$, 1, 2, 5, 10, 25, 50 cents.

Notes: 1, 2, 5, 10, 50, 100 rupees.

Official exchange rate: 14.22 rupees = £1 sterling.

5.92 rupees = U.S. \$1.

(Under the foreign exchange entitlement scheme, introduced in May 1968, some higher exchange rates enjoy semi-official status.)

THE CONSTITUTION

The laws which embody the Constitution of Ceylon are contained in the Ceylon Independence Act of 1947 and in a number of Orders-in-Council. Amendments to the Constitution require a majority vote by two-thirds of the total membership of the House of Representatives.

PARLIAMENT

The Ceylonese Parliament consists of the House of Representatives and the Senate. The House of Representatives has 157 members, of whom 151 are elected and 6 nominated. The island is divided into 145 electoral districts, which have been so arranged as to make possible the representation of minorities united by race, religion or other strong ties; but if after a general election the Governor is of the opinion that any important group or interest is inadequately represented, he may appoint up to 6 members of the House. The normal life of the House is 5 years and there is universal adult suffrage. The age limit for elections has been extended to over 18 years.

The Senate has 30 members, of whom 15 are elected by the House of Representatives and 15 are nominated by the Governor-General. The Senate is not subject to dissolution; Senators are appointed for a term of 6 years, one third retiring every second year.

The Parliament has the power and the duty to legislate for the peace, order and good government of the island. Importance is attached to the need to make it constitutionally impossible for any one community or religious group to be favoured or neglected, or for Parliament to interfere with the constitution of any religious body without its consent, and specific legislation has been passed to this end.

THE CABINET

The Cabinet is collectively responsible to Parliament. The Prime Minister, who must be the leader of the largest Party or Group in the House of Representatives, is appointed by the Governor-General, who then appoints the other Ministers on his advice. At least two Ministers, including the Minister of Justice, must come from the Senate.

REVISION OF THE CONSTITUTION

In January, 1958, a select committee of the two Houses of Parliament was appointed to consider the revision of the Constitution. In January, 1959, its report was issued. Among others the following recommendations were made:

1. The inclusion of Indian and Pakistani residents, who are Ceylon citizens, on the common electoral roll.
2. Equal numbers of citizens in the electoral districts of each province.
3. The restriction of multi-member electoral districts to secure representation of racial interests.

Legislation has already been passed implementing some of these recommendations.

LANGUAGE

Sinhala became the official language of administration by law on 1 January 1961, and the change was made complete on 1 January 1964. In January 1966 Tamil was introduced as the alternative official language in the northern and eastern provinces.

CHAD

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Chad is a landlocked state in north central Africa, stretching south from Libya and the Tropic of Cancer to the Central African Republic. Niger and Cameroon lie to the west and the Sudan to the east. The climate is hot, arid in the desert north and very wet (annual rainfall 196 inches) in the south. The official language is French, but Arabic, Nilotic and Sudanese dialects are widely spoken. About half the population are Muslims living in the north; most others follow animistic beliefs. There are a few Christians. The flag consists of vertical blue, yellow and red stripes. The capital is Fort-Lamy.

Recent History

Formerly a province of French Equatorial Africa, Chad became independent in 1960. In 1962 a new Constitution providing for a President as Head of State was adopted. The country is divided between the African south and the Arab north. Chad is a member of the French Community, the African Equatorial Union and the Organisation Commune Africaine et Malgache (OCAM). Since August 1968 additional French troops have been supporting French forces based in Fort-Lamy in crushing an extensive rebellion in the north of the country.

Government

Executive power lies with the President assisted by a Council of Ministers. Legislation is carried out by the Legislative Assembly, elected by universal direct suffrage for a five-year term. Chad has officially been a one-party state since 1965. The country is divided for administrative purposes into 14 Prefectures.

Defence

Chad's small army consisting of four infantry companies totalling 700 men, and an air force of 200 men and five aircraft, is supported by a detachment of over 1,000 troops lent by France under military agreements. France's principal remaining military base in Africa is at Fort-Lamy.

Economic Affairs

The economy is agricultural, 96 per cent of the population working on the land or moving about the desert. The chief product is cotton, which forms 80 per cent of exports. Cattle, sheep and camels are raised. There is fishing in Lake Chad and the Chari and Logone rivers. The minerals exploited are natron and tungsten; in 1969 the American Conoco company was awarded extensive oil exploration concessions. The little foreign trade is mostly with the Franc Zone. The state depends on substantial French budgetary and other aid.

Transport and Communications

There are no railways in Chad but work was commenced in 1964 on an extension of the Trans-Cameroon railway to Nga'oundere. Roads have been improved and can take heavy vehicles. The river Chari is navigable from Fort-Lamy near to Lake Chad to Fort Archambault in the far south. There are six aerodromes.

Social Welfare

An Employment Code guarantees a minimum wage and other rights for employees. Medical institutions in 1966 comprised 5 hospitals, 38 medical centres, and over a hundred infirmaries and dispensaries.

Education

Schools are divided into primary, secondary and technical categories. In 1967 there were 180,000 children at school, representing 30 per cent of children of school age.

Tourism

Chad provides a variety of scenery from the dense forests of the south to the deserts of the north. Wild animals abound, especially in the two national parks and five game reserves; there is excellent hunting, mainly around Fort Archambault.

Visas are not required to visit Chad by nationals of the following countries: Andorra, Central African Republic, Congo (Brazzaville), Dahomey, France, Gabon, Guinea, Ivory Coast, Mali, Mauritania, Monaco, Niger, Senegal, Togo, and Upper Volta.

1970: May 1 (Labour Day), May 18 (Birth of the Prophet), July 14, August 11 (Independence Day), September 30 (Ascension of the Prophet), November 28 (Proclamation of the Republic), November 30 (Id ul Fitr), December 25 (Christmas).

1971: January 1 (New Year), February 6 (Id ul Adha).

Weights and Measures

The Metric System is officially in force.

CHILE

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Chile is a long, narrow country stretching for 2,800 miles along the Pacific coast of South America from Peru and Bolivia in the north to Cape Horn in the far south. It is separated from Argentina to the east by the high Andes mountains. Both the mountains and the cold Humboldt Current influence the climate; between Arica in the north and Punta Arenas in the extreme south, some 4,000 km., the average maximum temperature varies by no more than 13°C. The central region enjoys a temperate climate, average temperature ranging from 3°C in winter and 29°C in summer. Annual rainfall ranges from 0.04 inches in the northern desert to 105 inches in the south. The language is Spanish. There is no state religion but Roman Catholics represent over 85 per cent of the population. The flag is divided horizontally, the lower half red, the upper half having a white star on a blue square left, the remainder being white. The capital is Santiago.

Recent History

Despite economic difficulties, Chile has enjoyed comparative political stability since 1920, and it is now one of the few Latin American states not under military control. Chile is a founder member of the United Nations and a member of the Organization of American States, of the Alliance for Progress and the Latin American Free Trade Association. In 1964 Sr. Eduardo Frei, the Christian Democrat candidate, was elected President and his major work has been the "Chileanization" of the U.S.-owned copper mines and the implementation of agrarian reform. In general elections held in March 1969 the Christian Democrats were returned with a majority of 31.6 per cent, the right-wing Partido Nacional taking second place in the polls. On October 21st a state of siege was imposed following an army mutiny in Santiago over low pay, but was lifted on the 23rd. Signs of further unrest in the armed forces caused a state of emergency to be declared in Santiago province on November 20th. A number of army officers were arrested in March 1970, accused of plotting a coup.

Government

Executive power is vested in the President, who is elected by popular vote for six years. The legislative organ is the National Congress, consisting of a Senate of 45 members and a Chamber of Deputies of 147 members. All citizens of eighteen or over are eligible to vote. Late in 1969 the Congress approved a reform granting greater independence to the President.

Defence

Military service is compulsory at 19 years of age, but exemption is frequently obtained. The Army has a strength of 38,000, the Air Force 8,000 and the Navy 14,000. A Military Assistance Pact with the U.S.A. was signed in 1952.

Economic Affairs

The most important source of revenue is copper, of which Chile is one of the world's principal producers. Other

deposits include coal, iron, gold, silver and nitrates. Oil has been struck in Magallanes and production covers the country's needs. One third of the population works on the land, the main crops being wheat, potatoes, maize and sugar beet. President Frei has introduced a radical agrarian reform law to improve production, increase the number of landowners, and ameliorate the standard of living of agricultural workers. CORA, the Corporation for Agricultural Reform, has already installed thousands of families, forming a large number of settlements for collective farming. A steel plant is in operation near Concepción and there are a number of other industries, including food-processing, beverages, textiles and fishmeal. Chile is the second most important fish-producing country in Latin America.

Transport and Communications

The length of railway track is over 5,000 miles, of which some 4,250 are state-owned. Roads are good by Latin American standards, and international routes to Argentina and Peru are being rapidly improved with foreign loans. There are 1,350 miles of navigable rivers. The chief ports are Valparaíso, Talcahuano, Antofagasta, San Antonio and Punta Arenas; a new port is planned at San Vicente, Concepción. Air transport is provided by the state airline Línea Aérea Nacional, Ladeco and several foreign airlines, and a new international airport is in service at Pudahuel outside Santiago. An international airport is to be built at Balmaceda and plans are going ahead to extend the provincial airport network.

Social Welfare

Employees, including agricultural workers, receive benefits for sickness, unemployment and retirement and there are dependents' allowances. Between 1964 and 1967 the number of trade unions in Chile rose from 1,900 to 3,600. There is a National Health Service which was established in 1952. In 1968, the Curative Medicine Law was passed for the benefit of over 600,000 middle class families previously ineligible for medical care or low-cost hospitalization. As a result of this law, many of the smaller state and private welfare services are now disappearing. A law on accidents at work and occupational diseases was also passed, affording protection for every worker in Chile.

Education

Education is free and compulsory between the ages of six and fourteen. Over 90 per cent of the population are literate (95 per cent in the towns). Much has been done recently to improve and extend education; 1969 constituted the second year of the present Government's educational reform. The duration of primary school education has been extended from six to eight years, new academic and technical syllabuses have been drawn up for the secondary school course, a period of four years, and for the first time in Chile community centres for adult education have been introduced. In 1968 the educational budget was 1,555 million escudos, and the illiteracy rate for 1970 is estimated to have dropped from 16.4 per cent to 10 per cent. There are eight universities with over 60,000 students in 1968.

CHILE—(INTRODUCTORY SURVEY)

Tourism

The long Andes range of mountains is the chief attraction to tourists. There are good beaches and many lakes, the largest of which is Llanquihue.

Visas are not required to visit Chile for a period of up to 90 days. This applies to all nationalities.

Sport

The State plays an important part in the promotion and development of national sports, and has established hundreds of sports centres throughout the country. Football is the most popular sport. The World Cup competition was held in Chile in 1962, the Chilean eleven reaching the semi-final. Ski-ing and fishing are extremely popular. The international world ski championships were held in Portillo in 1966.

THE CONSTITUTION

THE CONSTITUTION of 1925, somewhat amended, remains in force today. It provides for a unitary state and a republican form of government; a bi-cameral legislature and executive power vested in the President, who is elected by direct popular vote. If the presidential candidate with the largest number of votes has not obtained more than half the votes cast—as happened in 1952 and 1958—Congress decides which of the two candidates with the highest number shall be President. The President is ineligible, on retirement, for immediate re-election.

He has wide powers of appointment and dismissal of Cabinet Ministers and some political officials. He is responsible for the maintenance of order and may, in the event of disturbance, declare a state of siege if Congress is not in session. He is also responsible for the conduct of foreign policy.

The President enjoys a modified veto on bills submitted by Congress, his rejections or amendments being overruled if a two-thirds majority of both Chambers so votes. Legislation may be initiated by the Chambers or by the

President, who is empowered to issue the decrees he may deem necessary for the execution of the laws. Members of his Cabinet, who cannot be members of Parliament, may attend sessions of Congress and speak, but may not vote.

Congress, whose ordinary sessions last from May 21st to September 18th, and whose extraordinary sessions last the rest of the year, consists of a Senate and a Chamber of Deputies. The former has 50 members, elected for eight years by ten provincial groups of departments, each group electing five Senators. One-half the Senate is renewable every four years. The Chamber of Deputies has 150 members, elected for four years by departments or groups of departments on the basis of proportional representation.

All voting is by ballot. All citizens over the age of 18 are entitled to vote.

The Republic is divided into 25 Provinces (Aconcagua, Antofagasta, Arauco, Atacama, Aysén, Bío Bío, Cautín, Chiloé, Colchagua, Concepción, Coquimbo, Curicó, Linares, Llanquihue, Magallanes, Malleco, Maule, Ñuble, O'Higgins, Osorno, Santiago, Talca, Tarapacá, Valdivia, Valparaíso).

THE PRESS

Although freedom of the press is assured, use has been made by the Government of the law passed in 1958 on the Internal Security of the State which grants power to "suspend for twenty-four hours the sending, reception, transportation, delivery or transmission of printed matter, documents, newspapers, etc." which is judged to constitute a transgression of the law. During the state of siege imposed by the Government in October 1969, editions of *La Segunda* and *La Tarde* were confiscated in Santiago, and the Director of *La Segunda* was held under arrest for three days. Also during this time censors were placed in the offices of foreign news agencies, and the radio and television stations were required to function as a government network. These measures are, however, exceptional.

As a quarter of the inhabitants of Chile live in Santiago and Valparaíso, the circulation of provincial papers is not large, some appearing only on alternate days or once and twice a week. A list of some newspapers in the larger towns is given below.

PEOPLE'S REPUBLIC OF CHINA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The People's Republic of China covers a vast area of Eastern Asia with Mongolia to the north, the Soviet Union to the north and west, Pakistan to the west and India, Nepal and South-East Asia to the south. The climate ranges from sub-tropical in the far south to an annual average temperature of below 50°F (10°C) in the north and from the monsoon climate of East China to the aridity of the north-west. The language is Chinese (Mandarin); in the south and south-east local dialects are spoken. The Tibetans, Uighurs, Mongols and other groups have their own languages. The traditional religions and philosophies of life are Confucianism, Buddhism and Taoism. Muslims number about 10 million and in 1949 there were between three and four million Christians. The flag is plain red with one large and four small gold stars in the top left-hand corner. The capital is Peking.

Recent History

The Allied defeat of Japan in 1945 was followed by civil war in China until 1949 when the Communists under Mao Tse-tung became masters of the country. Between 1949 and 1959 a close relationship was maintained with the Soviet Union but subsequently relations have become embittered. Chinese forces participated on the North Korean side in the Korean War of 1950-52. The People's Republic is not a member of the United Nations and is not recognized by the United States. It claims sovereignty over Taiwan (Formosa) now governed by General Chiang Kai-shek, the pre-1949 ruler of China. Late in 1962 Chinese troops were engaged in a short frontier war with India in disputed Himalayan territory in Ladakh and to the north of the Indian province of Assam. Early in 1964 France recognized the People's Republic, which since the breach with the U.S.S.R. has attempted to diversify its foreign associations. China exploded her first nuclear device late in 1964 and by the end of 1968 had successfully completed eight nuclear tests. In November 1965 Chairman Mao Tse-tung launched the "Great Proletarian Cultural Revolution". The motivation and aims of this movement remain obscure, but it proved a prolonged campaign of rectification, bringing about widespread changes in Party and State organs and personnel. Many individuals were publicly criticized, including the Head of State, Liu Shao-chi, who was dismissed from all Party and State posts in October 1968. In April 1969 the long-awaited Ninth Congress of the Chinese Communist Party took place. The personnel changes of the Cultural Revolution were confirmed and Lin Piao was officially designated Mao's heir.

The dispute with the Soviet Union developed during 1969 into armed clashes along the Far Eastern and Central Asian borders separating the two powers. Talks on the disputed borders opened in Peking in November 1969.

Government

China is a unitary state. Directly under the Central Government there are 21 provinces, five autonomous

regions (including Tibet) and three municipalities (Peking, Shanghai, Tientsin). The Constitution provides for a National People's Congress, with over 3,000 deputies elected every four years by universal suffrage, with the State Council as its executive organ. Local authorities under the provinces include special districts, counties (*hsien*) and rural districts (*hsiang*). The constitution lays down that each local authority is to have an elected people's congress. The Communist Party, under the chairmanship of Mao Tse-tung, is the controlling authority in the country. In 1961 its membership was said to be 17 million. The Party's directing body is the Politburo.

Since November 1965 many new organs have been established within the party, the Army, and the Administration to promote the revolution; these organs overlap and partially replace the systems described above. By September 1968, Revolutionary Committees (alliances of elements of the Army, the Communist Party, and the revolutionary masses) had been established to take over the administration of each of the 29 provinces, autonomous regions and special municipalities.

Defence

The People's Liberation Army, which triumphed over the Nationalist forces in 1949, was re-modelled under Soviet guidance during the Korean War, but has subsequently reverted to the earlier system, without formal ranks and insignia. It is now said to consist of around 2½ million men. China is divided into 13 military regions which are in turn subdivided into 23 military districts. An air force and navy were formed at the same period. Selective conscription is in force for a minimum of four years' enlistment.

Economic Affairs

Agriculture is China's main industry and agricultural produce the largest single contributor to the export trade. Approximately two-fifths of total output derives from the agricultural sector, which employs over two-thirds of the working population. Mainly arable crops are grown: rice principally south of the Yangtze, and wheat and millet mainly north of that river. Substantial quantities of wheat are imported from Australia, Canada and South America. The Communist regime aims at achieving self-sufficiency through the internal development of China's natural resources and domestic industries based on this wealth. Official figures for minerals in the energy sector are: coal 100,000 million tons, mineral oil 200 million tons, water-power potential 536 million kW. There are large deposits of iron ore, which support the iron and steel industry at Anshan, Shanghai, Paotow and Wuhan. Other important minerals are tin, molybdenum, tungsten and antimony. The traditional location of industry, in the north-east, north and east (particularly Shanghai and Tientsin), remains the major centre but industrial development has been dispersed throughout the country.

The development of the economy since 1949 has been within the framework of three five-year plans to build a socialist economy and to industrialize the country. Ownership of farm lands was transferred to the peasants at an early stage, and from 1955 to 1958 collectives were established over the whole country. The gradual take-over by the state of industry and commerce was speeded up after 1955. During the "Great Leap Forward" of 1958 (a campaign to mobilize fully for economic development the vast population) rural and urban communes were set up as administrative units but the system of producers' collectives was re-introduced during the "three bitter years" between 1959 and 1961, caused by bad harvests, the withdrawal of Soviet aid and internal disorder. Industry was allocated the major share of investment under the first two plans but the development of agriculture was later given prominence. Progress since 1959 is uncertain: few statistics have been issued since then, and the extent of the disruption caused by the "Great Proletarian Cultural Revolution" is not yet known.

Transport and Communications

In 1958 railways were responsible for nearly 80 per cent of the freight turnover by modern means of transport; the total length of railway lines exceeded 31,000 km. In the same year, 40,000 km. of inland waterways were navigable by steamships and civil air routes totalled 33,000 km. Coastal shipping is also important. Since 1964 a number of foreign airlines have been permitted to set up regular services to Peking, Canton and Shanghai.

Since 1949 an ambitious programme of railway construction has been undertaken, especially in the west and north-west. Roads are unevenly developed, but by 1966 were estimated to total about 550,000 km.

Social Welfare

Western and traditional Chinese medical attention is available in the cities, and to a lesser degree in rural areas, but facilities are still far from adequate. Large factories and other enterprises provide social services for their employees. Wage-earners qualify for pensions.

Education

A great expansion has occurred since 1949 in numbers receiving education at all levels, but education is not yet universal. Primary schooling covers five years and middle school six years. In 1959 it was claimed that 37 per cent of the adult population was literate. Part-time education is especially encouraged. There are 28 universities, and it was announced in August 1963 that 1.1 million students (including 370,000 engineers) had graduated since 1949.

Tourism

Tourism is still of limited extent. Tours are organized for party groups visiting China but the ordinary tourist frequently has difficulty in obtaining a visa. Western-style hotels exist in Peking, Shanghai, Canton and other large centres. All visitors to China require a visa.

Sport

Football and basketball are popular in schools and other institutions. Athletics and swimming are encouraged. Chinese table-tennis players are among the world's best.

Public Holidays

1970: May 1 (Labour Day), August 1 (Army Day), October 1 (National Day).

1971: January 27-29 (Lunar New Year).

THE CONSTITUTION

This Constitution was adopted on 20 September 1954 by the First National People's Congress of the People's Republic of China at its first session.

The preamble speaks of the Chinese people's great victory when, in 1949, the People's Republic of China was founded. This new people's democracy is in a state of transition to socialism; the needs of this phase are reflected in the Constitution. The people's democratic united front, led by the Communist Party of China, is directing the transformation of society. China's different nationalities will become more closely united; their varying needs will, however, be respected. The indestructible friendship of China with the U.S.S.R. and the People's Democracies will be strengthened, and the policy of establishing and extending diplomatic relations with all countries on the principle of equality, mutual benefit and respect for each other's sovereignty and territorial integrity continued, with the aim of furthering the cause of world peace and the progress of humanity.

Chapter I. General Principles

Article 1—The People's Republic of China is a people's democratic state led by the working class and based on the alliance of workers and peasants.

Article 2—All power in the People's Republic of China belongs to the people, who exercise their power through the National People's Congress and the local people's congresses.

These and all other organs of state practise democratic centralism.

Article 3—The People's Republic of China is a unified, multi-national state.

All the nationalities are equal, and have freedom to use their own languages, and to practise their own customs.

Discrimination against, or oppression of, any nationality, and acts which undermine the unity of the nationalities are prohibited.

Regional autonomy applies in areas entirely or largely inhabited by national minorities. National autonomous areas are inalienable parts of the People's Republic of China.

Article 4—The People's Republic of China, by relying on the organs of state and the social forces, and by means of socialist industrialization and socialist transformation, ensures the gradual abolition of systems of exploitation and the building of a socialist society.

Article 5—The ownership of the means of production today mainly takes the following forms: state ownership, co-operative ownership, ownership by individual working people, and capitalist ownership.

Article 6—State-owned economy is owned by the whole people; it is the leading force in the national economy and the material basis on which the state carries out socialist transformation. The state ensures priority for its development.

All mineral resources and waters, as well as forests, undeveloped land and other resources which the state owns by law, are the property of the whole people.

Article 7—Co-operative economy is either socialist economy collectively owned by the working masses, or semi-socialist economy in part collectively owned by the working masses. Such partial collective ownership is a transitional form by means of which individual peasants, handicraftsmen and other individual working people organize themselves in their advance towards collective ownership by the working masses.

The state protects the property of the co-operatives, and guides their development. It regards producers' co-operatives as the chief means for the transformation of individual farming and individual handicrafts.

Article 8—The state protects peasant ownership of land and other means of production according to law.

The state encourages individual peasants to increase production and to organize producers', supply and marketing, and credit co-operatives voluntarily.

The policy of the state towards rich-peasant economy is to restrict and gradually eliminate it.

Article 9—The state protects the ownership of the means of production by handicraftsmen and other non-agricultural individual working people according to law, and encourages them to improve the management of their affairs and to organize producers', and supply and marketing co-operatives voluntarily.

Article 10—The state protects the ownership by capitalists of the means of production and other capital according to law.

The policy of the state towards capitalist industry and commerce is to use, restrict and transform them. The state makes use of the positive qualities of capitalist industry and commerce which are beneficial to national welfare and the people's livelihood, restricts their negative qualities and guides their transformation into various forms of state-capitalist economy, by means of control exercised by administrative organs of state, the leadership given by state-owned economy, and supervision by the workers.

The state forbids any kind of illegal activity by capitalists which endangers the public interest, disturbs the social-economic order, or undermines the economic plan of the state.

The state protects the right of citizens to ownership of lawful income, of savings, houses and the means of life (*Article 11*), and to inherit private property according to law (*Article 12*).

Article 13—The state may, in the public interest, buy, requisition or nationalize land and other means of production both in cities and countryside according to provisions of law.

Article 14—The state forbids any person to use his private property to the detriment of the public interest.

Article 15—By economic planning, the state directs the growth and transformation of the national economy to bring about the constant increase of productive forces, in this way enriching the material and cultural life of the people and consolidating the independence and security of the country.

Article 16—Work is a matter of honour for every citizen of the People's Republic of China who is able to work. The state encourages initiative and creative activity of citizens in their work.

Article 17—All organs of state must rely on the masses of the people, constantly maintain close contact with them, heed their opinions and accept their supervision.

Article 18—All persons working in organs of state must be loyal to the people's democratic system, observe the Constitution and the law and strive to serve the people.

Article 19—The People's Republic of China safeguards the people's democratic system, and punishes and suppresses all treasonable and counter-revolutionary activities.

The state deprives feudal landlords and bureaucrat-capitalists of political rights for a specific period of time

according to law; at the same time it provides them with a way to live, in order to enable them to reform through work and become citizens who earn their livelihood by their own labour.

Article 20—The armed forces of the People's Republic of China belong to the people; their duty is to safeguard the gains of the people's revolution and of national construction, and to defend the sovereignty, territorial integrity and security of the country.

REPUBLIC OF CHINA

[TAIWAN]

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Republic of China consists of the Island of Taiwan (Formosa), the nearby Pescadores islets, and the islands of Quemoy and Matsu close to the Chinese mainland. Taiwan itself lies 200 miles from the coast of South East China. The average temperature is 73°F (23°C) and the average annual rainfall 101 inches. The official language is Mandarin Chinese. The predominant religion is Buddhism and there are Muslims, Catholics and Protestants. Confucianism has a large following. The flag consists of a white sun in a blue sky on a crimson background. The capital is Taipei, at the northern end of the island.

Recent History

The Government of the Republic moved to Taiwan in 1949 after the Communists' accession to power on the mainland. The Head of State is the President, General Chiang Kai-shek. In 1954 a mutual security pact was signed by which the U.S.A. pledged the protection of Taiwan and the Pescadores; in 1955 the offshore islands of Quemoy and Matsu were included in the protected area. In February 1964, the Republic broke off diplomatic relations with France following the French recognition of the People's Republic of China.

Government

The Head of State is the President, who is elected for terms of six years by the National Assembly. There are five Yuans (governing bodies), the highest legislative organ being the Legislative Yuan, to which the Executive Yuan is responsible. There are also Control, Judicial and Examination Yuans. Elections are by universal adult suffrage.

Economic Affairs

The economy is progressing towards self-sufficiency, and U.S. aid fell from \$69 million in 1961 to \$461,000 in 1968 and has now been discontinued. Trade is chiefly with the U.S.A., Japan and South-East Asia, the most important exports being sugar, bananas, processed foodstuffs, textiles, minerals and metal goods. Cement production is the main industry. Mineral resources include coal, marble and salt. A Four-Year Plan (1969-72) aims to increase G.N.P. by 40 per cent, with a projected annual economic growth rate of 7 per cent.

Defence

The armed forces total 600,000 men (Army 400,000, Air Force 80,000, Navy 60,000 and other forces 60,000). Under the system of compulsory service, men serve two years in the Army, or three in the Navy or Air Force, at nineteen. Much of the equipment and some training staff are provided by the U.S.A.

Transport and Communications

There are 3,819.6 km. of railway and 18,500 km. of roads.

The ports of Keelung and Kaohsiung handled over 14.8 million tons of cargo in 1968. The Sungshan airport is used by 12 domestic and international airlines.

Social Welfare

The Labour Security Programme covers more than a fifth of the population and provides benefits for injury, disability, birth, death and old age. Government employees are covered by a special scheme.

Education

Elementary education is free and compulsory between the ages of six and fifteen. In 1968 one out of every four persons in the Republic was a student. There are 12 universities and 66 independent colleges and junior colleges.

Tourism

Festivals, ancient art treasures and the island scenery are the principal attractions; 300,000 tourists visited Taiwan in 1968.

Represents country at all state functions, including foreign relations; commands land, sea, and air forces, promulgates laws, issues mandates, concludes treaties, declares war, makes peace, declares martial law, grants amnesties, appoints and removes civil and military officers, and confers honours and decorations. He also convenes the National Assembly, and subject to certain limitations, may issue emergency orders to deal with national calamities and ensure national security.

Executive Yuan: Is the highest administrative organ of the nation and is responsible to the Legislative Yuan; has five categories of subordinate organization:

Executive Yuan Council
Ministries and Commissions
Secretariat
Government Information Office and Personnel Administration Bureau.
Directorate-General of Budgets, Accounts and Statistics.

Legislative Yuan: Is the highest legislative organ of the state, composed of elected members; holds two sessions per year; is empowered to hear administrative reports of the Executive Yuan, and to change Government policy.

Judicial Yuan: Is the highest judicial organ of state and has charge of civil, criminal, and administrative cases, and of cases concerning disciplinary measures against public functionaries (*see* Legal System).

Examination Yuan: Supervises examinations for entry into public offices, and deals with personal questions of the civil service.

Control Yuan: Is a body elected by local councils to impeach or investigate the work of the Executive Yuan and the Ministries and Executives; meets once a month, and has a subordinate body, the Ministry of Audit.

COLOMBIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Colombia is an equatorial country in the north-west of South America with the Caribbean Sea to the north and the Pacific to the west. Its continental neighbours are Venezuela, Brazil, Peru and Ecuador, with Panama connecting it to the narrow isthmus of Central America. The climate is hot in the jungle and coastal areas, temperate on the plateaux and cold in the Andean mountains. The language is Spanish. There is freedom of religion; the state religion, to which 90 per cent of the population adhere, is Roman Catholicism. There are small Protestant and Jewish minorities. The flag consists of horizontal yellow, blue and red stripes. The capital is Bogotá.

Recent History

After a period of dictatorship from 1953, a military Junta overthrew President Rojas Pinilla in 1957. Democratic government was re-established with a system of National Front, by which the two principal parties, Liberal and Conservative, equally exercise power; parliamentary and presidential elections were held in 1958. In 1959 the Constitution was again reformed, establishing the alternation of presidency every four years from 1962 until 1974. In 1963 the three Conservative party factions reunited in a National Front. In May 1966 Dr. Carlos Lleras Restrepo was elected President for a four-year term. The state of siege imposed in 1965 was lifted in December 1968 after the passing of important constitutional reforms. 1969 saw an increase in political disturbances, including student protests and renewed guerrilla activities, and a state of siege was proclaimed in October in the province of Cali after a series of kidnappings. Presidential elections are due to be held in April 1970. Colombia is a member of the Organization of American States, the Alliance for Progress, the Latin American Free Trade Association and the United Nations.

Government

The Constitution is that of 1886, which has been revised several times since its promulgation. Executive power is exercised by the President (assisted by a Cabinet) who is elected for a four-year term by universal adult suffrage. He must be alternately a member of the Conservative and Liberal Parties. Legislation is carried out by Congress, consisting of the Senate (106 members elected for four years) and the House of Representatives (204 members elected for four years). The country is divided into 22 Departments. Two new Departments, El César and Sucre, were formed in 1967.

Defence

Military service is compulsory for one year between the ages of eighteen and thirty. The strength of the Army, Navy and Air Force is about 15,000 in peacetime and 30,000 in wartime.

Economic Affairs

The economy depends principally on coffee, of which Colombia is one of the world's largest producers and which accounts for over 70 per cent of exports. Agriculture employs about half the labour force, and efforts are now being made to diversify exports, with special emphasis on the

raising of beef cattle. Sugar, potatoes, bananas and rice are important, and maize is soon to be exported. Besides cattle, some pigs and sheep are raised. Colombia produces 90 per cent of the world's emeralds and is the largest gold producer in Latin America. It is one of the few countries where platinum is found. Colombia's oil production is the third largest in South America and substantial deposits have recently been found in the south at Putamayo, whence a pipeline will be built over the Andes to the coast. A new pipeline from the oilfields of Yariri to the port of Cartagena was opened in 1962 and there are three refineries. Steel and cement are the chief industrial products but other manufactures are being started. A Four-Year Investment Plan, 1968-71, provides for an annual growth of 6 per cent. In 1966 an economic frontier integration programme with Ecuador was launched. The first four-year stage is costing \$101.9 million and the second ten-year stage will amount to total cost of \$260 million. There are also integration projects with the other "Andean Group" countries, Venezuela, Peru, Bolivia and Chile. An IBRD loan of U.S. \$16.7 million will finance the first three-year stage of a ten-year livestock development programme. In January 1970 a national employment expansion programme was launched in Bogotá with the co-operation of the ILO.

Transport and Communications

The high mountains make transport difficult. There are 23,267 miles of roads, including three highways, and 2,140 miles of railways. Much freight and cattle as well as passenger traffic is carried on the River Magdalena, which is navigable for 900 miles from Barranquilla on the Atlantic coast to Puerto Berrio. A new sea-level canal is planned between Urabá on the Caribbean and Málaga on the Pacific at a cost of \$422m. Capable of carrying vessels up to 20,000 tons the actual canal will be 25 km., but the total distance, including the Atrato and San Juan rivers, will be 420 km. A new port will be built at Urabá at a cost of \$4.1m. Five national airlines provide internal and international services. Among them is Avianca, the oldest commercial airline of the Continent. A new jet airport is to be built at Cali, and another at Bucaramanga, at a cost of 60m. pesos.

Social Welfare

Social welfare is organized by the Institute of Social Security, which provides benefits for sickness, industrial accidents and unemployment. Large firms must provide life insurance for their employees and there is a comprehensive system of pensions.

Education

Education is free but not compulsory, since facilities are inadequate. In 1966 there were 27,355 schools with 2,793,794 pupils. There are 19 public and 16 private universities. There is 60 per cent literacy.

Tourism

The main tourist attractions are the Andes mountains of up to 19,000 ft., the extensive forests and jungles and pre-Colombian relics and monuments of Colonial art.

Visas are not required to visit Colombia by nationals of Austria, Belgium, Denmark, Finland, France, German

THE CONSTITUTION

The Constitution now in force was promulgated in 1886 and has been amended from time to time. Following the fall of the Rojas Pinilla régime in May 1957, the Constitution was amended to introduce a sixteen-year period of bipartisan government. Under this system the Liberal and Conservatives are equally represented in both houses of Congress, in departmental and municipal legislatures and in the national and departmental cabinets. Under the 1886 Constitution, the country is governed by a President and a Congress consisting of two Chambers. All citizens over the age of 21 are eligible; women obtained the right to vote in 1955. Liberty of the press, freedom of speech and religious toleration are guaranteed. Military service is obligatory for a period of one year for men between the ages of 21 and 30.

THE PRESIDENT

Executive power is vested in the President of the Republic, who is elected by popular suffrage for a four-year term of office. By the amendments to the Constitution introduced in 1959, the President must be alternatively a member of the Liberal and Conservative Parties.

The President is assisted in the government of the country by a Cabinet which he appoints. A substitute is elected by Congress, subject to bi-annual re-appointment, to act in the event of a Presidential vacancy. The President appoints the governors of the twenty-two Departments, the four Intendencies and the four Commissaries. The Cabinet resigns annually on August 7th to allow the President to replace Ministers if he desires to do so.

CONGRESS

Legislative power is exercised by Congress, which is composed of the Senate and the House of Representatives. Members of both chambers are elected by direct suffrage for a period of four years, in the following proportion: Senate—2 senators for each Department and one more for every 200,000 inhabitants or portion greater than 100,000, which have an excess over the first 200,000. House of Representatives—2 representatives for each Department

and one more for every 100,000 inhabitants or portion greater than 50,000 which have an excess over the first 100,000. Whenever a new census is approved, the proportion both of senators and representatives will increase in the same proportion as the increase in population.

The Presidents in each House are elected for sixty days.

NATIONAL ECONOMIC COUNCIL

Direction of the nation's finances is in the hands of the Controller-General, who is appointed for two years. A National Economic Council including five ministers and also representatives of banking, industrial and agricultural interests, has functioned since 1935.

LOCAL GOVERNMENT

For administrative purposes the country is divided into twenty-two departments, three intendencies and six commissaries. The twenty-two departments of the republic are further divided into municipalities. Governors for the Departments are appointed by the President, but regional legislatures are elected by the local inhabitants and enjoy considerable autonomy, including the management of local finances. Mayors for the municipalities are appointed by the governors.

Various constitutional reforms were promulgated in December 1968, including the following amendments: to increase the membership of the Senate from 106 to 112, and reduce the Chamber of Representatives from 204 to 198; to increase from two to four years the term of office of representatives; to eliminate the two-thirds majority required for matters of importance; to enable the Government to legislate by decree for a maximum period of 90 days in any one year in the event of an economic crisis, though such decrees must relate only to the matters which caused the crisis; from 1970, proportional representation will be allowed in departmental and municipal elections; the same principle will apply to congressional elections after 1974.

PEOPLE'S REPUBLIC OF THE CONGO— CONGO (BRAZZAVILLE)

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Congo (Brazzaville) runs north from the Atlantic to Cameroon and the Central African Republic. Across the Congo River to the east is the Congo Democratic Republic. Gabon lies to the west. The climate is tropical with temperatures averaging 70°F–80°F (21°C–27°C) throughout the year with an annual rainfall of about 48 inches. The official language is French. Just over half the people follow traditional beliefs, with Roman Catholic, Protestant and Muslim minorities. The flag has two triangles of red and green separated by a yellow diagonal stripe. The capital is Brazzaville.

Recent History

Formerly part of French Equatorial Africa, the Republic of Congo became autonomous within the French Community in 1958 and fully independent in August 1960. Fulbert Youlou and Alphonse Massamba-Debat were the first two Presidents of the Republic. A period of unrest and attempted coups began in mid-1966 and culminated in August 1968 in the dissolution of the National Assembly, the creation of the National Council of the Revolution (CNR), headed by Capt. Nguabi, and the abrogation of the 1963 Constitution. In September, after more unrest, President Massamba-Debat resigned and in December the C.N.R. became the supreme political authority and its president, Major Nguabi, head of state. During 1969 there were several security trials, and ex-President Massamba-Debat was arrested. Attempted coups in November 1969 and March 1970 resulted in a new deterioration of relations with Congo (Kinshasa), which had been improving since the break in diplomatic relations in October 1968.

At the end of December the Republic's sole party approved a radical reorganization of the country's system of government, and the state and the party took their present titles.

The People's Republic is a member of the Conférence des Chefs d'Etat de l'Afrique Equatoriale, OCAM, the French Community, UDEAC, the OAU and the UN.

Government

The Congolese Workers' Party (*Parti Congolais du Travail—P.C.T.*) is the ultimate source of political authority in the state. Through district councils and regional assemblies the wishes of the people are transmitted up to the Central Committee and Political Bureau. The Chairman of the Political Bureau, who is also First Secretary of the Central Committee, heads the Council of State, which is the council of Ministers. The Second Secretary of the Central Committee chairs meetings of the Council and proposes ministerial appointments to it.

Defence

The army, police and civil defence forces were amalgamated into a national gendarmerie in August 1968. This was in turn replaced by a popular militia in March 1970.

The 1969 Budget included 1,832 million Francs CFA for defence.

Economic Affairs

Congo's economy depends on the export of primary goods, mainly hardwoods, diamonds, palm oil and sugar, output of which exceeds that of the other OCAM countries. There is little industry except the processing of foodstuffs. Apart from diamonds the only other mineral of importance is potash. Most trade is with France from whom the Congo receives grants, loans and technical aid. The European Economic Community also assists. In recent years French aid has amounted to over 1,000 million Francs CFA per annum.

Transport and Communications

The River Congo and its tributary the Oubangui are the principal means of transportation and Brazzaville is an important port on the River Congo. There are two railway lines, one from Pointe Noire on the Atlantic to Brazzaville with a branch to the iron ore mines at Franceville in Gabon. Road mileages are low. Work began in 1963 on a road to link Comilog railway in Gabon with the forest area of Mossendjo-Nyanga, helped by a grant from the European Economic Community. This will raise forestry production by one third. Congo has its own internal air service and is a member of Air Afrique.

Social Welfare

In January 1963 a pension scheme was started by the National Social Security Board, which is also responsible for family allowances and workmen's compensation schemes. The Government also runs hospitals and health centres.

Education

There are not enough primary schools but there is a relatively high literacy rate—education will soon be compulsory from 6 to 16. In 1965 all private schools were taken over by the State. 2,459 million Francs CFA was devoted to education in the 1969 budget. A number of students go to France for technical instruction, while the Centre d'Enseignement Supérieur, which forms the nucleus of the Université de Brazzaville, founded in 1966, caters for about 1,000 students.

Tourism

There are no special facilities for tourism.

Visas: Citizens of all states, with the exception of France, require visas to visit the People's Republic of the Congo.

Sport

Football, volleyball, basketball and athletics are the principal sports and Congo competes with neighbouring states and within the French Community. The first African Games were held in Brazzaville in July 1965.

THE CONSTITUTION

In August 1968, during President Massamba-Debat's term of office, the National Assembly was dissolved and a National Council of Revolution (*Conseil National de la Révolution—C.N.R.*) created, with Capt. Marien Ngouabi, the Army Commander-in-Chief, as head. Later in the month the 1963 Constitution was replaced by the *Acte Fondamental*, under which the C.N.R. was given responsibility for the maintenance of the state. In September the C.N.R. accepted the resignation of President Massamba-Debat, and in December the *Acte Fondamental* was amended so that the C.N.R. became the supreme political authority in the state and its president automatically head of state.

At the congress of the country's sole party, the National Movement of the Revolution (*Mouvement National de la Révolution—M.N.R.*), held at the end of December 1969, the

system of government was completely reorganized, to ensure, it was said, the supremacy of the party in the state. The Republic was renamed the People's Republic of the Congo (*République Populaire du Congo*) and the party the Congolese Workers' Party (*Parti Congolais du Travail—PCT*). All the functions of the National Assembly are now the responsibility of the Party's Central Committee, which is informed by regional assemblies and district councils composed of Party activists. The Central Committee has 30 full and 11 alternate members. There is also a Political Bureau of eight members. The Council of State is the council of ministers and is headed by the Chairman of the Political Bureau, who is also First Secretary of the Central Committee. Meetings of the Council are chaired by the Second Secretary of the Central Committee, who in addition proposes ministerial appointments.

DEMOCRATIC REPUBLIC OF THE CONGO— CONGO (KINSHASA)

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Democratic Republic of the Congo is a vast territory in the heart of Central Africa bounded by the Congo Republic (Brazzaville) and the River Congo to the north-west, by the Central African Republic and the Sudan to the north, by Uganda, Rwanda, Burundi and Tanzania to the east and by Zambia and Angola to the south. There is a short coastline at the outlet of the Congo. The climate is tropical with an average temperature of 80°F (27°C) and an annual rainfall of 60 to 80 inches. French is the official language. Over 400 Sudanese and Bantu dialects are spoken, Swahili, Kiluba, Kikongo and Lingala being the most widespread. Native religions are animistic and fetishist, but Christian missions have long been active. There are small Muslim and Jewish minorities. The flag consists of a gold star next the staff on a pale blue ground, with a diagonal red stripe flanked by two narrow yellow stripes. The capital is Kinshasa.

Recent History

A period of unrest followed the Congo's regaining of independence from Belgium in June 1960. The first Prime Minister, Patrice Lumumba, was assassinated. The eastern provinces of the Republic attempted to secede and for some time Katanga was governed as a separate state under President Tshombe. In August 1960 United Nations troops (and civil technicians) were called in but not till 1963 was Katanga re-absorbed under the authority of the Central Government. In 1964 the United Nations military operation ended and a new government was set up with M. Tshombe as Premier. On November 25th, 1965, Lt.-Gen. Joseph Mobutu deposed President Kasavubu and assumed control of the state. Insurrection in the eastern provinces, led by white mercenaries, flared up again in 1967; later these forces withdrew into Rwanda. In March 1968 a new economic union was formed with the Central African Republic and Chad; the Central African Republic later withdrew from this union. Ministerial and Presidential meetings were held during 1969 between the Congo, Rwanda and Burundi to discuss closer co-operation, and three commissions were formed, each the responsibility of one country. The Congo is in charge of the Political and Juridical Commission.

Government

A new constitution, the second since independence, was adopted by an overwhelming majority in a referendum held in June 1967. It provides for a Presidential régime, with a single legislative chamber elected by universal suffrage, and wide powers for the head of state who will also head the government. There are eight Provinces. In 1966 the use of European names alongside Congolese names for some towns was abandoned: Léopoldville is Kinshasa, Elizabethville is Lubumbashi, Stanleyville is Kisangani, Albertville is Kalemic, Coquilhatville is Mbandaka, Paulis is Isiro and Banningville is Bandundu.

Defence

The Armed Forces, built up under Belgian rule as the Force Publique, are known as the Armée Nationale Congolaise and consist of troops, parachutists and air and sea forces. Military service is compulsory. Total armed forces: 30,000.

Economic Affairs

The economy has only recently begun to show signs of recovery from the troubled beginnings of the independent state, and substantial aid has been given by the United Nations, Belgium, the U.S.A. and other countries. By 1968 agreement had been reached with most countries covering the release of assets blocked since 1960, and tax-free repatriation of profits earned in the Congo. The country's chief riches lie in the Katanga copper mines. Manganese, zinc, uranium and other minerals are also mined and there are rich diamond deposits in Kasai. By 1968 the Government had taken over all Union Minière operations. Minerals form more than two-thirds of exports by value. Agricultural products, which have declined since 1960, include palm-oil, rubber, coffee, timber, manioc and bananas. Industry is still undeveloped but bricks, cement, clothing and cigarettes are manufactured. There are large reserves of hydro-electric power, notably in the Inga region at the mouth of the River Congo, where work started in 1968 on the first stage of an eventual 300 mW. power scheme, and in Katanga at Koni and N'zilo, which are also to be developed with foreign assistance. In December 1966 the Union Minière was nationalized by governmental decree, and the Société Générale Congolaise des Minerais (GECOMIN) was set up in 1967 and nationalized in 1968. In March 1968 oil deposits were found in Central Congo province. Refineries are operated at Matadi and Moanda.

Transport and Communications

Transport flows for the most part along the River Congo and its tributaries, Congolese rivers being navigable above the Inga rapids for more than 8,500 miles. The chief port is Matadi, which is the highest point on the Congo accessible from the sea. Parts of the railways were badly damaged during the period of unrest following independence, but the main rail link between Kinshasa and Katanga was reopened in 1963 and most mineral exports from Katanga use this route to Matadi. Most roads are in poor condition owing to inadequate maintenance.

Social Welfare

There is an Institut National de la Sécurité Sociale guaranteeing insurance coverage for sickness, pensions and family allowances under an obligatory scheme of national insurance. In 1969 there were 496 doctors working in the Congo.

THE CONSTITUTION

A new constitution was adopted by national referendum in June 1967.

The Democratic Republic of the Congo is defined as a united, democratic and social state, composed of eight administrative provinces and the city of Kinshasa.

HEAD OF STATE

The President of the Republic is elected for a seven-year term by direct universal suffrage. Candidates must be Congolese by birth and aged over 40. Presidential elections will be held in 1970. Under the Constitution, the Head of State is also the Head of Government and acts as the chief executive, controls foreign policy and is Commander-in-Chief of the armed forces and the police.

EXECUTIVE POWER

The programme and decisions of the Government are determined by the President and carried out by the Ministers who are heads of their departments. The Government is dissolved at the end of each Presidential term, though it continues to function until a new Government is formed. The members of the Government are appointed or dismissed by the President.

LEGISLATURE

Parliament will consist of a single Chamber, the National Assembly, elected for five years by direct, universal suffrage with a secret ballot. Elections are due to be held in 1970. The National Assembly will consist of the President, two Vice-Presidents and four Secretaries. The members of the Government have the right, and if required, the obligation to assist at the meetings of the National Assembly. It will meet twice yearly, from April to July, and from October to January.

POLITICAL PARTIES

Political parties have full democratic rights provided that they respect the laws of the Republic. However, a maximum of two political parties may be formed.

PROVINCIAL GOVERNMENTS

The governors of the eight provinces are appointed and dismissed by the President.

CONSTITUTIONAL COURT

The Constitutional Court consists of nine counsellors, three named by the President, three proposed by the National Assembly, and three proposed by the Supreme Court of Magistrates. The counsellors have the right to judge all matters of dispute concerning the present Constitution.

COSTA RICA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Costa Rica forms a part of the Central American isthmus with the Caribbean to the east and a longer Pacific coast line to the west. The climate is warm and damp in the lowlands—average temperature 81°F (27°C)—and cooler on the Central Plateau—average temperature 72°F (22°C). The language is Spanish. The state religion is Roman Catholicism. The flag consists of horizontal bands of blue, white, red, white and blue, the red band being twice the width of the others. The capital is San José.

Recent History

During President Mario Echandi Jiménez' regime (1958-62) Costa Rica achieved much progress both economically and socially, which was maintained by his successors Presidents Orlich and Trejos. The state is one of the few in Latin America which maintains a democratic form of government. In February 1970, Sr. José Figueres Ferrer, the National Liberation Party candidate, was elected President, to take office in May. He was formerly President in 1948-49 and from 1954 to 1958, and it was under his Government that the Armed Forces were abolished. Costa Rica is a member of the United Nations, the Organization of American States, the Alliance for Progress and the Organization of Central American States.

Government

Under the Constitution of 1949 executive power is vested in the President assisted by two Vice-Presidents and a Cabinet. The President is elected for a four-year term and must receive 40 per cent of the votes. The legislative organ is the unicameral Legislative Assembly of 57 members elected for four years. Parliamentary and presidential elections are held by compulsory adult suffrage.

Defence

There have been no Armed Forces since 1948.

Economic Affairs

The economy depends mainly on agriculture. Coffee is the most important product, accounting for about half the exports. Bananas, cocoa, honey, cattle and, more recently, sugar are the other important exports. The first sugar refinery began production in June 1968. Rice, corn and beans are produced mainly for home consumption. Forests cover large areas of the country. Mineral deposits are chiefly of limestone and a little gold. Substantial sulphur deposits were discovered in 1966. Industry is on a small scale, the main products being textiles, chemicals, leather goods and furniture. Hydro-electric power is being developed in the highlands. Trade is principally with the U.S.A., though Costa Rica is playing an increasingly important role in the Central American Common Market. In 1969 the World Bank granted two loans totalling \$18.5 million to Costa Rica for the expansion of electric power and telecommunications facilities. Costa Rica enjoys the highest per capita income of Central America.

Transport and Communications

There are some 3,000 miles of all-weather roads, including 410 miles of the Inter-American Highway. Three railway companies operate 437 miles of track. The main ports handling external trade are Limón on the Caribbean coast and Puntarenas and Golfito on the Pacific coast, and there are local shipping services to Panama. The main towns are connected by internal air services and international air transport is provided by the national airline Líneas Aéreas Costarricenses and three foreign companies.

Social Welfare

A Labour Code provides benefits for employees and there are insurance schemes covering sickness, old age and death. There is no centralized health service, but there are various independent organizations, some of them state-subsidized, governing hospitals, clinics and all medical services.

Education

All education is free and elementary education is compulsory between the ages of six and twelve. Official secondary education is free and consists of two stages: a three-year basic course followed by a more highly specialized course of two years. Escuelas Normales and Escuelas Normales Superiores provide training courses for primary and secondary school teachers respectively. Costa Rica has the highest literacy rate in Central America. In 1968 28.3 per cent of the budget was spent on education. There are about 3,000 primary schools and more than 100 secondary schools, with a total of nearly 400,000 pupils. There is a university at San José.

Tourism

The main tourist features are the Irazú and Poas volcanoes, the Orosi waterfalls and relics of Spanish colonial civilization. Tourists also visit San José, the capital, and the Pacific beaches of Puntarenas.

Visas are required by all visitors.

Sport

Football is the national sport and basketball, boxing, baseball, golf, tennis and swimming are also popular.

Public Holidays

1970: May 1 (Anniversary of the Second Battle of Rivas and Labour Day), May 28 (Corpus Christi), June 29 (St. Peter and St. Paul), July 25 (Anniversary of the Annexation of Guanacaste Province), August 2 (Feast of Our Lady of the Angels), August 15 (Feast of the Assumption and Mother's Day), September 15 (Independence Day), October 12 (Columbus Day), December 8 (Feast of the Immaculate Conception), December 25 (Christmas Day), December 28-31 (Bank Holidays).

1971: January 1 (New Year's Day), March 19 (Feast of St. Joseph), April 9-11 (Easter), April 11 (Anniversary of the Battle of Rivas).

THE CONSTITUTION

The present Constitution of Costa Rica was promulgated in November 1949; the present government has submitted three draft resolutions concerning further presidential terms, the banking system and the system of autonomous state agencies. A committee of lawyers was set up in mid-1967 to study the possibility of reforming the Constitution.

The government is unitary: provincial and local bodies derive their authority from the national government. The country is divided into seven provinces administered by a governor who is appointed by the President. The provinces are divided into cantons, and each canton into districts. There is an elected municipal council in the chief city of each canton, the number of its members being related to the population of the canton. The municipal council supervises the affairs of the canton. Municipal government is closely regulated by national law, particularly in matters of finance.

The government consists of three branches: legislative, executive and judicial. Legislative power is vested in a single chamber, the Legislative Assembly, which meets in regular session twice a year—from May 1st to July 31st, and from September 1st to November 30th. Special sessions may be convoked by the President to consider specified business. The Assembly is composed of 57 deputies elected for four years. The chief powers of the Assembly are to enact laws, levy taxes, authorise declarations of war and, by a two-thirds vote, suspend, in cases of civil disorder, certain civil liberties guaranteed in the Constitution.

Bills may be initiated by the Assembly or by the Executive and must have three readings, in at least two different legislative periods, before they become law. The Assembly may override the presidential vote by a two-thirds vote.

The Executive branch is headed by the President, who is assisted by his Cabinet. The President may not serve two successive periods of office, but may be re-elected after eight years. If he should resign or be incapacitated, the executive power is entrusted to the First Vice-President, and from him to the Second Vice-President, and finally to the President of the Legislative Assembly.

The President sees that the laws and the provisions of the Constitution are carried out, and maintains order. He has power to appoint and remove his ministers and diplomatic representatives; and to negotiate treaties with foreign nations (which are, however, subject to ratification by the Legislative Assembly). He is assisted in his duties by a Cabinet, each member of which is head of an executive department.

A novel feature of the Costa Rican Constitution is the clause outlawing a national army. Only by a continental convention or for the purpose of national defence may a military force be organised.

Suffrage is universal, compulsory and secret for persons over the age of 20; or, if they are completely independent, for persons over 18 years of age.

CUBA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Cuba is the largest island in the Caribbean, lying 90 miles south of Florida, U.S.A. Its other neighbours are Mexico, Jamaica and Haiti. The climate is tropical with the annual rainy season from May to October. The average annual temperature is 77°F (25°C) and hurricanes are frequent. The language is Spanish. The population is predominantly Roman Catholic. The flag has five horizontal bands, alternating blue, white, blue, white, blue, with a red triangle close to the staff, charged with a silver star. Havana (La Habana) is the capital.

Recent History

In 1959 the dictatorship of General Batista was overthrown by invading forces led by Dr. Fidel Castro who gradually established an authoritarian system of government. In 1961, Cuban exiles with some American support, attempted unsuccessfully to invade the island. The U.S.S.R. aids the Castro regime, economically and militarily, but the installation of rockets by the U.S.S.R. precipitated a crisis with the U.S.A. and late in 1962 the U.S.S.R. dismantled and withdrew the rockets. The country has been under an economic blockade by the U.S.A. since 1962. In 1965 Dr. Castro gave permission to leave Cuba to those who wished to do so. Since the revolution an estimated 500,000 people have left Cuba.

Government

Since the 1959 Revolution, Government has been administered under the Fundamental Law of the Republic. A President is appointed by the Prime Minister, who governs the country with the help of twenty Ministers. The country is divided into six provinces. There have been no elections since the Revolution.

Defence

Cuba receives considerable aid from communist countries. There is a national army and air force and a small navy. Most fit men and women belong to the Militia. Defence is the third largest item in the budget. Conscription was introduced at the end of 1963. Service is for a three-year period at 17 years of age. Conscripts work on the land in addition to their military duties.

Economic Affairs

Cuba's economy is basically agricultural and is closely organized by the state. In 1968 retailing and other forms of private business were nationalized. There has been some progress in building up local industries. Food rationing has been in force since March 1962, and clothes rationing was introduced in February 1963. The island depends to a large extent on economic aid from the U.S.S.R. and China and most of Cuba's trade is with the communist bloc, though relations with China deteriorated in 1965. Sugar production occupies half the cultivated land in Cuba and accounts for about 10 per cent of world production. Since 1964 Cuba has aimed to produce 10 million tons of sugar annually by 1970. 1969, however, produced the lowest crop since 1966,

several million tons short of the target. After the postponement of Christmas and other public holidays to continue the 1970 harvest uninterrupted, the crop by January had reached 2 million tons. Sugar accounts for approximately 85 per cent of Cuban exports. Tobacco is the second largest crop. The recent development of the cattle, poultry and fishing industries has led to claimed annual increases of 20 per cent in milk output and 50 per cent in egg production, while the average annual fish landing is 100,000 tons. The production of meat is also important. Cuba is rich in nickel deposits and there is also copper, chromite and manganese.

Transport and Communications

Railways and roads connect towns and important villages and further roads are being built. There are 3,000 miles of railways, and 5,000 km. of highways were completed by 1969 to reach a national total of 40,000 km. Geographically Cuba is a focal point for shipping and air services, but latterly traffic has been much reduced. A new airport was opened in 1966 at Holguín, and another is nearly completed at Bayamo. Following numerous hijacking incidents which have forced aircraft to land at Havana, severe laws to deal with hijackers were introduced in September 1969.

Social Welfare

A social security system provides for the unemployed and gives pensions to the old. Hospitals are free. Health care is the second largest item in the budget. Sick pay and retirement pensions equivalent to the full rate of earnings were introduced for selected categories of workers in 1968.

Education

Education is a very large item in the budget and in recent years illiteracy has been greatly reduced. Education is universal and free up to university level. At the primary stage, between the ages of six and twelve, it is compulsory. "Pre-school" national schools are run by the State for children of five years of age, and day nurseries are available for all children after their forty-fifth day. University students rely on the national scholarship plans, and those with family responsibilities are assisted by the Students Loans Plan. Workers undergoing university courses receive a state subsidy to provide for their dependants. Barracks and large residential houses have been converted to supply the urgent need for new school buildings, but the acute shortage of teachers is probably the major problem. Courses at Intermediate and Higher levels are created in accordance with the needs of the country, with emphasis on technology, agriculture and teacher training. Adult education centres have given basic education to over 350,000 people since 1962.

Tourism

Cuba has much to attract the tourist—forests, mountains, and a coastline with many bays and inlets and excellent bathing. There are the relics of the Spanish colonial days. There have been fewer tourists since the change of regime.

THE CONSTITUTION

THE 1940 Constitution, which was suspended during the uprising against General Batista, was re-established in 1959 by the Government of Dr. Fidel Castro. This declares the country to be an independent sovereign state under a republican form of government exercised by three powers—legislative, executive and judicial. The following liberties are guaranteed: freedom of movement; the inviolability of the person, the home and correspondence; religious toleration; freedom of conscience; the right of assembly; and freedom of the press. The Constitution contains a number of social security provisions. It lays down regulations for hours, wages, and for thirty days' paid holiday a year for manual workers.

There is universal suffrage for all citizens over twenty years of age.

Suspension or Amendment of the Constitution

The Constitution may only be amended, in whole or in part, by a two-thirds majority vote of the Council of Ministers. In times of national emergency certain articles of the Constitution may be suspended by the President for a term not exceeding ninety days, renewable if necessary.

The President

Executive power is vested in the President, who is elected by second-grade suffrage for a term of four years

and is only eligible for re-election after a lapse of eight years from the end of his term of office. He must be a Cuban citizen, either by birth or by naturalisation.

The President appoints the Premier and the Council of Ministers.

The President sanctions, promulgates and puts into execution laws submitted by the Council of Ministers and convokes extraordinary sessions of the Council of Ministers. He conducts negotiations with foreign powers and contracts treaties subject to their approval by the Council of Ministers; he also appoints judicial officers and diplomatic and consular representatives; he may overrule unconstitutional decisions of provincial governors and local councils and, finally, he acts as Commander-in-Chief of the Armed Forces. He may not leave the country without the authorisation of the Council of Ministers.

Legislative Power

Legislative power is exercised by the Council of Ministers.

Administration

The country is divided, for political and administrative purposes, into the following six provinces: Pinar del Río, Havana, Matanzas, Las Villas, Camagüey, and Oriente. These are further subdivided into 47 districts and 126 municipalities.

DAHOMY

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Dahomey is a narrow stretch of territory in West Africa, flanked by Nigeria and Togo. The climate is tropical, with average temperatures of 68°-93°F (20°-34°C) and heavy rainfall. It is hotter and drier in the north. French is the official language but each tribe has its own tongue. The majority of the people follow traditional beliefs and customs. Christians, mainly Roman Catholics, make up 15 per cent of the population and Moslems 13 per cent. The flag has a broad green vertical stripe in the hoist and two horizontal bands of yellow and red in the fly. The capital is Porto-Novo.

Recent History

Formerly one of the provinces of French West Africa, Dahomey became a self-governing republic within the French Community in December 1958, and an independent state in August 1960. It is a member (with Ivory Coast, Togo, Niger, Upper Volta) of the Conseil de l'Entente, which seeks to unify political, economic and administrative practices. Dahomey continues to be closely allied with France, but is not a member of the French Community. During President Apithy's term of office, on December 22nd, 1965, the Commander-in-Chief of the Armed Forces, General Christopher Soglo, assumed power. The National Assembly was dissolved and political parties were banned. Soglo was in turn deposed by a military coup which installed Lt.-Col. Alley, the Army Chief of Staff, as President in December 1967. In March 1968 the third constitution since independence was approved by referendum. After a large-scale boycott of the ensuing elections in May the military government refused to accept the results and in June announced the appointment (later confirmed by referendum) of Dr. Zinsou as President. In December 1969 power was again assumed by the army, led by the Chief of Staff, Lt.-Col. Maurice Kouandété, who had himself escaped kidnapping and assassination earlier in the year. A Directory of three men was established to govern until a return to constitutional rule can be organized.

Government

Dahomey is a republic ruled by a Directory of three army officers, who jointly act as head of state and who share all ministerial responsibilities pending the return to government under the 1968 constitution. Presidential elections held in March 1970 were annulled and a national government is to be formed by the Directory.

Defence

Citizens of both sexes are liable for military service between the ages of eighteen and fifty-one years. The Army strength is 2,500 and a National Gendarmerie of 1,200 men. France provides technical assistance and equipment.

Economic Affairs

About 80 per cent of Dahomey's population work on the land, but farming is generally at subsistence level, and exportable surpluses are limited. The Five-Year Plan, 1966-70, concentrated on developing agriculture, particularly palm, groundnut and cotton production. Forestry and fisheries are also encouraged. France provides most of the capital for this plan, and also subsidizes the current budget. Dahomey is an Associate Member of the EEC and a member of the West African Monetary Union.

Transport and Communications

Transport services are few; three short sections of railway run inland from Cotonou, and the coast road links Togo in the west and Nigeria in the east. The new port at Cotonou was officially inaugurated in August 1965.

Education

Education is provided by both the Government and the Christian missions, but many more schools are needed. There is no higher education and students go either to France or Senegal.

Tourism

Dahomey is making great efforts under the Five-Year Plan to encourage tourism. Safaris can be arranged to visit the two National Parks, the "W" Park and the Park of Pendjari, and the numerous hunting reserves.

Visas are not required by French nationals.

Sport

There is little organized sport but football is generally popular. Big game hunting in the reserves is possible for tourists.

THE CONSTITUTION

The third constitution since independence was approved by 846,521 votes to 71,695 in a referendum on March 31st, 1968. The first presidential election under the new constitution was declared void after a widespread boycott of voting and the army later appointed Dr. Emile Zinsou as President. His appointment was confirmed by referendum on July 28th, 1969, and his new government was announced on July 31st, when the Revolutionary Military Committee ceased to function.

The army assumed power again on December 10th, 1969, when the constitution was temporarily suspended. A Directory of Lt.-Col. Maurice Kouandété, leader of the coup, Lt.-Col. de Souza and Lt.-Col. Benoit Sinzogan took over the functions of head of state and all ministerial responsibilities until a return to constitutional rule could be organized. It was announced on December 31st that presidential elections could not take place until a sole candidate had been chosen by responsible politicians, who had been urged to return to political life. However, four candidates, including three former presidents, eventually contested the elections during March 1970. At the beginning of April the Directory annulled the elections because of irregularities, and violent disturbances in the north-east of Dahomey. A national government is to be formed.

The Preamble of the Constitution emphasizes that "the

realization of national unity is the indispensable pre-condition for the progress of the country" and condemns "tyranny, injustice, corruption, extortion, regionalism and nepotism". The citizen is guaranteed his fundamental human rights and has recourse to the Supreme Court for redress for unconstitutional laws and acts.

The President of the Republic has supreme executive power, determining state policy and appointing the members of the government, who are responsible to him. The President must be over 35 years of age. He is elected by two ballots, only the two candidates with the most votes on the first ballot going on to the second one. The President can stand for re-election.

Legislative power is exercised by the National Assembly, which is elected for five years. Approval for government proposals can only be given by a majority of at least two-thirds.

The Army "guarantees the existence of the government chosen by the people and participates in the task of national construction".

The Judiciary is independent of the executive and legislature.

There is one political party, created for five years "to work out the general policy of the country".

DOMINICAN REPUBLIC

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Dominican Republic occupies (and shares with Haiti) the greater part of the island of Hispaniola between Cuba and Puerto Rico in the Caribbean Sea. The climate is sub-tropical with an average temperature of 80°F (27°C). The island lies in the path of tropical cyclones. The official language is Spanish. Over 60 per cent of the population are Roman Catholics. There are small Protestant and Jewish communities. The flag is red and blue quartered by a white cross. The capital is Santo Domingo.

Recent History

The Dominican Republic was ruled from 1930 to 1961 by the dictatorial government of Rafael Trujillo. After Trujillo's assassination, a transitional government composed of a seven-man Council of State was set up. Elections were held in December 1962 and Juan Bosch of the Dominican Revolutionary Party was elected President. This administration was overthrown by a military *coup* in September 1963. Six right-wing parties endorsed the appointment of a civilian Triumvirate led by Emilio de los Santos. After a further *coup* in April 1965 forces of the Organization of American States were called in to restore order. Dr. Hector Garcia Godoy became provisional President; elections were held in June 1966 and resulted in victory for Dr. Joaquín Balaguer. In March 1970 the United States Air-Attaché was kidnapped, and ransomed for 21 political prisoners. Presidential elections are due to be held in May 1970.

Government

Following the elections in June 1966, 27 senators and 74 representatives were elected for 4-year terms.

Defence

The Republic is a member of the Inter-American Defense Board. Armed Forces total about 17,000 men: Army 12,000, Air Force 3,000 and Navy 2,000.

Economic Affairs

Seventy per cent of the population live on the land and most exports are agricultural. The main cash crops are sugar, coffee, cocoa and tobacco. Only two-fifths of the cultivable land is in use and the Government is introducing irrigation projects and re-settlement schemes. Manufacturing on a small scale covers a wide range of consumer goods. Mineral resources are being developed, the most important product being bauxite. The country's first oil refinery, to be built at Nigua, is expected to be working in 1970, with a daily capacity of 30,000 barrels. A Public Works programme costing RD\$40m. was launched in 1966, mainly covering agriculture and allied schemes; the main project is the Taveras dam, which will eventually cost RD\$60m. In 1967, to halt the waste of forest resources, all saw-mills were closed down for a period of at least ten years and the destruction of trees now constitutes a crime. In 1967-68 severe drought led to a 40 per cent cut in sugar production.

Transport and Communications

Transport facilities are limited and about 80 per cent of the railways are used solely to carry sugar from the plantations. Roads are the main means of communication and the network includes some modern motorways. There is no inland waterway system and very little coastal shipping. A number of shipping lines link the island with the United States and other Caribbean islands. There are internal and international air services, the only international airport being at Punta Caucedo.

Social Welfare

There is no comprehensive system of state welfare but the Government provides some medical and health services.

Education

Primary education is free and, where possible, compulsory from the ages of seven to fourteen. In 1966-67 primary school enrolment totalled 584,522, and an estimated 78,000 students received secondary education. There are three universities.

Tourism

Efforts are now being made to develop the tourist industry. Hotels, casinos and seaside resorts are being built and tours have been organized to the old Spanish colonial settlements.

Visas are not required to visit the Dominican Republic by nationals of Belgium, Denmark, France, German Federal Republic, Japan, Luxembourg, Netherlands, Switzerland and the United Kingdom. A tourist card is available for visits of up to 15 days.

Sport

The favourite sport is baseball but swimming and water sports are also popular.

Public Holidays

1970: May 1 (Labour Day), May 7 (Ascension Day), May 28 (Corpus Christi), August 15 (Assumption), August 16 (Restoration Day), September 24 (Mercedes), October 12 (Discovery of America), November 1 (All Saints Day), December 25 (Christmas Day).

1971: January 1 (New Year's Day), January 6 (Epiphany), January 21 (Altagracia), January 26 (Duarte), February 27 (Independence Day), March 19 (St. Joseph), April 8-9 (Maundy Thursday, Good Friday).

Weights and Measures

The Metric System is officially in force but the Imperial system is often used.

Currency and Exchange Rate

The currency unit is the Dominican Republic Peso (RD\$) of 100 Centavos.

Coins: 1, 5, 10, 25, 50 Centavos; 1 RD\$.

Notes: 1, 5, 10, 20, 50, 100, 500, 1,000 RD\$.

Exchange rate: 2.4 RD\$ = £1 sterling

1.00 RD\$ = \$1 U.S.

DOMINICAN REPUBLIC—(THE CONSTITUTION)

THE CONSTITUTION

The present constitution of the Dominican Republic was promulgated on November 28th, 1966. Its main points are:

The Dominican Republic is a sovereign, free, independent State; no organizations set up by the State can bring about any act which might cause direct or indirect intervention in the internal or foreign affairs of the State or which might threaten the integrity of the State. The Dominican Republic recognizes and applies the norms of general and American international law and is in favour of and will support any initiative towards economic integration for the countries of America. The civil, republican, democratic, representative Government is divided into three independent powers: legislative, executive and judicial.

The territory of the Dominican Republic is as laid down in the Frontier Treaty of 1929 and its Protocol of Revision of 1936.

The life and property of the individual citizen are inviolable; there can be no sentence of death, torture or any sentence which might cause physical harm to the individual. There is freedom of thought, of conscience, of religion, freedom to publish, freedom of unarmed association, provided that there is no subversion against public order, national security or decency. There is freedom of labour and trade unions; freedom to strike, except in the case of public services, according to the dispositions of the law.

The State will set about agrarian reform, dedicating the land to useful interests and gradually eliminating the latifundios. The State will do all in its power to support all aspects of family life. Primary education is compulsory and all education is free. Social security services will be developed. Every Dominican has the duty to give what civil and military service the State may require of him. Every legally entitled citizen must exercise his right to vote. Citizens are all persons over the age of eighteen and all who are or have been married even if they are not yet eighteen.

Legislative Power is exercised by Congress which is made up of Senate and Chamber of Deputies, elected by direct vote. *Senators*, one for each province and one for the Distrito Nacional, are elected for four years; they must be Dominicans in full exercise of their citizen's rights, over 25. Their duties are to elect judges, the president and other members of the Electoral and Accounts Councils, approve the nomination of diplomats. *Deputies*, one for every 50,000 inhabitants or fraction over 25,000 in each province and the Distrito Nacional, are elected for four years and must fulfil the same conditions for election as Senators.

Decisions of Congress are taken by absolute majority of at least half the members of each house; urgent matters require a two-thirds majority. Both houses normally meet on February 27th and August 16th each year for sessions of 90 days, which can be extended for a further 60 days.

Executive Power is exercised by the President of the Republic, who is elected by direct vote for a four-year term. He and the Vice-President must be Dominican citizens by birth or origin, over 30 years of age and in full

exercise of their citizen's rights; they must not have engaged in any active military or police service for at least a year prior to their election. They take office on August 16th following their election. The *President of the Republic* is Head of the Public Administration and Supreme Chief of the armed forces and police forces. His duties include nominating Secretaries and Assistant Secretaries of State and other public officials, promulgating and publishing laws and resolutions of Congress and seeing to their faithful execution, watching over the collection and just investment of national income, nominating, with the approval of the Senate, members of the Diplomatic Corps, receiving foreign Heads of State, presiding at national functions, decreeing a State of Siege or Emergency or any other measures necessary during a public crisis. The President may not leave the country for more than 15 days without authorization from Congress. In the absence of the President, the Vice-President will assume power, or failing him the President of the Supreme Court of Justice.

Judicial Power is exercised by the Supreme Court of Justice and the other Tribunals; no judicial official may hold another public office or employment, other than honorary or teaching. The Supreme Court is made up of at least nine judges, who must be Dominican citizens by birth or origin, at least 35 years old, in full exercise of their citizen's rights, graduates in law and have practised professionally for at least 12 years. There are also five Courts of Appeal, a Lands Tribunal and a Court of the First Instance in each judicial district; in each Municipality and in the Distrito Nacional there are also Justices of the Peace.

Government in the Distrito Nacional and the Municipalities is in the hands of local councils, with members elected proportionally to the number of inhabitants, but numbering at least five. Each Province has a civil Governor, designated by the Executive.

All citizens must exercise their suffrage. Elections are directed by the Central Electoral Council. The Armed Forces are essentially obedient and apolitical, created for the defence of national independence and the maintenance of public order and the Constitution and Laws.

The artistic and historical riches of the country, whoever owns them, are part of the cultural heritage of the country and are under the safekeeping of the State. Mineral deposits belong to the State. There is freedom to form political parties, provided they conform to the principles laid down in the Constitution. Justice is administered without charge throughout the Republic.

This Constitution can be reformed if the proposal for reform is supported in Congress by one third of the members of either house or by the Executive. A special session of Congress must be called and any resolutions must have a two-thirds majority. There can be no reform of the method of government, which must always be civil, republican, democratic and representative.

ECUADOR

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Ecuador is a small equatorial country lying on the west coast of South America. Its neighbours are Colombia to the north and Peru to the east and south. The famed Galápagos Islands, 500 miles out in the Pacific, belong to Ecuador. The climate is temperate in the highlands with an average temperature of 55°F (13°C) and hot and humid in the lowlands. The official language is Spanish. About 90 per cent of the population is Roman Catholic and there are Protestant and Jewish minorities. The flag is a horizontal tricolour of yellow, blue and red, the yellow strip being twice the depth of the other two; in the centre is the national emblem. The capital is Quito.

Recent History

In 1961 labour groups, left-wing parties and the Armed Forces overthrew President Velasco who was forced into exile. Despite the declared policy of his successor, President Arosemena, to establish closer ties with Communist countries and Cuba, the Government voted to break off diplomatic relations with Cuba, Poland and Czechoslovakia in 1962. In July 1963, President Arosemena was deposed after an Army coup; a Military Junta was set up, headed by Rear-Admiral Ramón Castro Jijón, and martial law was proclaimed. This junta was forced to resign in March 1966, and Clemente Yerovi Indaburu was installed as Acting President. Following the elections of October 16th, 1966, Dr. Otto Arosemena Gómez became provisional President. Dr. José María Velasco Ibarra was elected as President in June 1968. Ecuador is a member of the UN, the Organization of American States, the Alliance for Progress and the Latin American Free Trade Association.

Government

The Senate and Chamber of Deputies were dissolved by the Military Junta in July 1963, when the constitution was suspended; this was reinstated in March 1966 and elections for a National Assembly took place later in 1966. A special assembly was convened in November 1966 to discuss constitutional reform. The country is divided into 19 Provinces and the National Territory of the Galápagos Islands. Each Province has a Governor appointed by the President.

Defence

Military service is compulsory for one year at the age of twenty. Defence expenditure is the second largest item in the Budget. The Armed Forces consist of about 32,000 men: Army 20,000, Navy 7,000 and Air Force 5,000.

Economic Affairs

The economy is dominated by three commodities: bananas, coffee and cocoa. Ecuador is the world's largest exporter of bananas. The extensive forests yield valuable hardwoods, including balsa, of which Ecuador is the world's largest producer. Minerals include gold, silver, lead and petroleum. The major industries are oil-refining, sugar-refining and cement. A Development Plan 1964-73

envisaging expenditure of \$250m. p.a. was approved by the Alliance for Progress which is contributing \$173m. A programme of border-zone economic integration with Colombia is under way; projects include improving transport facilities and social services. The 1967-76 electricity development programme provides for the installation of four plants with a total capacity of 500,000 kW; one of the projects is at Pisayambo, near Ambato, and will have a total installed capacity of 140,000 kW; total cost of the programme will be 6,200m. sucres, of which 3,500m. will be obtained from abroad. The Provinces of Oriente are being developed and tropical agriculture, including tea and pyrethrum, of which Ecuador is likely to become one of the world's main producers, is gaining in importance. Following the discovery of nine new oilfields in Ecuador, a pipeline is to be constructed by Texaco Inc. and Gulf Oil, running across the Andes to the port of Esmeraldas, and is scheduled for completion in mid-1972.

Transport and Communications

Communications are rendered difficult by mountains and forests. There are 615 miles of railway track, the main railway extending from the coast to Quito and beyond. The Pan-American Highway runs for 868 miles through the country with branch roads to the coast. Near the coast the lower reaches of the rivers Guayas, Mira and Esmeraldas are navigable for about 120 miles. There are a number of seaports of which Guayaquil and Manta are the most important. Four Ecuadorean companies and a number of foreign lines operate internal and international air services.

Social Welfare

Social insurance is compulsory for certain groups of both public and private employees. Benefits are available for sickness, industrial accidents, disability, maternity, old age, widowhood and orphanhood. Hospitals and welfare institutions are run by Central Public Assistance Boards.

Education

Education is compulsory where school places are available. All public schools are free, and considerable co-operation exists between them and the private religious schools which continue to play a vital role in the educational system. Primary education covers the ages of six to twelve and secondary education twelve to eighteen. University courses extend for up to six years and include programmes for teacher training. About 50 per cent of primary school pupils proceed to secondary education, of which only 6 per cent reach university. As part of the current literacy campaign a number of adult schools and literary centres have been built. There are seven universities.

Tourism

The main tourist attractions are the magnificent mountain and forest scenery of the highlands, the tropical jungles of the Upper Amazon and the relics of Indian and Colonial Spanish cultures. There are a number of coastal resorts from which deep-sea fishing is possible. Scientific expeditions visit the Galápagos Islands.

THE CONSTITUTION

The present Constitution of Ecuador was promulgated by the National Assembly on May 25th, 1967. Under it, legislative power is vested in Congress, which is composed of two chambers. They assemble twice a year for a period of sixty days. Members of the Senate are elected for a four-year term, and may be re-elected. There are two senators for each province and one for the Archipelago of Colón. In addition, fifteen "functional" senators are designated by bodies representative of educational institutions, learned societies, the Press, the armed forces; and by labour, industry, agriculture and commerce, in the *sierra* and in the *litoral*.

The Chamber of Deputies has seventy-two members elected for a two-year term. Members are eligible for re-election.

In addition to its law-making duties, Congress supervises the administration and expenditure of the national revenues; ratifies treaties; elects members of the Supreme and Superior Courts; and, from panels presented by the President, the Comptroller-General, the Attorney-General and the Superintendent of Banks. It is also able to overrule the President's amendment or rejection of a bill which it has submitted to him for his approval, and may grant or refuse the grant of extraordinary powers to the President.

The presidential term is four years. An ex-President may only be re-elected after four years have elapsed from

the date of his terminating office. The President appoints his own cabinet, the governors of provinces, diplomatic representatives and certain administrative employees, and is responsible for the direction of international relations. In the event of foreign invasion or internal disturbance, extraordinary powers may be given him by Congress, or by the Council of State if Congress is not in session.

The Constitution also provides for a Legislative Committee, consisting of nine members, to draw up bills (with the exception of those dealing with economic questions), and codify and edit laws.

The new constitution is interesting in that it makes specific dispositions concerning Ecuador's possible participation in international associations; it also recognizes international law as the norm of conduct in its relations with associated nations.

As in other post-war Latin-American Constitutions, particular emphasis is laid on the functions and duties of the State, which is given wide responsibilities with regard to the protection of labour; assisting in the expansion of production; protecting the Indian and peasant communities; and organizing the distribution and development of uncultivated lands, by expropriation where necessary.

Every Ecuadorean citizen, male or female, who is literate and over 18 years of age, may vote. Voting is compulsory for all citizens.

EL SALVADOR

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

El Salvador is a small country lying on the Pacific coast of the isthmus of Central America. It is bounded by Guatemala to the west and Honduras to the north and east. The climate varies from the tropical coastal plain to the temperate uplands. The language is Spanish. Eighty-eight per cent of the population are Roman Catholic. The flag consists of three horizontal stripes, blue, white and blue, the central stripe bearing the national coat of arms. The capital is San Salvador.

Recent History

In 1960 President Lemus was deposed by a five-man Junta, the Junta itself being overthrown in 1961 by a Civil-Military Directorate. A new Constitution was introduced in 1962 following elections for the Legislative Assembly. In April 1962 Lt.-Col. Julio Adalberto Rivera, the only candidate, was elected President. Long-standing hostilities with Honduras came to a head in June 1969 when undeclared war broke out between the two countries, precipitated by a Salvadorean football victory over the Hondurans in San Salvador. A cease-fire was imposed through the intervention of the OAS, and on July 29th El Salvador agreed to withdraw troops from Honduras. Relations deteriorated again at the end of the year and there were fresh border incidents in early 1970. El Salvador is a member of the UN, the Organization of American States, the Alliance for Progress and the Organization of Central American States.

Government

Executive power is vested in the President, elected by popular vote for a five-year term, assisted by the Cabinet. The legislative organ is the unicameral Legislative Assembly consisting of 52 deputies elected by proportional representation. The country is divided into 14 departments.

Defence

A period of National Service is compulsory between the ages of eighteen and thirty. The total strength of the Army, Navy and Air Force is fixed annually by the Legislative Assembly and is never less than 3,000 men. In 1969 it totalled 6,600. El Salvador has a military bloc alliance with Guatemala and Nicaragua.

Economic Affairs

The economy is agricultural and about 60 per cent of the population work on the land. The principal crop is coffee, which furnishes half of exports. Other products are cotton, maize, rice and sugar. Commercial fisheries have been established in recent years, and fish and shellfish are the third biggest export earner. Industry is being developed and a steel works has been erected. Electric power has been substantially increased by building a dam across the Lempa river. El Salvador is associated with the other Central American states in the Central American Common Market.

Transport and Communications

The transport network is well developed. Railways are operated by two companies and there are 450 miles of track. The Pan American Highway bisects the country and a parallel coastal highway with interconnecting roads is under construction. The chief port is Acajutla, where improvements costing 12m. colones are under way. La Union and La Libertad also provide good port facilities. Two domestic airlines and seven foreign ones provide international services from the airport at Ilopango, which is equipped for jet aircraft. The country is too small to require internal air transport.

Social Welfare

The social welfare system provides for medical services and benefits for industrial injuries, sickness, maternity and old age.

Education

There are about 3,500 public and private schools with over 400,000 pupils, a national university with some 4,000 students, and a recently established private university.

Tourism

El Salvador was one of the centres of the ancient Mayan civilization and the ruined temples and cities are of great interest. The volcanoes and lakes of the uplands provide magnificent scenery and there are fine beaches along the Pacific coast.

Visas are not required to visit El Salvador by nationals of Costa Rica, Guatemala, Honduras, Nicaragua or any West European country (except Italy and Portugal).

Sport

El Salvador has a number of stadiums for national and international fixtures. Football, basketball, baseball and athletics are the most popular sports, and numerous lakes and beaches are used for water sports.

Public Holidays

1970: May 1 (Labour Day), May 10 (Mother's Day), May 28 (Corpus Christi), August 3-7 (Festival), September 15 (Independence Day), October 12 (Discovery of America), November 2 (All Souls' Day), November 5 (First Call of Independence), December 24, 25 (Christmas).

1971: January 1 (New Year's Day), April 9-11 (Easter).

Weights and Measures

The Metric System is in force.

Currency and Exchange Rate

The currency unit is the Colon of 100 Centavos. In common with the other members of the Central American Common Market, El Salvador has adopted the Central American Peso (C.A. \$) for transactions within the Market. This peso is at par with the U.S. dollar.

Coins: 1, 3, 5, 10, 25, 50 Centavos.

Notes: 1, 2, 5, 10, 25, 100 Colones.

Exchange rate: 5.98 Colones = £1 sterling
2.49 Colones = \$1 U.S.

THE CONSTITUTION

The new Constitution of January 1962 provides for a republican, democratic and representative form of government, composed of three Powers—Legislative, Executive, and Judicial—which are to operate independently. Voting is a right and duty of all citizens over eighteen years of age. Presidential and congressional elections may not be held simultaneously.

The Constitution binds the country, as part of the Central American Nation, to favour the total or partial reconstruction of the Republic of Central America. The Executive may, with the approval of the Legislature, endeavour to bring this about in a federal or unitary form, without seeking the approval of a constituent assembly, provided that republican and democratic principles are respected and the basic rights of individuals and of groups fully guaranteed in the new State.

The Legislative Power is vested in a single Chamber, the Legislative Assembly, whose members are elected every two years and are eligible for re-election. The Assembly meets in ordinary session on June 1st and December 1st. Extraordinary sessions may be convened by the Executive or by the Permanent Commission. The Assembly's duties include the choosing of the President and Vice-President of the Republic from the two citizens who shall have gained the largest number of votes for each of these offices, if no candidate obtains an absolute majority in the election. It also selects the members of the Supreme and subsidiary courts; of the Elections Council; and the Accounts Court of the Republic. It fixes taxes; gives

power to the Executive to negotiate internal and external loans; sanctions the Budget; regulates the monetary system of the country; determines the conditions under which foreign currencies may circulate; and suspends and re-imposes constitutional guarantees. The right to initiate legislation may be exercised by the Assembly (as well as by the President through his ministers and by the Supreme Court). The Assembly may over-ride by a two-thirds majority the President's objections to a Bill which it has sent to him for approval.

The President is elected for five years, his term beginning and expiring on July 1st. The principle of alternation in the presidential office is established in the Constitution, which states the action to be taken should this principle be violated. The Executive is responsible for the preparation of the Budget and its presentation to the Assembly; the direction of foreign affairs; the organization of the armed and security forces; and the convening of extraordinary sessions of the Assembly. In the event of his death or incapacity, the Vice-President takes his place for the rest of the presidential term; and, in case of necessity, the Vice-President may be replaced by one of the three Designates elected by the Legislative Assembly for a period of two years.

The Judicial Power is exercised by a Supreme Court and by other competent tribunals. The Supreme Court is composed of ten members elected by the Legislature. It alone is competent to decide whether laws, decrees and regulations are constitutional or not.

EQUATORIAL GUINEA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Equatorial Guinea, formerly Spanish Guinea, consists of the islands of Fernando Póo, Corisco, Great Elobey and Small Elobey, and Annobón, and the mainland territory of Rio Muni, on the west coast of Africa. Cameroon lies to the north and Gabon to the east and south of Rio Muni, while Fernando Póo lies offshore from Cameroon and Nigeria. The small island of Annobón lies far to the south, beyond the Portuguese possessions of Príncipe and São Tomé. The climate is hot and humid with average temperatures over 80°F. (26°C.). The official language is Spanish. In Rio Muni the Fang language is spoken, as well as those of coastal tribes such as the Combe, Bujeba, etc., while in Fernando Póo the principal local language is Bubi, though Pidgin English and Ibo are also widely understood. The main religion is Catholicism, with reduced nuclei of Protestants in Santa Isabel and in Rio Muni. The flag has green, white and red horizontal bands with a blue triangle superimposed. The capital is Santa Isabel in Fernando Póo.

Recent History

After 190 years of Spanish rule, which had been nominal on Fernando Póo until 1858 and in Rio Muni until around the beginning of the twentieth century, independence was declared on October 12th, 1968, following a referendum among the whole population on the proposed constitution. In presidential elections held in September 1968 the Prime Minister of the autonomous government, Sr. Bonifacio Ondo Edu was defeated by Sr. Francisco Macías Nguema. Sr. Macías formed a coalition government from all the parties represented in the new National Assembly. Equatorial Guinea is a member of the OAU and United Nations. Relations with Spain became strained early in 1969 after a series of anti-white incidents, and an attempted coup d'état by the Foreign Minister, Atanasio Ndongo Miyone, who was killed. The President announced in March 1969 that a new constitution would be drafted to replace that "imposed" by Spain before independence.

Government

Under the independent constitution, Equatorial Guinea is a democratic republic with a presidential system of government. The executive is directly responsible to the President, while there is an elected legislature of 35 deputies. A Council of the Republic has the function of resolving conflicts between the executive and legislative bodies. Justice is independent of the executive; the highest court is the Supreme Tribunal. Each of the two Provinces has its own Provincial Council elected by universal suffrage.

Defence

There is a small army. Spain withdrew her forces following the crisis of March 1969.

Economy

The economy is almost entirely based on agriculture, the principal products being cocoa, coffee, palm-oil, bananas and okoumé timber. About 90 per cent of the total cocoa production comes from Fernando Póo, where there are

1,000 plantations (800 African-owned) covering more than 41,000 hectares. In Rio Muni 10,200 hectares are devoted to cocoa. Coffee and timber are mainly produced in Rio Muni, which is heavily forested. The main markets for timber exports are Spain and Federal Germany. Livestock is insignificant and fishing is still little developed, except off Fernando Póo, where a Spanish concern operates a fishing fleet. Industry is completely in Spanish hands, except for a few Fernandino entrepreneurs. Exploration for oil, both onshore and offshore, will begin during 1970 when Continental Oil of Equatorial Guinea is expected to start preliminary operations. Spain has covered the budget deficit with a subsidy of about 426 million pesetas in 1969-70, and she has also advanced the gold quota necessary for the admission of Equatorial Guinea to the IMF. In addition Spain has assisted in the creation of a national bank and has ensured the convertibility of the Guinean peseta. Spanish aid has been formalized by the conclusion of an agreement on economic co-operation.

The per capita annual income on Fernando Póo is about \$330, while in Rio Muni, where the bulk of the population lives, it is about \$130.

Transport and Communications

Main roads link the principal centres in the two provinces with about 160 km. of road on Fernando Póo and about 1,015 km. in Rio Muni. The principal communications between the provinces are by air. There are no railways.

Social Welfare

There is a fairly adequate health service with 5 hospitals and a leprosy centre. In 1966 there were 1,635 beds. With the exception of 5 or 6 Africans all the doctors were Spanish at independence, and their departure after the March 1969 crisis has created serious problems which are still unresolved, despite international assistance.

Education

Elementary schools provide compulsory education until the age of 12, and primary schools continue it until 14. Secondary education is provided by one centre in Santa Isabel, another at Bata and a third in the Rio Muni frontier outpost of Ebebiyin. Sixth formers sit for the Bachillerato General. Bata has a technical secondary school which prepares for the Bachillerato Laboral. Santa Isabel also has an Escuela Superior, which has educated all the older political and administrative personnel of the country. Bata and Santa Isabel each have a teacher-training school. There is no university and about 100 students study abroad, mainly in Spain.

Tourism

Tourism is hardly developed at all. Entry of Spanish nationals is subject to an authorization from the Ministry of Foreign Affairs in Santa Isabel.

STATISTICAL SURVEY

Area: 28,051 sq. km. (Rio Muni 26,000 sq. km.).

Population:

Main Ethnic Groups:

Rio Muni: (1) The Fang (Pamue in Spanish parlance) are the main group, divided by the Benito River into the Ntumo Fang and the Okak Fang. Their total is estimated at 80-90 per cent of the population of Rio Muni. (2) The coastal tribes—the Combe, Balengue, Bujeba, etc. (3) Hausa traders. (4) Ibo, Ibibio and Efik workers contracted from Nigeria for the timber industry.

Fernando Póo: (1) The Bubi, the oldest living tribe on the island, have decreased in numbers to about 15,000 now. (2) The Fernandinos, previously an aristocracy descended from former slaves freed by the British and immigrants from Sierra Leone, Ghana, Nigeria and Cameroon, at present number a few thousand. (3) Continental Rio Munians (chiefly Fang), whose numbers have increased considerably since independence. (4) Nigerian contract workers and dependents on the cocoa plantations may make up half the population of the island, over 30,000. (5) Annobonians comprise about 1,500 fishermen and sailors.

Totals: (1960) Rio Muni 183,377 (2,864 Europeans), Fernando Póo 61,557 (4,170 Europeans), Annobón 1,403, Santa Isabel (capital, on Fernando Póo) 37,185, Bata (in Rio Muni) 27,024. (1968) Total estimated population 250,000.

The European population has decreased considerably since the March 1969 crisis, and there are now probably less than 100 Spaniards left in Rio Muni and about 1,000 on Fernando Póo.

Agriculture: Cocoa 1966-67, 38,207 tons; 1968, 33,192 tons. Coffee 1967, 8,065 tons; 1968, 8,450 tons.

THE CONSTITUTION

The constitution of Equatorial Guinea was approved by referendum on August 15th, 1968, and came into force on October 12th, 1968.

The constitution recognizes the United Nations Declaration of Human Rights, and proclaims the democratic nature of the Republic. The system of government is presidential, and all governing bodies are elected by universal adult suffrage.

The executive body is a Council of Ministers, appointed by the President and responsible to him. The legislative arm is an elected Assembly of 35 deputies, who also exercise some control over the actions of Ministers. A Council of the Republic, with three members each from Fernando Póo and Rio Muni elected by the respective Province Councils, has the function of mediating in any dispute between the executive and legislature, and of resolving any conflict of authority between the central government and the Province Councils.

The two Province Councils have specified responsibilities

under the constitution; the Councils are elected by universal adult suffrage.

The administration of justice is guaranteed by the Constitution according to principles of independence, security of office and responsibility. The Supreme Tribunal, situated in Santa Isabel, is the highest judicial authority.

Guinean nationals are defined for the purposes of elections as all persons of African origin born in Equatorial Guinea, and their children, provided in both cases that they possessed Spanish nationality before October 12th, 1968. There are four electoral districts: Rio Muni (19 deputies), Fernando Póo (12 deputies), Annobón (2 deputies) and the islands of Coriseo, Elobey Grande and Elobey Chico (2 deputies). In the first two, representation is proportional, based on party lists; in the two smaller districts, there is a simple majority list system.

Representation in the Council of Ministers is also proportional; at least one third of the members must be drawn from Fernando Póo.

ETHIOPIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Empire of Ethiopia extends inland from the Red Sea coast. It has a long frontier with Somalia near to the Horn of north-east Africa. The Sudan lies to the west and Kenya to the south. The climate is mainly temperate because of the high plateau terrain, with an average annual temperature of 55°F (13°C), abundant rainfall and low humidity. The lower country and valley gorges are very hot. The official language is Amharic but English is widely used, and Arabic is spoken in the Eritrea province. The Ethiopian Coptic Church has a wide following in the north and on the southern plateau. In much of the south and east there are Muslims and followers of animist beliefs. The flag consists of three horizontal stripes, green, yellow and red. The capital is Addis Ababa.

Recent History

Since the liberation of Ethiopia from Italian occupation in May 1941, the Emperor Haile Selassie I has ruled the country, receiving initial aid from Britain. In 1952 Eritrea, formerly a UN Trust Territory administered by Italy, was federated to Ethiopia. It became a Governorate in 1962; a banned Eritrean separatist movement is still active. In 1960 an attempted *coup d'état* during the Emperor's absence was crushed by loyal forces. Ethiopian troops have taken part in UN actions in Korea and the ex-Belgian Congo. Ethiopia and Somalia dispute the south-eastern border and have rival claims to French-ruled Djibouti, but relations have recently improved. The aged Emperor continues to play a leading part in international diplomacy, most recently over the Nigerian civil war. Addis Ababa is the headquarters of the Organization of African Unity (OAU), and the UN Economic Commission for Africa (ECA).

Government

Government is vested in a Council of Ministers responsible to the Emperor, and a parliament consisting of a Senate and a Chamber of Deputies. The Senators are nominees of the Emperor; Deputies are elected by universal suffrage. Ethiopia is divided into 14 General Governorates and 82 Provinces.

Defence

Ethiopia maintains a Regular and a Territorial Army, an Air Force and a Navy. The United States operates a strategic military centre at Asmara, and also has a number of military advisers in the country.

Economic Affairs

Coffee is the most valuable crop and export. Grain crops, oilseeds and hides and skins are also exported. There is scope to develop forestry and industry, growth depending on better transport and the exploitation of hydro-electric power. Nearly 90 per cent of the population still works on the land and there is much poverty, per capita income being amongst the lowest in Africa. Rapid population growth has tended to cancel out recent gains in agricultural production.

Transport and Communications

There is a railway from Addis Ababa to Djibouti and a narrow-gauge track from Massawa to Akordat near the Sudan border. There are plans to extend the railway in the south to provide a service between Nazareth and Sidamo. There are 6,300 km. of all-weather roads and 20,000 km. of dry-weather roads. Bus services link provincial centres to the capital. There are 33 airfields. The port of Assab can handle up to a million tons of goods a year, and attracts some of the trade which formerly went to French-governed Djibouti.

Social Welfare

The scope of modern health services has been greatly extended since 1960, but they still reach only a small part of the population. With foreign assistance health centres and clinics are steadily expanding into the rural areas.

Education

Education in Ethiopia is free. However, only about 10 per cent of eligible children attend schools, of which there are few in rural areas and still fewer outside the Amharic areas. Thus little progress has been made in reducing the illiteracy rate of about 90 per cent, and the shortage of educated personnel is a serious brake on economic development. There are universities at Addis Ababa and Asmara.

Tourism

The chief tourist attractions are big game hunting, the early Christian monuments and churches, and the ancient capitals of Gondar and Axum.

Visas are required by all visitors.

Sport

Football, athletics, cycling, basketball, swimming, boxing, horse-riding and tennis are all popular sports.

Public Holidays

1970: May 5 (Liberation Day), July 23 (Emperor's Birthday), August 22 (Assumption), September 11 (New Year's Day), September 27 (Feast of Maskal), November 2 (Coronation Day).

1971: January 7 (Christmas), January 19 (Feast of Timkat), January 20 (St. Michael), February 20 (Martyrs Day), March 2 (Battle of Aduwa), April 16-19 (Easter).

(Note: Ethiopia uses its own solar calendar; the Ethiopian year 1963 begins on September 9th, 1970.)

Weights and Measures

The Metric System is officially in use. There are many local weights and measures.

Currency and Exchange Rate

The Ethiopian Dollar, divided into 100 cents, is the unit of currency, based on 5.52 grains of fine gold.

Coins: 1, 5, 10, 25 and 50 cents.

Notes: \$1, \$5, \$10, \$20, \$50, \$100, \$500.

Exchange rate: \$6.0 Eth. = £1 sterling

\$2.5 Eth. = \$1 U.S.

ETHIOPIA—(THE CONSTITUTION)

THE CONSTITUTION

(SUMMARY)

The present constitution came into force in 1955 and under its terms divides political power between the Emperor and a bicameral parliament.

THE EMPEROR

The Emperor appoints Ministers, determines the powers of Ministries and controls officials. With the advice and consent of Parliament he may declare war. As Commander-in-Chief he appoints officers and may determine the size of the armed forces. He may declare a state of siege, martial law or national emergency. The Emperor directs Foreign Affairs. He alone has the right to settle disputes with foreign powers and to ratify treaties and other international agreements. All treaties requiring territorial adjustment or financial expenditure require the approval of both Houses of Parliament. The Emperor has the right to originate legislation and other resolutions in Parliament and to proclaim laws when they have been passed by Parliament. He convenes annual and extraordinary sessions of Parliament and has the right to dissolve the same by an order providing at the same time for the appointment of a new Senate and/or election of a new Chamber of Deputies, within four months from the date of the order. He appoints the members of the Senate but the members of the Chamber of Deputies are elected.

In April 1966 a Cabinet of Ministers selected by the Prime Minister was approved by the Emperor. This was the first occasion on which such a procedure was adopted.

MINISTERS

The Prime Minister is appointed by the Emperor to whom he submits the proposed Cabinet Ministers. The Cabinet is responsible to the Prime Minister. The Prime Minister and Cabinet are collectively responsible for legislative proposals to the Emperor and to Parliament. The Prime Minister presents to Parliament proposals of legislation made by the Council of Ministers and approved

by the Emperor and presents to the Emperor the proposals of legislation approved by Parliament and decrees proposed by the Council of Ministers. All Ministers have the right to attend any meeting of either Chamber of Parliament and to speak there. They may be obliged to attend, either in person or by deputy, in either Chamber on the request of a majority vote and to answer verbally or in writing questions concerning their office.

PARLIAMENT

Parliament is composed of the Chamber of Deputies and the Senate. The Chamber has 200 members elected by universal adult suffrage every four years. The Senate is composed of a maximum of 105 members appointed by the Emperor for a term of six years with one-third of its members reaching the end of their term every two years. Senators may be reappointed for more than one term. The Chambers may meet in joint session or separately. The date of their regular sessions is fixed by the Constitution. Laws may be proposed to either or both Chambers either by the Emperor or by ten members of either Chamber. Proposals for legislation approved by both Chambers are sent to the Emperor who may return them for further consideration. In case of emergency during a Parliamentary recess decrees may be promulgated by the Emperor having the force of law but such decrees must subsequently be ratified by Parliament. No taxation may be imposed except by law and all financial legislation must originate in the Chamber of Deputies.

ERITREA

In 1950 a UN resolution provided for the federation of Ethiopia and Eritrea. The new constitution came into force in September 1952.

Late in 1962 Eritrea was incorporated as a Governorate of Ethiopia and the separate Assembly was dissolved. (There are now fourteen Governorates in Ethiopia.)

TOURISM

The two names by which Ethiopia is known—Land of the Queen of Sheba and Land of the Lion of Judah—indicate some of the richness of her historical and cultural background. The Land of Sheba was one of the wealthiest and most powerful kingdoms of ancient times and extended farther than the present boundaries of Ethiopia into what is now the Yemen. It was a centre of international trade. Axum was the original capital of the Queen of Sheba and still provides a relic of its former glory in the form of two obelisks carved from solid granite. A seventeenth-century cathedral, built on the site of a chapel of A.D. 340, is a shrine where the Emperors were crowned for many years; the Treasury contains a collection of ancient crowns and vestments. Other early monuments of Ethiopia's civilization are the rock-hewn churches at Lalibela, with intricate carvings and many paintings, which are in part of Axumite origin.

Christianity was introduced into Ethiopia early in the fourth century A.D. and the country soon became a stronghold of the Coptic branch. The strength of early Christian faith can be seen today in the monasteries on islands in Lake Tana and the fortress monastery at Debre Damo, which was never taken by force; it could only be reached by climbing a 60-ft. rope and is now the site for the Festival of Timkat. During the Middle Ages Ethiopia became isolated from the rest of the world (from this period there remains the walled city of Harar, at the top of a mountain pass), and was weakened by frequent Muslim incursions and internal problems, but it remained independent and in the mid-nineteenth century reunification took place and the building of modern Ethiopia was begun. Although the

sixteenth and seventeenth centuries were a period when Ethiopia was isolated and threatened by internal strife, they were also a time of flourishing building, particularly of a religious nature; of especial note are the churches and castles of Gondar, the capital of Ethiopia for more than 200 years.

Because of the rugged nature of its landscape and the moral strength of its inhabitants Ethiopia has remained relatively little influenced by outside forces, and traditions are very strong—the present monarch, Haile Selassie I, is the 225th in the Solomonic dynasty, established by Solomon and the Queen of Sheba. Apart from many places of historical interest to be visited, Ethiopia also offers many different types of scenery and climate, including the source of the Blue Nile and the falls at Tiss Abbai, and a great variety of wild life and big game. Modern cities such as Addis Ababa and Asmara also contain much of historical interest.

Tourism has grown rapidly in recent years, rising from 9,340 tourists in 1962 to 27,859 in 1967, when income from visitors amounted to about E\$16 million. All the main tourist centres are served by good hotels.

MARTINIQUE
RÉUNION

The Overseas Departments (Départements d'Outre-Mer) are integral parts of the French Republic, administered by a Prefect, with elected General Councils and with elected representatives in the French National Assembly and Senate of the Republic in Paris. The administrative structure is the same as in other French Departments; however, each of the Overseas Departments has its own Court of Appeal. Educational services are attached to the Bordeaux educational district for the Caribbean Departments, and to the Marseilles district for Réunion.

Ministry of Overseas Departments and Territories: 27 rue Oudinot, Paris 7e.

Minister: HENRI REY.

Secretary-General: MICHEL GROLLEMUND.

GUADELOUPE

Guadeloupe is the most northerly of the Windward Islands in the east Caribbean; Dominica lies to the south, and Antigua and Montserrat to the north-west. Guadeloupe is formed by two large islands, Grande-Terre and Basse-Terre, separated by a narrow sea channel, with a smaller island, Marie-Galante, to the south-east. There are also a number of small dependencies. The capital is the town of Basse-Terre; the other main town and principal commercial centre is Pointe-à-Pitre on Grande-Terre.

Guadeloupe was first occupied by the French in 1635, and has been an integral part of the French Republic since 1815. She gained departmental status in 1946.

The economy is based on sugar cane, which is mainly exported to France, together with its by-products molasses and rum, and smaller amounts of bananas, vanilla and cocoa. As in the other island departments, the population is rising quickly and there is considerable emigration; attempts are being made to create processing industries and to develop the tourist potential of the islands.

FRENCH GUIANA

French Guiana lies on the coast of South America with Surinam to the west and Brazil to the south and east. Much the largest of the Overseas Departments, it is also the least densely populated. The climate is humid, with a season of heavy rains from April to July and another short rainy season in December and January. The population includes nomadic Indians, Creoles, Africans and Europeans. The capital and main centre of population is Cayenne.

French occupation commenced in the early seventeenth century, and after periods of Dutch and English rule Guiana reverted to France in 1816. She gained departmental status in 1946.

The economy is based on forestry and agriculture; cassava, bananas, maize and other tropical crops are grown for local consumption, while sugar cane is the only cash crop of importance. There are vast timber reserves and important mineral sources, particularly of gold and bauxite. Extractive industries are being developed. France set up one of her principal space research stations at Kourou, following the closure of her Saharan station in Algeria in 1967.

GABON

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Gabon is an equatorial country on the west coast of Africa with Cameroon to the north and the Congo (Brazzaville) to the south and east. The climate is tropical with an average temperature of 79°F (26°C) and an annual rainfall of 98 inches. The official language is French but Bantu dialects are widely spoken. About 65 per cent of the population are Christians, mainly Roman Catholics. Most of the others follow animist beliefs. The flag consists of horizontal green, gold and blue stripes. The capital is Libreville.

Recent History

Formerly a province of French Equatorial Africa, Gabon gained internal autonomy in 1957. In 1958 it joined the French Community and attained independence in August 1960. Gabon is a member of the Conference of Heads of State of Equatorial Africa. French intervention under a defence treaty assisted in suppressing a military coup against the Government in February 1964. A general election was held in mid-April 1964. The first President, Léon M'ba, died in November 1967 and was succeeded by the Vice-President, Albert Bongo.

Government

The Constitution of 1967 vests executive power in the President and a Council of Ministers appointed by him. The legislative organ is the unicameral National Assembly of 47 Deputies elected by universal suffrage for a five-year term. The country is divided into 9 administrative regions, each under a Prefect.

Defence

Cadres have been formed with a view to building up an Army, Navy and Air Force. A Treaty of Military Assistance is in force with France.

Economic Affairs

Although timber production has declined over the last five years forestry is still the main industry. Mineral production has been rising steadily. Crude oil production, already fifth highest in Africa, is expected to increase substantially in the future as the result of new discoveries. The manganese deposits at Moanda in the south form one of the world's richest sources. There have also been recent discoveries of major iron ore deposits at Mékambo in the north-east. Other minerals produced are uranium and gold, and an oil refinery for the five states of the UDEAC is being built at Port-Gentil. Agricultural products include palm oil, coffee, cocoa and rice. There is fishing in the lagoons, rivers and lakes. A Five-Year Plan, 1966-70, provided for the investment of about £37 million, mainly to develop natural resources. Gabon is an associate member

of the European Economic Community (EEC), and a member of the Central African Economic and Customs Union (UDEAC), and the Afro-Malagasy Joint Organization (OCAM).

Transport and Communications

There is a 47-mile cableway and a 184-mile railroad linking the manganese mines at Moanda with the Congo (Brazzaville) port of Pointe-Noire. Another line is planned for the newly-discovered iron ore deposits at Mékambo. There are 1,000 miles of national roads and 1,500 miles of regional roads. The widespread forests make air transport very important and there is an airport capable of handling jets at Libreville. The two Atlantic ports are at Libreville and Port Gentil.

Social Welfare

There is a national Fund for State Insurance, and the aged and the sick are given assistance at several centres.

THE GAMBIA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

The Gambia is a narrow territory around the River Gambia in West Africa, surrounded on three sides by Senegal. The climate is tropical, and away from the river swamps most of the country is savanna bush. English is the official language; the principal vernacular languages are Mandinka and Woloff. The main religions are Islam and Christianity, with some adherents of Animism. The flag is of red, blue and green horizontal bands, with two white stripes bordering the centre blue band. Bathurst is the capital.

Recent History

The Gambia made continuous progress towards independence from 1888, when it became a Crown Colony. In May 1962 a new constitution came into effect, and after a general election, the leader of the People's Progressive Party, Dr. (later Sir) Dauda K. Jawara, took office as Premier. Full internal self-government followed in October 1963. In February 1965 Gambia became an independent country within the Commonwealth. Special agreements with Senegal cover defence, external affairs, and development of the Gambia River basin. In May 1965 Republican status for The Gambia was rejected by a referendum.

Government

Legislative power is exercised by Parliament; the House of Representatives is made up of an elected Speaker, the Attorney-General, 32 elected members, four elected Head Chiefs, and four nominated members. Executive authority is in the hands of the Prime Minister and Cabinet. The Queen's representative is the Governor-General. The Supreme Court and the former protectorate High Court merged in 1965.

Economic Affairs

The economy is based on peasant cultivation of groundnuts which account for over 90 per cent of The Gambia's exports. The acreage under rice is increasing, progress towards self-sufficiency being aided by the Republic of China (Taiwan). Textiles and clothing are significant items of The Gambia's imports. The Senegalese-Gambian Inter-Ministerial Committee has been meeting since 1961, and on February 7th, 1969 announced agreement in principle on a customs union. Budgetary aid from the U.K. continued until 1967. The Gambian pound was devalued with sterling in November 1967.

Transport and Communications

Roads in and near Bathurst are bitumenized and this has now been extended to the provinces, 330 miles of the 730 miles of roads being all-season, but in outlying parts they may be closed during the rains, from mid-July to early November. There are no railways. River transport is commonly by launch. The port of Bathurst receives about 250 ships annually, and there are intermittent sailings to and from North Africa, the Mediterranean and the Far East. There is an airport of international standard outside Bathurst at Yundum.

Social Welfare

There is a well-equipped modern hospital at Bathurst, a small hospital at Bansang in the middle river area, and a network of health centres and dispensaries throughout the country. In addition, there is a tuberculosis sanatorium and a leprosy settlement; treatment for leprosy is available also at fifty clinics. Maternity and child welfare clinics are found at 21 centres.

Education

In The Gambia there are over 100 schools with about 20,000 pupils, half of these being at Bathurst. Primary education is free but not compulsory. Gambia High School at Bathurst provides full secondary courses to University entrance, and the Catholic Mission runs separate secondary schools for boys and girls. Education is being expanded in rural areas. In 1968 the literacy rate was estimated at around 15 per cent in English and about 20 per cent in Arabic.

Tourism

The territory has potential as a winter tourist resort. The fort on James Island and the Stone Circles are sights of interest. As well as the traditional sport of wrestling, and sailing, shooting and fishing, Gambia offers a haven for bird watchers, over 400 species of birds having been recorded.

Visas are not required to visit the Gambia by nationals of: Belgium, Denmark, Federal Republic of Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Spain, Sweden, Turkey, and United Kingdom.

Sport

Wrestling is the traditional national sport, as well as fishing, sailing, shooting, golf, cricket, and association football. Athletics, tennis, squash, badminton and volleyball are also available.

Public Holidays

1970: May 24 (Commonwealth Day), May 18 (Birth of the Prophet), August 15 (Assumption), November 30 (Id ul Fitr), December 25-26 (Christmas).

1971: January 1 (New Year), February 6 (Id ul Kebir), February 18 (Independence Day), April 9-12 (Easter), April 21 (The Queen's Birthday).

Weights and Measures

Imperial weights and measures are used. Importers and traders also use the metric system.

The unit of currency is the Gambian pound, at par with the £ sterling.

Coins: 1d., 3d., 6d., 1s., 2s., 4s.

GHANA

INTRODUCTORY SURVEY

Location, Climate, Language, Religion, Flag, Capital

Ghana lies on the west coast of Africa between the Ivory Coast and Togo. The climate is tropical with temperatures of 70°-90°F (21°-32°C) and rainfall of 80 inches a year on the coast, decreasing inland. English is the official language, but there are eight major national languages. Many people follow traditional beliefs and customs. Christians make up 42 per cent of the population. The flag has three horizontal stripes of red, gold and green, the gold stripe being charged with a five-pointed black star. The capital is Accra.

Recent History

Formerly the British Crown Colony of the Gold Coast, Ghana became an independent state in March 1957. Ghana played a leading part in forming two African Groups, subsequently dissolved: the Union of African States and the Casablanca Group.

On February 24th, 1966, President Nkrumah was overthrown by a coup d'état and a National Liberation Council (NLC) of army and police personnel established to rule by decree. On August 22nd, 1969, the Constituent Assembly, set up by the N.L.C., promulgated the constitution of the Second Republic of Ghana, and, after general elections on August 29th, the return to civilian rule took place at the beginning of September when Dr. K. A. Busia and the Progress Party formed the first government under the new constitution.

Government

The Constitution provides for a President, elected by an electoral college, a Prime Minister appointed by the President from the majority party in the Assembly and a National Assembly, at present of 140 members. Safeguards against abuse of power, such as interference with elections, the judiciary, the press etc., are written into the constitution. As an interim measure a three-man Presidential Commission is at present performing the functions of President.

Defence

The defence forces consist of units of the Army 15,000, Air Force 1,000 and Navy 1,000. There is a police force of about 9,000. Ghanaian contingents served in the Congo under United Nations command. The headquarters of the Defence Commission of the Organization of African Unity is in Accra.

Economic Affairs

Ghana is primarily an agricultural country, and cocoa, of which she is the world's largest producer, is by far the largest export. Other cash crops include copra, palm oil and kernels, coffee and kola nuts. Over 100 farms are state run. Hardwoods, diamonds and gold are also important. Industrial development is mainly concerned with processing food and raw materials for export. A scheme has been launched—with international aid—to exploit the water power of the Volta River, and in January 1966 the

main dam at Akosombo was inaugurated. Ghana opened an oil refinery in 1963, and at the end of 1968 signed agreements with two American companies for the exploration and exploitation of oil both inland and off-shore. An aluminium smelting plant being built as part of the Volta River project began production in 1967.

In 1968 the Government decreed that certain areas of trading, small-scale business and manufacturing operations should be reserved to Ghanaians.

Transport and Communications

The rail network forms a rough triangle linking Accra and Takoradi on the coast with the inland centre of Kumasi. Road traffic is of increasing importance, the Government operating cross-country bus services. Driving on the right-hand side of the road was adopted in 1965. Construction began in 1964 on a metalled road link to Ivory Coast. National air and shipping lines have been formed.

Social Welfare

The Government provides hospitals and medical care at nominal rates, and there is a Government pension scheme, but national insurance schemes have yet to be implemented. The Ministry of Labour and Social Welfare deals with both urban and rural problems including literacy, child welfare and factory legislation.

Education

Primary, secondary and technical education are free, and compulsory for children aged six to twelve in the primary schools and twelve to sixteen in the middle schools. The number of schools has greatly increased during the past decade. There are two universities with over 3,000 students and a new university college has been set up at Cape Coast.

Tourism

Ghana is seeking to develop her tourist trade. The attractions include fine beaches, game reserves, and the old British, Dutch and Portuguese trading forts and castles.

Visas are not required to visit Ghana by nationals of: Australia, Canada, Gambia, India, Ireland, Malawi, Malaysia, New Zealand, Nigeria, Pakistan, Sierra Leone, South Africa (non-whites), United Kingdom and Colonies, or Zambia.

Sport

Ghana's national sport is football and she has three times won the West African Football Competition. Horse racing, tennis, boxing and athletics are popular. The Central Organization of Sports was established in 1960 to develop an active participation in sport and athletics.

Public Holidays

1970: August 4, December 25 and 26 (Christmas).

1971: January 1 (New Year's Day), February 24 (Liberation Day), March 6 (Independence Day), April 9-12 (Easter).

JUDICIAL SYSTEM

The Civil law in force in Ghana is based on the Common Law, doctrines of equity and general statutes which were in force in England in 1874, as modified by subsequent Ordinances. Ghanaian customary law is however the basis of most personal, domestic and contractual relationships and the Supreme Court has power to enforce it. Criminal law is based on the Criminal Code, enacted at the end of the nineteenth century and dependent on English Criminal Law, and since amended at intervals.

The Supreme Court: The Supreme Court of Ghana was constituted on 1st July, 1960. It consists of the Chief Justice as President and five Judges of the Supreme Court. The Supreme Court of Ghana is the highest and final Appellate Court on both civil and criminal matters.

The High Court: The High Court of Ghana has an original jurisdiction in all matters, civil and criminal. Trial by jury is practised in criminal cases in Ghana and the Criminal Procedure Code, 1960, provides that all trials on indictment shall be by a jury or with the aid of Assessors. Appeals from the High Court lie to the Supreme Court of Ghana.

The Circuit Court: Circuit Courts were created in 1960, and the jurisdiction of a Circuit Court consists of an original jurisdiction in civil matters where the amount involved does not exceed NC4,000. It has also jurisdiction with regard to the guardianship and custody of infants, and original jurisdiction in criminal matters in case of offences other than offences where the maximum punishment is death or life imprisonment. Finally it has appellate jurisdiction from decisions of any District Court situated within its circuit.

District Courts: District Magistrates exercise summary jurisdiction throughout the country. In criminal cases Magistrates have jurisdiction to impose sentences of imprisonment up to one year and fines not exceeding NC500. They also hear civil suits in which the amount involved does not exceed NC1,000.

Juvenile Courts have been set up in Accra, Kumasi, Koforidua, Sekondi, Tamale, Sunyani and Ho. They consist either of three citizens selected from a panel of Juvenile Court Magistrates or of a Stipendiary Magistrate sitting with two of the panel. The public is excluded from proceedings of Juvenile Courts which are empowered to place a child in the care of a relative, Probation Officer or other suitable person, to negotiate with parents to secure the good behaviour of a child.

Local Courts: Local Courts now replace the former Native Courts. They have both civil and criminal jurisdiction. In civil cases they enjoy exclusive jurisdiction in cases where customary law is involved and in personal suits up to £100. They have limited criminal jurisdiction and cannot impose a fine exceeding £25 or a sentence of three months imprisonment. However, they have unlimited jurisdiction as to persons of all races living within their areas of jurisdiction. Control is exercised by the Judges of the Circuit and High Court by way of appeals and reviews in accordance with the Courts Act, 1960. Appeals lie either to the Circuit or High Court, depending on the nature of the suit and thence to the Supreme Court. Whilst in land causes a person aggrieved by any decision may appeal to the High Court, in succession causes he may appeal to the Circuit Court and thereafter to the Supreme Court if the value of the subject-matter exceeds £100.

Chief Justice: E. AKUFFO-ADDO.

Supreme Court Judges: S. AZU CRABBE; NII AMAA OLLENU; F. K. APALOO; G. S. LASSEY; I. AMISSAH.
